available to visitors, residents and employees of all ages and physical abilities; (3) provisions for safe travel throughout the park by all modes; and (4) protection of the park's natural and cultural resources from impacts attributable to vehicles and visitor use, including inappropriate parking along roadways or parking lot edges, noise, air quality, and wildlife mortality.

The National Park Service conducted public scoping (public meetings and solicitation of comments from state, county and town agencies and organizations; park neighbors; state historic preservation officer; and associated American Indian tribes) for the Integrated Multimodal Transportation Plan from December, 2001 to January, 2002 and began preparing an environmental assessment for a range of draft alternatives. Due to the degree to which potential impacts are uncertain, the National Park Service is proceeding with preparation of an environmental impact statement.

DATES: The National Park Service will conduct further public scoping for the draft alternatives and environmental impact statement for a period of 30-days beyond publication of this Notice of Intent.

ADDRESSES: You may mail comments to: Integrated Multimodal Transportation Plan, Superintendent's Office, Grand Teton National Park, PO Drawer 170, Moose, WY 83012. You may also hand-deliver comments to the Superintendent's Office, Grand Teton National Park, Moose, Wyoming (Attn: Integrated Multimodal Transportation Plan).

FOR FURTHER INFORMATION CONTACT:
Superintendent Steve Martin, Grand Teton National Park, PO Drawer 170, Moose, WY 83012; Tel: (307) 739-3410; FAX: (307) 739-3440; e-mail: gtrt_superintendent@nps.gov.

SUPPLEMENTARY INFORMATION: Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home address from the record, which we will honor to the extent allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

Dated: June 21, 2002.

R. Everhart,

Acting Director, Intermountain Region.

Wildland Fire Management Plan, Environmental Impact Statement, Mesa Verde National Park, CO

AGENCY: National Park Service, Department of the Interior.

ACTION: Notice of intent to prepare an environmental impact statement for the Wildland Fire Management Plan, Mesa Verde National Park.

SUMMARY: Under the provisions of the National Environmental Policy Act of 1969, the National Park Service is preparing an environmental impact statement for a wildland fire management plan for Mesa Verde National Park. This effort will result in a new wildland fire management plan that meets current policies, provides a framework for making fire-related decisions, and serves as an operational manual. Much has changed in the park and within the agency since the park's current fire management plan was adopted in 1996. Since that time, Mesa Verde was subjected to three large catastrophic fires that have physically altered over 60% of the landscape. In addition, recent policy changes resulting from the 2000 National Fire Plan indicate that a new plan is necessary. The plan will be developed in consultation with local communities, other federal and state agencies, the 24 tribes legally associated with the park, including the neighboring Ute Mountain Ute Tribe, and all other interested and affected organizations and individuals.

A range of alternatives will be developed through this planning process and will include a no-action alternative and all other reasonable alternatives. The alternatives will consider fuel condition, weather, air quality, natural and cultural resources, safety, and structure protection, and include a range of appropriate strategies including full fire suppression, fire use such as through prescribed fire, and mechanical fuels treatment such as removal of hazardous fuels. The plan will identify the agencies preferred alternative and the environmentally preferred alternative.

Issues to be addressed include the safety of the public, employees and firefighters; protection of natural and

Integrated Multimodal Transportation Plan/Environmental Impact Statement, Grand Teton National Park, WY

AGENCY: National Park Service, Department of the Interior.

ACTION: Notice of Intent to prepare an environmental impact statement for an Integrated Multimodal Transportation Plan, Grand Teton National Park.

SUMMARY: Under the provisions of the National Environmental Policy Act, the National Park Service is preparing an environmental impact statement for an Integrated Multimodal Transportation Plan for Grand Teton National Park. The environmental impact statement will be approved by the Director, Intermountain Region.

The Integrated Multimodal Transportation Plan will serve as a management and decision making tool for developing short and long-term solutions to problems associated with transportation in and around Grand Teton National Park. The primary objectives of the plan include (1) regional partnerships between the park and its gateway communities to reduce traffic impacts in both the park and surrounding communities, minimize duplication of services and facilities, and provide links to regional pathways to improve recreational opportunities in the park; (2) increasing the range of travel mode choices within the park, other than via private automobile,

cultural resources; and the protection of rare, threatened and endangered species. Other issues include: allowing for natural processes in ecosystems and varied habitats; maintaining park values including protection of air quality, water quality, existing wilderness and visitor enjoyment; protecting structures and facilities within the park and on neighboring lands; addressing concerns of the 24 tribes associated with the park; addressing economic and other concerns of the park concessionaire, neighboring communities including local business and the Ute Mountain Ute tribe; and developing partnerships with other agencies, organizations, and local interests. The plan will also address the effects of emergency actions taken in response to recent fires and extreme lightning and weather conditions.

