

p. Comments, Protests, or Motions to Intervene—Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

q. Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "MOTION TO INTERVENE", as applicable, and the Project Number of the particular application to which the filing refers. Any of the above-named documents must be filed by providing the original and the number of copies provided by the Commission's regulations to: The Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. An additional copy must be sent to Director, Division of Hydropower Administration and Compliance, Federal Energy Regulatory Commission, at the above-mentioned address. A copy of any notice of intent, competing application or motion to intervene must also be served upon each representative of the Applicant specified in the particular application. r.

Agency Comments—Federal, state, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

Magalie R. Salas,
Secretary.

Control of Air Pollution From New Motor Vehicles; Low Sulfur Diesel Refinery Hardship Applications

AGENCY: Environmental Protection Agency (EPA).
ACTION: Notice; request for comments.

SUMMARY: In January 2001, EPA promulgated new emission standards for 2007 and later model year highway diesel engines as well as low-sulfur diesel requirements that begin in 2006 (66 FR 5002, January 18, 2001). That action included a provision which allows refiners to seek temporary relief from the regulations based on a showing of unusual circumstances that impose extreme hardship and significantly affect their ability to comply by the required date, as well as other factors.

Through this document, we are informing the public that we have received applications from two refiners for hardship relief under these provisions.

The public is invited to provide input on this matter.

DATES: Comments should be provided by October 15, 2002.

ADDRESSES: Tad Wysor, U.S. EPA, National Vehicle and Fuels Emission Laboratory, Assessment and Standards Division, 2000 Traverwood, Ann Arbor MI 48105; e-mail wysor.tad@epa.gov.

FOR FURTHER INFORMATION CONTACT: Tad Wysor, at telephone (734) 214-4332, fax (734) 214-4816, e-mail wysor.tad@epa.gov.

SUPPLEMENTARY INFORMATION: In January 2001, EPA promulgated new emission standards for 2007 and later model year highway diesel engines as well as low-sulfur diesel requirements that begin in 2006 (66 FR 5002, January 18, 2001). That action included a provision which allows refiners to seek temporary relief from the regulations based on a showing of unusual circumstances that impose extreme hardship and significantly affect their ability to comply by the required date, as well as other factors. This provision also requires the refiners to make best efforts to comply with the low sulfur diesel fuel requirements (40 CFR 80.560).

Hardship applications were due to EPA by June 1, 2002. We have received applications from two refiners for hardship relief under the diesel sulfur program by that deadline, as presented in the following table.

Refinery	Refinery location(s)	Crude capacity (bpcd)*
Giant Industries, Inc	Yorktown, VA**	59,000
Farmland Industries, Inc	Coffeyville, KS	112,000

* Based on data from the Department of Energy's Energy Information Administration Petroleum Supply Annual 2001, Vol. 1 as of January 1, 2002.

** Giant also owns two refineries in New Mexico that are not the subject of its application.

We are now in the process of reviewing and evaluating these hardship applications according to the provisions of 40 CFR 80.270. Although the review and determination associated with these applications does not involve a rulemaking, we believe it is important to provide public notice of these applications and to provide opportunity for public comment. The applicants have requested that we treat most of the information in their applications as business proprietary "Confidential Business Information" under 40 CFR part 2.

Any party wishing to provide us input on these applicants in the context of 40 CFR 80.560 or to provide what they otherwise consider to be relevant materials should direct these to the contact person listed above by October 15, 2002. We will consider any relevant information provided in our evaluation of these applications.

Dated: September 3, 2002.
Robert Brenner,
Acting Assistant Administrator for Office of Air and Radiation.
