

project. The Appellant also requests an override of the State's objection on the two substantive grounds provided in the CZMA. The first ground requires the Secretary to determine that the proposed activity is "consistent with the objectives" of the CZMA. To make this determination, the Secretary must find that: (1) The proposed activity furthers the national interest as articulated in section 302 or 303 of the CZMA, in a significant or substantial manner; (2) the national interest furthered by the proposed activity outweighs the activity's adverse coastal effects, when those effects are considered separately or cumulatively; and (3) no reasonable alternative is available that would permit the proposed activity to be conducted in a manner consistent with the enforceable policies of the State of New York's coastal zone management program. 15 CFR 930.121.

The second substantive ground for overriding a State's objection considers whether the proposed activity is necessary in the interest of national security. To reach this conclusion, the Secretary must find that a national defense or other national security interest would be significantly impaired if the activity in question was not permitted to go forward as proposed. 15 CFR 930.122.

II. Public Comments

Public comments are invited on any of the issues that the Secretary must consider in deciding this appeal. Comments must be received by December 2, 2002, and may be submitted by email to Millennium.comments@noaa.gov. Comments may also be sent by mail to the Office of the Assistant General Counsel for Ocean Services, National Oceanic and Atmospheric Administration (NOAA). III. Appeal Documents

The Secretary has required that Millennium file its initial brief and supplementary information on August 12, 2002, and that the State of New York file its initial brief and supplementary material on September 30, 2002. NOAA intends to provide the public with access to all materials and related documents comprising the appeal record via the Internet at <http://www.ogc.doc.gov/czma.htm>, except that certain materials or documents or portions thereof may be withheld if they contain confidential materials, critical energy infrastructure information,

national security information or other types of information that would be inappropriate for public release. Likewise, these public materials and documents also will be available during business hours at the NOAA Office of the Assistant General Counsel for Ocean Services. In addition, the State of New York may make copies of public filings by the parties available for review during business hours at the office of the New York Department of State.

SUPPLEMENTARY INFORMATION:

Authority

Issuance of permits and permit modifications, as required by the Endangered Species Act (ESA) of 1973 (16 U.S.C. 1531-1543), is based on a finding that such permits/modifications: (1) are applied for in good faith; (2) would not operate to the disadvantage of the listed species which are the subject of the permits; and (3) are consistent with the purposes and policies set forth in section 2 of the ESA. Authority to take listed species is subject to conditions set forth in the permits. Permits and modifications are issued in accordance with and are subject to the ESA and NMFS regulations governing listed fish and wildlife permits (50 CFR parts 222-226).

Those individuals requesting a hearing on an application listed in this notice should set out the specific reasons why a hearing on that application would be appropriate (see **ADDRESSES**). The holding of such a hearing is at the discretion of the Assistant Administrator for Fisheries, NOAA. All statements and opinions contained in the permit action summaries are those of the applicant and do not necessarily reflect the views of NMFS.

Species Covered in This Notice

This notice is relevant to the following one endangered and three threatened salmonid ESUs: Endangered Sacramento River Winter-run Chinook salmon (*Oncorhynchus tshawytscha*), threatened Central Valley Spring-run Chinook salmon, threatened Central

California Coast steelhead (*O. mykiss*) and threatened Central Valley steelhead.

Modification Request Received

TRPA requests a modification to permit 1180 for takes of adult and juvenile ESA-listed Chinook salmon and steelhead associated with studies monitoring the distribution and relative abundance of fish populations, data evaluations, and habitat monitoring. Presently, permit 1180 authorizes intentional takes of adult and juvenile threatened Southern Oregon/Northern California Coast coho salmon (*O. kisutch*), threatened Central California Coast coho salmon and endangered Southern California coast steelhead. This requested modification would add intentional takes of threatened Central Valley Spring-run Chinook salmon, endangered Sacramento River Winter-run Chinook salmon, threatened Central California Coast steelhead, and threatened Central Valley steelhead to TRPA's permit.