The scoping process will include public meetings to explain the planning process, solicit alternative ideas, and identify issues to be addressed in the plan. Specific dates, times and locations of the meetings will be announced in the local media and will also be available by contacting the Superintendent of Mesa Verde National Park. Information about the planning process as well as copies of the draft and final plans will be posted on the park's Web site at www.nps.gov/meve.

DATES: The public scoping process will be initiated from the date this notice is published in the **Federal Register** and will extend a minimum of 60 days.

ADDRESSES: Information will be available for public review and comment in the Mesa Verde Park Headquarters (970) 529-4465.

FOR FURTHER INFORMATION CONTACT: Larry Wiese, Superintendent, Mesa Verde National Park, P.O. Box 8, Mesa Verde, CO 81330, (970) 529-4465.

SUPPLEMENTARY INFORMATION: If you wish to provide input, you may submit your comments or questions by any one of several methods. Comments will be collected during the public meetings, or can be sent or hand delivered to: Larry Wiese, Superintendent, Mesa Verde National Park, P.O. Box 8, Mesa Verde, CO 81321. You may also comment via the Internet to

DEPARTMENT OF THE INTERIOR

National Park Service

Transportation Plan, Environmental Impact Statement, Mesa Verde National Park, Colorado

AGENCY: National Park Service, Department of the Interior.

ACTION: Notice of intent to prepare an environmental impact statement for the Transportation Plan, Mesa Verde National Park.

SUMMARY: Under the provisions of the National Environmental Policy Act of 1969, the National Park Service is preparing an environmental impact statement for the transportation plan for Mesa Verde National Park. This effort will result in a comprehensive transportation plan that considers various means to get visitors and employees into the park, and effectively manage use within the park in order to enhance visitor experience, protect resources and otherwise carry out the mission of the park. The plan will be developed in consultation with local communities, other federal and state agencies, the 24 tribes affiliated with the park, including the neighboring Ute Mountain Ute Tribe, and all other interested and affected organizations and individuals. Alternatives to be considered include no-action, the environmentally preferred alternative, the agency-preferred alternative, and transportation options such as improving roadway, parking and trail

facilities, using various ground and aerial guideway systems, applying various visitor management strategies, and other ideas that come out of the public process.

Major issues include protecting natural resources, systems and processes; protecting cultural resources such as archeological, ethnographic, historic and landscape resources; changes to the visitor experience; requirements of the Americans with Disabilities Act; local economic impacts that may result from any changes to visitor use; cultural concerns of the 24 affiliated tribes; and impacts to park operations and existing and future capacity constraints of any proposed transportation system.

A scoping newsletter will be distributed via mail and will be posted on the Internet. Also, meetings will be held to solicit input from the public, federal and state agencies, and affiliated tribes. Copies of scoping information may be obtained from Larry T. Wiese, P.O. Box 8, Mesa Verde, CO 81330, (970) 529-4465.

DATES: The scoping period will be a minimum of 60 days and will begin the date this notice is published in the **Federal Register**.

ADDRESSES: Information will be available for public review and comment in the Mesa Verde National Park Headquarters (970) 529-4465.

FOR FURTHER INFORMATION CONTACT: Larry T. Wiese, Superintendent, Mesa Verde National Park, (970) 529-4465.

SUPPLEMENTARY INFORMATION: If you wish to comment on the scoping brochure, or any other issues associated with the plan, you may submit your comments or questions by any one of several methods. You may mail comments to Patricia Trap, Planner, Mesa Verde National Park, P.O. Box 8, Mesa Verde, CO 81330. You may also comment via the Internet to MEVE_PLANNING@nps.gov. Please submit Internet comments as an ASCII file avoiding the use of special characters and any form of encryption. Please also include "Attn: Mesa Verde Transportation Plan" and your name and return address in your Internet message. If you do not receive a confirmation from the system that we have received your Internet message, contact us directly at (970) 529-4465. Finally, you may hand-deliver comments to Mesa Verde National Park Headquarters. Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home
