

8.02, which affect vehicle emission test centers and owners of certain vehicles registered in the County. In the Final Rules Section of this **Federal Register**, the EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no significant, material, and adverse comments are received in response to this rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

DATES: Written comments must be received on or before October 24, 2002.

ADDRESSES: All comments should be addressed to: Michele Notarianni, Air Planning Branch, U.S. Environmental Protection Agency Region 4, 61 Forsyth Street, SW, Atlanta, Georgia 30303-8960. (404/562-9031 (phone) or notarianni.michele@epa.gov (e-mail).)

SUPPLEMENTARY INFORMATION: For
additional information, see the direct
final rule which is published in the
Rules Section of this **Federal Register**.

Dated: September 5, 2002.

A. Stanley Meiburg,

Acting Regional Administrator, Region 4.

[FR Doc. 02-24092 Filed 9-23-02; 8:45 am]

BILLING CODE 6560-50-P

DEPARTMENT OF DEFENSE

GENERAL SERVICES ADMINISTRATION

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

48 CFR Chapters 1, 2, and 5

Federal Acquisition Regulation; Federal Acquisition Regulation Supplements; Contract Closeout

AGENCIES: Department of Defense (DoD),
General Services Administration (GSA),
and National Aeronautics and Space
Administration (NASA).

ACTION: Advance notice of proposed
rulemaking.

SUMMARY: The Civilian Agency
Acquisition Council and the Defense
Acquisition Regulations Council are
requesting comments from both
Government and industry on how the
Federal Acquisition Regulation (FAR),
Defense FAR Supplement (DFARS), and
General Services Administration
Acquisition Regulation (GSAR) can be
revised to facilitate timely contract
closeout.

DATES: Comments are due on or before
November 25, 2002.

ADDRESSES: Interested parties should
submit written comments to: General
Services Administration, FAR
Secretariat (MVA), 1800 F Street, NW.,
Room 4035, ATTN: Laurie Duarte,
Washington, DC 20405.

Address e-mail comments submitted
via the Internet to:
ANPR.contractcloseout@gsa.gov.

Please cite ANPR Contract Closeout in
all correspondence related to this issue.

FOR FURTHER INFORMATION CONTACT: Mr.
Rick Laysar at (703) 602-0293.

SUPPLEMENTARY INFORMATION: Although
the vast majority of contracts are
generally closed timely, there is a
backlog of contracts that have not been
closed out within the timeframes
required by FAR 4.804, Closeout of
contract files. The Department of
Defense has analyzed the contract
closeout process to identify obstacles to
timely contract closeout. Many causes of
the backlog have been identified and are
being focused upon. Some of the causes
include process related delays like late
submittal of final vouchers, final price
redetermination proposals, royalty/
patents submittals and approvals, final
audits, overhead rate negotiations,
disposition of Government property and
classified materials; other causes
include lack of contract funding and
agency resources.

In this advance notice of proposed
rulemaking we are seeking input on
whether any FAR, DFARS, or GSAR
requirements can be considered for
change to help facilitate the contract
closeout process. In order to ensure that
the FAR, DFARS, and GSAR do not
unduly impede timely closeout of
contracts, an interagency team has been
established that will review the FAR,
DFARS, and GSAR relating to contract
closeout to determine what changes, if
any, can be made to facilitate timely
contract closeout. FAR, DFARS, and
GSAR requirements relating to contract
closeout that are not required by statute,
not needed to ensure adequately
standardized Government business
practices, or not needed to protect the
public interest will be considered for
revision or elimination.

Dated: September 18, 2002.

Al Matera,

Director, Acquisition Policy Division.

49 CFR Part 571

[DOT Docket No. NHTSA-02-12845]

RIN 2127-AH71

Federal Motor Vehicle Safety Standards; Accelerator Control Systems; Correction

AGENCY: National Highway Traffic
Safety Administration (NHTSA), DOT.

ACTION: Notice of proposed rulemaking
(NPRM); correction.

SUMMARY: This document corrects the
proposed regulatory text to a proposed
rule published in the **Federal Register**
of July 23, 2002 (67 FR 48117),
regarding the Federal motor vehicle
safety standard for accelerator control
systems. This correction provides
correct references in four places to
provisions in the test procedures. The
comments to the proposed rule were
due by September 23, 2002. Because of
the changes in this correction
document, we extend the comment
period to October 7, 2002.

DATES: You should submit your
comments early enough to ensure that
Docket Management receives them not
later than October 7, 2002.

ADDRESSES: You should mention the
docket number of this document in your
comments and submit your comments

in writing to: Docket Management, Room PL-401, 400 Seventh Street, SW., Washington, DC, 20590.

