The Chemical Weapons Convention (CWC) is a multilateral arms control treaty that seeks to achieve an international ban on chemical weapons (CW). The CWC was signed by the United States in Paris on January 13, 1993, and was submitted by President Clinton to the United States Senate on November 23, 1993, for its advice and consent to ratification. The CWC prohibits, *inter alia*, the use, development, production, acquisition, stockpiling, retention, and direct or indirect transfer of chemical weapons.

**Schedule 1 notification and report:** Under Part VI of the CWC Verification Annex, the United States is required to notify the Organization for the Prohibition of Chemical Weapons (OPCW), the international organization created to implement the CWC, at least 30 days before any transfer (export/

import) of Schedule 1 chemicals to another State Party. The United States is also required to submit annual reports to the OPCW on all transfers of Schedule 1 Chemicals.

**SUPPLEMENTARY INFORMATION:****I. Abstract**

Encryption items are an important commercial export for the U.S. but they also have significant strategic uses. This information collection is essential because the responsibility for export authorization for commercial encryption items has been transferred from the Department of State to the Department of Commerce. The information required by this collection is required in support of classification requests regarding encryption items and applications to export or reexport encryption items and encryption software. Overall, U.S. policies continues to develop. A recent regulation liberalizes the licensing policy for exports and reexports of encryption commodities and software to U.S. subsidiaries, insurance companies, health and medical end-users, on-line merchants and foreign commercial firms. As encryption policies continue to develop, paperwork requirements will fluctuate.

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

**SUMMARY:** On March 6, 2002, the Department of Commerce (the Department) published the preliminary results of the administrative reviews of the antidumping duty orders on heavy forged hand tools (HFHTs) from the People's Republic of China (PRC). Imports covered by these orders comprise the following classes or kinds of merchandise: (1) Hammers and sledges with heads over 1.5 kg (3.33 pounds) (hammers/sledges); (2) bars over 18 inches in length, track tools and wedges (bars/wedges); (3) picks/mattocks; and (4) axes/adzes. On February 27, 2001, the petitioner, Ames True Temper, requested administrative reviews of all four classes or kinds of subject merchandise for the following companies: Shandong Machinery Import & Export Corporation (SMC), Fujian Machinery & Equipment Import & Export Corporation (FMEC), Tianjin Machinery Import & Export Corporation (TMC), Liaoning Machinery Import & Export Corporation (LMC), and Shandong Huarong General Group Corporation (Huarong). The petitioner also requested a review of hammers/sledges from Shandong Jinma Industrial Group Co., Ltd. (Jinma). The period of review (POR) is February 1, 2000, through January 31, 2001. Based on our analysis of the comments received, we have made changes in the margin calculations. Therefore, the final results differ from the preliminary results. The final weighted-average dumping margins for the reviewed firms are listed below in the section entitled *Final Results of Reviews*.
