**Notice of Proposed Issuance of Letter of Offer  
Pursuant to Section 36(b)(1)  
of the Arms Export Control Act, as amended**

**Annex  
Item No. vii**

**(vii) Sensitivity of Technology:**

**1. The major components of the AN/TPQ-37(V)3 FIREFINDER counter-battery artillery radar set containing sensitive technology are:**

**a. Operations Control Group/Signal Processor Unit and Software - contains critical technologies related to the computer and radar control card and signal processing capabilities. The signal processing algorithms are unclassified..**

**b. Antenna-Transceiver Group - contains critical technologies in the Antenna Array Group, the system receiver, transmitter/exciter, and waveguide components.**

**2. The AN/TPQ-37(V)3 system is moderately susceptible to the development of countermeasures. A potential adversary could develop electronic warfare and jamming countermeasures if the system hardware and related critical technologies were acquired.**

**3. A determination has been made that India can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.**

**POLICY JUSTIFICATION****Taipei Economic and Cultural Representative Office in the United States – AGM-114M3 HELLFIRE II Air-to-Surface Anti-Armor Missiles**

Taipei Economic and Cultural Representative Office in the United States has requested a possible sale for 449 AGM-114M3 HELLFIRE II Air-to-Surface Anti-Armor missiles, engines, winches, kits, dispensers, containers, spare and repair parts, test and tool sets, personnel training and equipment, publications, a U.S. Government and contractor engineering and logistics personnel services, Quality Assurance Team, and other related elements of logistics support. The estimated cost is \$60 million.

This sale is consistent with United States law and policy as expressed in Public Law 96-8.

The recipient will use these HELLFIRE missiles on their AH-1W Super Cobra and OH -58D helicopters. The missiles will enhance the recipient's defensive anti-armor capabilities. The recipient, which already has HELLFIRE missiles in its inventory, will have no difficulty absorbing these additional missiles.

The proposed sale of this equipment and support will not affect the basic military balance in the region.

The prime contractor will be Lockheed Martin Electronics and Missiles of Orlando, Florida. There are no offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to recipient.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

## Transmittal No. 02-58

**Notice of Proposed Issuance of Letter of Offer  
Pursuant to Section 36(b)(1)  
of the Arms Export Control Act, as amended (U)**

**Annex  
Item No. vii**

**(vii) Sensitivity of Technology:**

1. The AGM-114M3 HELLFIRE missile is a helicopter-launched airborne target weapon with a terminal homing seeker and a blast fragmentation warhead, which homes in on a laser spot that can be projected from ground observers, other aircraft, or the launching aircraft.

2. The AGM-114M3 HELLFIRE air-to-surface missile hardware and documentation are Unclassified. Missile performance parameters and characteristics, including susceptibility to countermeasures, are classified up to Secret and considered very sensitive. Missile hardware is considered sensitive and knowledge of the warhead timing mechanism would be useful in development of countermeasures. Technology contained within the missile is sensitive and Unclassified. The sensitivity of the system is primarily in the software programs which enable the missile to operate in a countermeasures environment. Training, maintenance, operations and related documentation are Unclassified and not considered sensitive.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware in this proposed sale, the information could be used to develop countermeasures, which might reduce the effectiveness of the reconnaissance system, or be used in the development of a system with similar capabilities.

4. A determination has been made that the recipient can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.