You may call the Docket at 202-366-9324. You may visit the Docket from 10 a.m. to 5 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT: For non-legal issues, you may call Mr. Michael Pyne, Office of Crash Avoidance Standards at (202) 366-4171. His FAX number is (202) 493-2739.

For legal issues, you may call Ms. Dorothy Nakama, Office of the Chief Counsel at (202) 366-2992. Her FAX number is (202) 366-3820.

You may send mail to both of these officials at National Highway Traffic Safety Administration, 400 Seventh St., SW., Washington, DC, 20590.

Correction

In the proposed rule document 02-18477, beginning on page 48129 in the issue of Tuesday, July 23, 2002, make the following corrections:

§ 571.124 [Corrected]

1. On page 48129, in the second column, in § 571.124, in paragraph S6.4.4, in the seventh line, correct "S6.4.8" to read "S6.4.6".

2. On the same page, in the second column, in § 571.124, in paragraph S6.4.7, in the fourth line, correct "S6.4.6" to read "S6.4.5.1".

3. On the same page, in the second column, in § 571.124, in paragraph S6.4.8, in the first line, correct "S6.4.9" to read "S6.4.7".

4. On the same page, in the second column, in § 571.124, in paragraph S6.4.8, in the sixth line, correct "S6.4.7" to read "S6.4.5.2".

Issued on: September 18, 2002.

Noble N. Bowie,

Acting Associate Administrator for Rulemaking.

[FR Doc. 02-24123 Filed 9-23-02; 8:45 am]

BILLING CODE 4910-15-P

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

49 CFR Part 571

[Docket No. NHTSA 02-13393; Notice 1]

RIN 2127-A171

Federal Motor Vehicle Safety Standards; Occupant Crash Protection

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Notice of proposed rulemaking; response to petitions for rulemaking.

SUMMARY: This document responds to petitions for rulemaking from the Alliance of Automobile Manufacturers, Toyota, and DaimlerChrysler requesting changes in the advanced air bag final rule that we published in May 2000. The requirements of that rule are being phased in during two stages, the first of which takes place from September 1, 2003 to August 31, 2006.

In response to the petitions, we are proposing in this document to reduce the percentage of vehicles that must comply with the advanced air bag requirements during the first year of the phase-in, *i.e.*, from September 1, 2003 through August 31, 2004, from 35 percent to 20 percent. This proposed change reflects the technical challenges being faced by the vehicle manufacturers in meeting the new requirements and the fact that two of the automotive suppliers have dropped plans to offer devices that suppress the passenger air bag when a child is present. We are otherwise either denying the petitions or, as to certain requests, dismissing them because the agency has subsequently considered or is considering the same requests in the context of another rulemaking proceeding.

In addition, in response to a petition for rulemaking from Porsche, we are considering possible adjustments in the alternative phase-in requirements available to limited line manufacturers.

DATES: You should submit your comments early enough to ensure that Docket Management receives them not later than October 24, 2002.

ADDRESSES: You may submit your comments in writing to: Docket Management, Room PL-401, 400 Seventh Street, SW., Washington, DC 20590. Alternatively, you may submit your comments electronically by logging onto the Docket Management System (DMS) Web site at <http://dms.dot.gov>. Click on "Help & Information" or "Help/Info" to view instructions for filing your comments electronically. Regardless of how you submit your comments, you should mention the docket number of this document.

FOR FURTHER INFORMATION CONTACT: The following persons at the National Highway Traffic Safety Administration, 400 Seventh Street, SW., Washington, DC, 20590:

For technical issues:

I. Background: The Advanced Air Bag Final Rule

On May 12, 2000, we published in the **Federal Register** (65 FR 30680) a rule to require advanced air bags. (Docket No. NHTSA 00-7013; Notice 1.) The rule amended Standard No. 208, *Occupant Crash Protection*, to require that future air bags be designed so that, compared to current air bags, they create less risk of serious air bag-induced injuries, particularly for small women and young children, and provide improved frontal crash protection for all occupants, by means that include advanced air bag technology.

To achieve these goals, the rule added a wide variety of new requirements, test procedures, and injury criteria, based on the use of an assortment of new dummies. Among other things, it replaced the current optional sled test with a rigid barrier crash test for assessing the protection of unbelted occupants.

The issuance of the rule completed the implementation of our 1996 comprehensive plan for reducing air bag risks. It was also required by the Transportation Equity Act for the 21st Century (TEA 21), which was enacted in 1998. That Act required us to issue a rule amending Standard No. 208:

to improve occupant protection for occupants of different sizes, belted and unbelted, under Federal Motor Vehicle Safety Standard No. 208, while minimizing the risk to infants, children, and other occupants
