Needs and Uses: FCC Form 605 is a consolidated application form for Ship, Aircraft, Amateur, Restricted and Commercial Radio Operators, and General Mobile Radio Services that is used to collect licensing data for the Universal Licensing System (ULS). The form has been revised to add a Schedule G for applicants that require exemption from the radio provisions of ship station requirements, replacing FCC Form 820; to create a new operator class code for the Restricted and Commercial Radio Operators; to eliminate the Taxpayer Identification Number (TIN); and to clarify various general instructions. Although FCC Form 605 collects the Commercial Operator licensees' date of birth, this information will be redacted from public view. These revisions have, consequently, increased both the number of applicants (respondents) who file Form 605 and the estimated total annual hour burden.

Federal Communications Commission.
