

confirming TTI's commitment to take several remedial actions before radiography activities were resumed in Hawaii. As discussed above, on May 7, 2002, Engineering & Inspections Unlimited, Inc., a State of Florida licensee, filed with NRC to perform radiography activities in Hawaii under the reciprocity provisions of 10 CFR 150.20. Thus, Engineering & Inspections Hawaii's activities in Hawaii are no longer being conducted under TTI's NRC license.

The preliminary results of the OI investigation include a finding that Brian J. McKenna engaged in deliberate misconduct, as defined by 10 CFR 30.10. Specifically, the investigation found that Brian J. McKenna had on numerous occasions dispatched radiographer's assistants and helpers to conduct radiography without their being accompanied by a certified radiographer who was trained and certified in accordance with the training requirements of 10 CFR 34.43. Brian J. McKenna first denied dispatching non-certified radiographers to conduct radiography, but admitted after being shown records of specific radiography jobs that he had assigned non-certified radiographers to conduct radiography because of a shortage of qualified personnel.

The investigative evidence developed to date demonstrates a lack of regard for NRC's radiation safety requirements by Brian J. McKenna. He currently manages radiography activities for Engineering & Inspections Unlimited, Inc.'s in Hawaii, supervises the individual who dispatches radiographers to job sites, and is authorized to perform radiography. This situation raises questions as to why the NRC should have reasonable assurance that Engineering & Inspections Unlimited, Inc.'s radiography activities in Hawaii are being conducted in accordance with all NRC radiation safety requirements.

Accordingly, pursuant to sections 161b, 161c, 161i, 161o, 182 and 186 of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR 2.204, the Commission needs the following information to determine whether enforcement action should be taken against you to ensure future compliance with NRC requirements:

A. Information as to why the NRC should have reasonable assurance that radiography activities being conducted by Engineering & Inspections Unlimited, Inc., under your management are being conducted in accordance with all NRC radiation safety requirements; and

B. Information as to why the NRC should not take enforcement action to

prohibit your involvement in NRC-licensed activities.

You may provide any other information that you want the NRC to consider, including whether the statements made in Section II are correct. You may respond to this Demand for Information by filing a written answer under oath or affirmation or by setting forth your reasons why this Demand for Information should not have been issued if the requested information is not being provided. The response to this Demand for Information is to be submitted to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, DC 20555, within 10 days of the date of this Demand for Information, in writing and under oath or affirmation. Copies also shall be sent to the Assistant General Counsel for Materials Litigation and Enforcement at the same address, the Regional Administrator, NRC Region IV, 611 Ryan Plaza Drive, Suite 400, Arlington, Texas 76011-4005, and the Regional Administrator, NRC Region II, Atlanta Federal Center, 61 Forsyth St., Atlanta, Georgia 30303.

Upon review of your answer, or if no answer is filed, the Commission may institute a proceeding pursuant to 10 CFR 2.202 or take such other action as may be necessary to ensure compliance with regulatory requirements. Your response to the Demand for Information will be considered before a decision is made in this matter. However, if no answer is filed, we will proceed on the basis of available information.

If you choose to respond, your response will be made available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room). Therefore, to the extent possible, it should not include any personal privacy, proprietary, or safeguards information so that it can be made available to the Public without redaction. If personal privacy or proprietary information is necessary to provide an acceptable response, then please provide a bracketed copy of your response that identifies the information that should be protected and a redacted copy of your response that deletes such information. If you request withholding of such material, you *must* specifically identify the portions of your response that you seek to have withheld and provide in detail the bases for your claim of withholding (e.g., explain why the

disclosure of information will create an unwarranted invasion of personal privacy or provide the information required by 10 CFR 2.790(b) to support a request for withholding confidential commercial or financial information).

Dated this 5th day of September 2002.

For the Nuclear Regulatory Commission.

James G. Luehman,

Deputy Director, Office of Enforcement.

PENSION BENEFIT GUARANTY CORPORATION

Required Interest Rate Assumption for Determining Variable-Rate Premium; Interest Assumptions for Multiemployer Plan Valuations Following Mass Withdrawal

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Notice of interest rates and assumptions.

SUMMARY: This notice informs the public of the interest rates and assumptions to

be used under certain Pension Benefit Guaranty Corporation regulations. These rates and assumptions are published elsewhere (or can be derived from rates published elsewhere), but are collected and published in this notice for the convenience of the public. Interest rates are also published on the PBGC’s Web site (<http://www.pbgc.gov>).

DATES: The required interest rate for determining the variable-rate premium under part 4006 applies to premium payment years beginning in September 2002. The interest assumptions for performing multiemployer plan valuations following mass withdrawal under part 4281 apply to valuation dates occurring in October 2002.

FOR FURTHER INFORMATION CONTACT: Harold J. Ashner, Assistant General Counsel, Office of the General Counsel, Pension Benefit Guaranty Corporation, 1200 K Street, NW., Washington, DC 20005, 202–326–4024. (TTY/TDD users may call the Federal relay service toll-free at 1–800–877–8339 and ask to be connected to 202–326–4024.)

SUPPLEMENTARY INFORMATION:

Variable-Rate Premiums

Section 4006(a)(3)(E)(iii)(II) of the Employee Retirement Income Security Act of 1974 (ERISA) and section 4006.4(b)(1) of the PBGC’s regulation on Premium Rates (29 CFR part 4006) prescribe use of an assumed interest rate (the “required interest rate”) in determining a single-employer plan’s variable-rate premium. The required interest rate is the “applicable percentage” (currently 100 percent) of the annual yield on 30-year Treasury securities for the month preceding the beginning of the plan year for which premiums are being paid (the “premium payment year”). (Although the Treasury Department has ceased issuing 30-year securities, the Internal Revenue Service announces a surrogate yield figure each month—based on the 30-year Treasury bond maturing in February 2031—which the PBGC uses to determine the required interest rate.)

The required interest rate to be used in determining variable-rate premiums for premium payment years beginning in September 2002 is 5.08 percent.

The following table lists the required interest rates to be used in determining variable-rate premiums for premium payment years beginning between October 2001 and September 2002.

For premium payment years beginning in—	The required interest rate is—
October 2001	4.66
November 2001	4.52
