

surface mining waste and ecological risks. The estimated costs for OU1 are between \$40,000,000 and \$90,000,000. Past costs for OU1 are \$900,000. Using the low end of the range, the government is recovering about 2% of the total costs for OU1. Seven other viable PRPs remain responsible for significant amounts of mining wastes, and EPA will seek cost recovery or performance of work for OU1 from them.

The covenant not to sue in this settlement provides relief from CERCLA liability for the Site although the Settling Respondents may not be jointly and severally liable for the entire site. This agreement also contains a reservation of rights for natural resource liability for the release of hazardous substances from sources other than mining wastes, and for obligations of the Settling Respondents to complete the feasibility study for the Site.

Dated: August 28, 2002.
