This document is intended to notify the general public.

DATE AND TIME: Friday, September 27, 2002, beginning at 11 a.m. and ending at approximately 11:30 a.m.

ADDRESS: Capitol Place, 80 F Street, NW., Room 413, Washington, DC 20001

FOR FURTHER INFORMATION CONTACT: Dr. Brian K. Fitzgerald, Staff Director, Advisory Committee on Student Financial Assistance, Capitol Place, 80 F Street, NW., Room 413, Washington, DC 20202-7582 (202) 219-2099.

SUPPLEMENTARY INFORMATION: The Advisory Committee on Student Financial Assistance is established under Section 491 of the Higher Education Act of 1965 as amended by Public Law 100-50 (20 U.S.C. 1098). The Advisory Committee serves as an independent source of advice and counsel to the Congress and the Secretary of Education on student

financial aid policy. Since its inception, the Committee has been charged with providing technical expertise with regard to systems of need analysis and application forms, making recommendations that result in the maintenance of access to postsecondary education for low- and middle-income students; conducting a study of institutional lending in the Stafford Student Loan Program; assisting with activities related to the 1992 reauthorization of the Higher Education Act of 1965; conducting a third-year evaluation of the Ford Federal Direct Loan Program (FDLP) and the Federal Family Education Loan Program (FFELP) under the Omnibus Budget Reconciliation Act (OBRA) of 1993; and assisting Congress with the 1998 reauthorization of the Higher Education Act.

The congressional mandate requires the Advisory Committee to conduct objective, nonpartisan, and independent analyses on important aspects of the student assistance programs under Title IV of the Higher Education Act. The Committee traditionally approaches its work from a set of fundamental goals: Promoting program integrity, eliminating or avoiding program complexity, integrating delivery across the Title IV programs, and minimizing burden on students and institutions.

Reauthorization of the Higher Education Act has provided the Advisory Committee with a significantly expanded agenda in several areas, such as, Performance-Based Organization (PBO); Title IV Modernization; Distance Education; and Early Information and Needs Assessment. In each of these areas, Congress has asked the Committee to: Monitor progress toward implementing the Amendments of 1998; conduct independent, objective assessments; and make recommendations for improvement to the Congress and the Secretary. The most important charge of the Advisory Committee is to make recommendations to maintain and improve access to postsecondary education. Each of these responsibilities flows logically from and effectively implements one or more of the Committee's original statutory functions and purposes.

The agenda will focus exclusively on conducting the election of officers for the Advisory Committee. Space is limited and you are encouraged to contact the Advisory Committee staff through the Internet at ADV.COMSEA@ed.gov no later than Tuesday, September 24, 2002, if you wish to participate. Also, you may contact the Advisory Committee staff at (202) 219-2099.

The Advisory Committee will meet in Washington, DC via teleconference on Friday, September 27, 2002, from 11 a.m. until approximately 11:30 a.m.

Records are kept of all Committee proceedings, and are available for public inspection at the Office of the Advisory Committee on Student Financial Assistance, Capitol Place, 80 F Street, NW., Room 413, Washington, DC from the hours of 9 a.m. to 5:30 p.m., weekdays, except Federal holidays.

Dated: September 5, 2002.

Brian K. Fitzgerald,

Staff Director, Advisory Committee on Student Financial Assistance.

ACTION: Notice inviting grant applications.

SUMMARY: The Division of High Energy Physics of the Office of Science (SC), U.S. Department of Energy (DOE), hereby announces its interest in receiving grant applications for support under its Outstanding Junior Investigator (OJI) Program. Applications should be from tenure-track faculty investigators who are currently involved in experimental or theoretical high energy physics or accelerator physics research, and should be submitted through a U.S. academic institution. The purpose of this program is to support the development of individual research programs by outstanding scientists early in their careers. Awards made under this program will help to maintain the vitality of university research and assure continued excellence in the teaching of physics.

DATES: To permit timely consideration for award in Fiscal Year 2003, formal applications submitted in response to this notice must be received before November 1, 2002.

ADDRESSES: We encourage you to submit formal applications in response to this solicitation electronically through DOE's Industry Interactive Procurement System (IIPS) at: <http://e-center.doe.gov/>. IIPS provides for the posting of solicitations and receipt of applications in a paperless environment via the Internet. Applications must be submitted through IIPS in PDF format by an authorized institutional business

official. Questions regarding the operation of IIPS may be e-mailed to the IIPS Help Desk at:

HelpDesk@e-center.doe.gov or you may call the help desk at (800) 683-0751.

Further information on the use of IIPS by the Office of Science is available at: <http://www.sc.doe.gov/production/grants/grants.html>.

SUPPLEMENTARY INFORMATION: The Outstanding Junior Investigator program was started in 1978 by the Department of Energy's Office of Science. A principal goal of this program is to identify exceptionally talented high energy physicists early in their careers and assist and facilitate the development of their research programs. Eligibility for awards under this notice is therefore restricted to non-tenured investigators who are conducting experimental or theoretical high energy physics or accelerator physics research. Since its debut, the program has initiated support for between five and ten new Outstanding Junior Investigators each year. The program has been very successful and contributes importantly to the vigor of the U.S. High Energy Physics program. Applicants should request support under this notice for normal research project costs as required to conduct their proposed research activities. The full range of activities currently supported by the Division of High Energy Physics is eligible for support under this program.

The DOE expects to make five to ten grant awards in Fiscal Year 2003, to meet the objectives of this program. It is
