

Administration (SAMHSA), Department of Health and Human Services.

SUMMARY: The Center for Substance Abuse Prevention (CSAP), Substance Abuse and Mental Health Services Administration (SAMHSA), is publishing this notice to provide information to the public concerning a planned single source cooperative agreement supplemental award in the amount of \$300,000 in FY 2002, for a project period of one year, to the District of Columbia State Incentive Grant Program, to fund Best Friends Youth Development Program and "Marriage is Manly" Media Campaign. This is not a formal request for applications. Assistance will be provided only to the District of Columbia State Incentive Grant for the sole purpose of funding the Best Friends Foundation based on the receipt of a satisfactory application that is approved by an independent review group.

Authority/Justification: The grant will be made under the authority of Section 509 of the Public Health Service Act 93.243, as amended. This award is being made on a single source basis because the Best Friends Foundation has a record of success and is a long-term youth-development program that encompasses a myriad of activities for youth development including advocating sexual abstinence and prevention of alcohol and drug abuse. Its work can be categorized as education, youth development, health, family development, neighborhood revitalization and welfare reform. The expansion of these activities to focus on men is appropriate as Best Friends Foundation's work with girls has been so successful. Making the award to another entity would require additional start-up time and costs, significant loss of critical information, as well as duplication of previously completed work.

The Catalog of Federal Domestic Assistance (CFDA) number for this program is 93.243.

BILLING CODE 4310–33–P

DEPARTMENT OF THE INTERIOR**Bureau of Reclamation**

**Fish Passage Improvement Project at
the Red Bluff Diversion Dam, Tehama
County, California**

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of Availability (NOA) of the Draft Environmental Impact Statement/Environmental Impact Report (DEIS/EIR) and notice of public hearing.

SUMMARY: The Bureau of Reclamation and the Tehama-Colusa Canal Authority (TCCA) have made available for public review and comment the DEIS/EIR for the Fish Passage Improvement Project at the Red Bluff Diversion Dam.

The DEIS/EIR outlines the proposed project alternatives that seek to address issues related to the Red Bluff Diversion Dam, including fish passage and water supply. Current dam operations do not adequately allow passage of threatened and endangered fish species. Additionally, current dam operations create a situation where agricultural demand outstrips the dam's capacity to deliver water. To address these critical issues, TCCA and Reclamation are working together to determine an appropriate solution.

The project goals are to:

- Substantially improve the long-term reliable level of anadromous fish passage, both upstream and downstream, past the Red Bluff Diversion Dam.

- Substantially improve the long-term ability to reliably and cost-effectively move sufficient water into the Tehama-Colusa Canal and the Corning Canal systems to meet the needs of the water districts served by the TCCA.

The TCCA and Reclamation are working together as "co-lead" agencies, sponsoring this project to achieve the same project purpose and need. However, they are independent agencies with various interests and methods for approaching a project such as this one. Work conducted to date has built upon a wide array of previous studies conducted at the dam.

DATES: A public hearing will be held on September 25, 2002, to provide the public with an opportunity to study and comment on environmental issues
