

TRU waste and 1,700 cubic meters of contact-handled TRU waste would be transported from offsite DOE generator sites to Hanford over 20 years (see WM PEIS, Table 8.1-1 and Section 8.3.4). The potential risks associated with transportation (including routine and accident conditions) of the total of approximately 36 total cubic meters that DOE has now decided to ship would be small and much less than the transportation impacts (including routine and accident risks) identified in the WM PEIS (see WM PEIS, Sections 8.4.2, 8.7.5, and 8.10.1.1). In addition, the WIPP SEIS-II specifically analyzed transportation corridor impacts between ETEC and Hanford, which were small (see WIPP SEIS-II, Section 5.1.8). The volume of ETEC waste currently projected to be shipped to Hanford after volume reduction (11 cubic meters to 9 cubic meters) is identical to that analyzed in the WIPP SEIS II (see WIPP SEIS-II, Table 2-2).

In addition, the Environmental Assessment for Battelle Columbus Laboratories Decommissioning Project identified transportation corridor impacts between West Jefferson and Hanford for shipping 1,800 cubic meters of TRU waste over a period of 2 years and also found that the potential impacts would be very small. The 27 cubic meters of West Jefferson waste DOE has now decided to ship, and thus the potential transportation corridor impacts, would be substantially less than those identified in the environmental assessment.

The WM PEIS analyzed the onsite impacts at Hanford of storing, characterizing, and preparing up to 17,000 cubic meters of remote-handled TRU waste and 38,000 cubic meters of contact-handled TRU waste for shipment to WIPP (TRU waste generated at Hanford and TRU waste shipped to Hanford from offsite generators [Lawrence Berkeley Laboratory, Lawrence Livermore National Laboratory, Idaho National Engineering and Environmental Laboratory, and Los Alamos National Laboratory]) (see WM PEIS, Table 8.1-1 and Section 8.3.4). The health and environmental impacts of managing these volumes of waste at Hanford were small (see WM PEIS, Volume II, Site Data Tables, Section II.5.3). Although the WM PEIS did not analyze the specific waste inventory at West Jefferson and ETEC that DOE has now decided to ship to Hanford (approximately 36 cubic meters total), the characteristics of the West Jefferson and ETEC wastes are similar to the TRU wastes analyzed in the WM PEIS at Hanford. Further, the waste volumes to be shipped to Hanford would represent

a very small fraction of the total contact- and remote-handled TRU waste to be prepared at Hanford for shipment to WIPP (0.07 percent) as analyzed in the WM PEIS.

For the reasons stated above, DOE is revising its earlier decision and will transfer approximately 27 cubic meters of TRU waste from the West Jefferson site and approximately 9 cubic meters of TRU waste from the ETEC site to Hanford for storage until certification and shipment to WIPP for disposal. Low-level waste (if any) identified during the certification process will be disposed of at Hanford according to existing procedures.

Issued in Washington, DC, this 27th day of August, 2002.

Jessie Hill Roberson,

Assistant Secretary for Environmental Management.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. ER02-2236-002]

Ameren Services Company; Notice of Filing

August 27, 2002.

Take notice that on August 22, 2002, Ameren Services Company (ASC) tendered for filing an unexecuted Network Integration Transmission Service Agreement and Network Operating Agreement between ASC and Southwestern Electric Cooperative, Inc. ASC asserts that the purpose of the Agreement is to replace the unexecuted Agreements in Docket No. ER02-2236-000 with the revised unexecuted Agreements with Cinergy Power Marketing, as agent for Southwestern Electric Cooperative, Inc.

Any person desiring to intervene or to protest this filing should file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. All such motions or protests should be filed on or before the comment date, and, to the extent applicable, must be served on the applicant and on any other person

designated on the official service list. This filing is available for review at the Commission or may be viewed on the Commission's Web site at <http://www.ferc.gov>, using the "FERRIS" link. Enter the docket number excluding the last three digits in the docket number filed to access the document. For assistance, call (202) 502-8222 or TTY, (202) 208-1659. Protests and interventions may be filed electronically via the Internet in lieu of paper; see 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings.

Comment Date: September 12, 2002.

Linwood A. Watson, Jr.,

Deputy Secretary.

[Docket No. ER02-1688-002]

Central Illinois Generation, Inc.; Notice of Filing

August 30, 2002.

Take notice that on August 27, 2002, Central Illinois Generation (CIGI) tendered for filing with the Federal Energy Regulatory Commission (Commission) additional information to support CIGI's Application for Market-Based Rate Authority, Waivers and Acceptance of Power Supply and Interconnection Agreements filed on May 1, 2002, as supplemented on June 14, 2002, in Docket No. ER02-1688-000.

Any person desiring to intervene or to protest this filing should file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding.
