7 CFR Part 354

[Docket No. 02-085-1]

AQI User Fees: Extension of Current Fees Beyond Fiscal Year 2002

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Interim rule and request for comments.

SUMMARY: We are amending the user fee regulations to ensure that fiscal year 2002 user fee rates remain in effect beyond fiscal year 2002 until the fees are revised. In a final rule published in the **Federal Register** on November 16, 1999, we amended the regulations by adjusting the fees charged for certain agricultural quarantine and inspection services we provide in connection with certain commercial vessels, commercial trucks, commercial railroad cars, commercial aircraft, and international airline passengers arriving at ports in the customs territory of the United States. We should have stated that the fees for fiscal year 2002 would remain in effect until changed by further rulemaking; instead, we indicated that the fees would remain in effect through September 30, 2002. This interim rule will extend existing user fee rates and continue to allow the collection of the fees beyond that date.

DATES: This interim rule is effective September 3, 2002. We will consider all comments that we receive on or before November 4, 2002.

SUPPLEMENTARY INFORMATION:

Background

Section 2509(a) of the Food, Agriculture, Conservation, and Trade Act of 1990 (21 U.S.C. 136a), referred to below as the FACT Act, authorizes the Animal and Plant Health Inspection Service (APHIS) to collect user fees for agricultural quarantine and inspection (AQI) services. The FACT Act was amended by section 917 of the Federal Agricultural Improvement and Reform Act of 1996 (Pub. L. 104-127), on April 4, 1996.

The FACT Act, as amended, authorizes APHIS to collect user fees for providing AQI services in connection with the arrival at a port in the customs

territory of the United States, or the preclearance or preinspection at a site outside the customs territory of the United States, of:

- Commercial vessels,
- Commercial trucks,
- Commercial railroad cars,
- Commercial aircraft, and
- International airline passengers.

According to the FACT Act, as amended, these user fees should recover the costs of:

- Providing the AQI services listed above,
- Administering the user fee program, and
- Until September 30, 2002, maintaining a reasonable balance in the Agricultural Quarantine Inspection User Fee Account (AQI account).

On November 16, 1999, we published in the **Federal Register** (64 FR 62089-62096, Docket No. 98-073-2) a final rule amending the user fee regulations in § 354.3 by adjusting the fees charged for certain AQI services we provide in connection with certain commercial vessels, commercial trucks, commercial railroad cars, commercial aircraft, and international airline passengers arriving at ports in the customs territory of the United States. We should have stated that the fees for fiscal year (FY) 2002 would remain in effect until changed by further rulemaking; instead, we indicated that the fees would remain in effect through September 30, 2002. In order to recover our costs for providing AQI services after that date, we need to continue to collect user fees.

Therefore, we are amending the AQI user fee regulations in § 354.3 to ensure that FY 2002 user fee rates remain in effect beyond FY 2002 until the fees are revised. This interim rule will extend existing user fee rates and continue to allow the collection of the fees beyond September 30, 2002. Collection of these fees is necessary for the continuance of specific border inspection activities that are essential to protect U.S. agriculture from plant and animal disease and pest threats.

Immediate Action

Immediate action is necessary to continue to allow the collection of AQI user fees beyond September 30, 2002. Under these circumstances, the Administrator has determined that prior notice and opportunity for public comment are contrary to the public interest and that there is good cause

under 5 U.S.C. 553 for making this action effective less than 30 days after publication in the **Federal Register**.

We will consider comments we receive during the comment period for this interim rule (see **DATES** above). After the comment period closes, we will publish another document in the **Federal Register**. The document will include a discussion of any comments we receive and any amendments we are making to the rule.

Executive Order 12866 and Regulatory Flexibility Act

This rule has been reviewed under Executive Order 12866. The rule has been determined to be not significant for the purposes of Executive Order 12866 and, therefore, has not been reviewed by the Office of Management and Budget.

This interim rule amends the AQI user fee regulations to ensure that current fees remain in effect until adjusted through further rulemaking.

Under these circumstances, the Administrator of the Animal and Plant Health Inspection Service has determined that this action will not have a significant economic impact on a substantial number of small entities.

Executive Order 12372

This program/activity is listed in the Catalog of Federal Domestic Assistance under No. 10.025 and is subject to Executive Order 12372, which requires intergovernmental consultation with State and local officials. (See 7 CFR part 3015, subpart V.)

Executive Order 12988

This rule has been reviewed under Executive Order 12988, Civil Justice Reform. This rule: (1) Preempts all State and local laws and regulations that are inconsistent with this rule; (2) has no retroactive effect; and (3) does not require administrative proceedings before parties may file suit in court challenging this rule.

Paperwork Reduction Act

This rule contains no new information collection or recordkeeping requirements under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Airworthiness Directives; Raytheon Model BAe.125 Series 1000A Airplanes and Model Hawker 1000 Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule; rescission.

SUMMARY: This amendment rescinds an existing airworthiness directive (AD), applicable to certain Raytheon Model BAe.125 Series 1000A Airplanes and Model Hawker 1000 airplanes. That AD currently requires inspections of the thrust reverser system for integrity, and correction of any discrepancy found. The requirements of that AD were intended to prevent a significant reduction in the controllability of the airplane due to an in-flight deployment of a thrust reverser. Since the issuance of that AD, the FAA has issued a separate AD that requires the accomplishment of modifications that terminate the requirements of the existing AD.

DATES: Effective September 3, 2002.
