Background

The FAA is developing a new Advisory Circular, AC 20-138A, Airworthiness Approval of Global Navigation Satellite System (GNSS) Equipment. This advisory circular (AC) provides guidance material for the airworthiness approval of all types of GNSS equipment. This revision to the current AC is in support of the deployment of the Wide Area Augmentation System (WAAS) and the Local Area Augmentation System (LAAS). WAAS services will be commissioned in 2003, providing en route, terminal area, and approach navigation. WAAS avionics may be approved under an authorization to Technical Standard Order (TSO) C-1145a, GPS/WAAS Sensors, or TSO-C146a, GPS/WAAS Stand Alone Navigation Equipment. This equipment may be installed prior to the commissioning of WAAS, and this AC is needed to provide the unique policy applicable to such installations. In addition, the LAAS will become operational in 2004. LAAS guidance is included in this AC to support the early installation of the associated avionics.

How To Obtain Copies

A copy of the revised draft AC may be obtained using the Internet Web site address <http://www.airweb.faa.gov/RGL> or you may request a copy from the individual listed under **FOR FURTHER INFORMATION CONTACT**.
