21.913(e) requires each applicant for an MDS signal booster station to obtain written permission from the licensee of each MDS, ITFS, and OFS station whose signal is retransmitted. Section 21.913(g) permits an MDS or ITFS licensee to install and commence operation of low power signal booster stations without a formal application, but the licensees must submit a certification within 48 hours of installation of the booster station to demonstrate compliance with the various components of sections 21.913(g). The written consent statements under section 21.913(e) are attached to the FCC Form 304 to verify that the applicant has permission to retransmit the signal of other licensees' stations, and under section 21.913(g) to note that the applicant has compiled with guidelines of the certification process and that the booster will not cause harmful interference.

21.934 requires a Basic Trading Area (BTA) authorization holder to file a statement that its authorization was obtained through competitive bidding, when seeking approval for a transfer of control or assignment of the authorization within three years of receiving the authorization through competitive bidding procedures. Along with this statement, the applicant must also file copies of documents containing information on the amount of consideration. The FCC staff use this information to determine whether there has been unjust enrichment to the person selling the station.
