

minimum residual strength required to support ultimate load on the affected structure. The repetitive inspection intervals must be based on a damage-tolerance assessment of the wing panels and stringers and be approved by the Manager, Atlanta ACO. Guidance for damage tolerance procedures may be found in Advisory Circular (AC) 25.571-1C, dated April 29, 1998. Thereafter, do the inspection approved per paragraph (a)(1) of this AD at the intervals approved per this paragraph.

(b) If any crack is detected during any inspection required by this AD, before further flight, do the action(s) specified in paragraph (b)(1) or (b)(2) of this AD.

(1) Replace the cracked part with a new part and continue to inspect per paragraph (a) of this AD.

(2) Repair and inspect at new intervals based on a damage-tolerance assessment of the wing panels and stringers, per a method approved by the Manager, Atlanta ACO. The repair must include a damage-tolerance assessment as noted above, in addition to an analysis showing static strength capability in compliance with the certification basis of the airplane. Guidance for damage tolerance procedures may be found in Advisory Circular (AC) 25.571-1C, dated April 29, 1998.

Reporting Requirement

(c) Within 10 days after accomplishing the initial inspection required by paragraph (a)(1) of this AD, submit a report of the inspection results (both positive and negative) to the Manager, FAA, Atlanta Aircraft Certification Office, One Crown Center, 1895 Phoenix Boulevard, suite 450, Atlanta, Georgia 30349; fax (770) 703-6097. (6) Diagram(s) showing the location and orientation of cracks, and if available, the length of cracks.

Alternative Methods of Compliance

(d) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Atlanta ACO. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Atlanta ACO.

Note 3: Information concerning the existence of approved alternative methods of

Federal Aviation Administration

14 CFR Part 71

[Airspace Docket No. 02-AWP-4]

Establishment of Class D Airspace; Henderson Airport; Las Vegas, NV

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes a Class D surface area at Henderson Airport in Law Vegas, NV extending upward from the surface to, but not including, 4,000 feet MSL within a 4.1-mile radius of Henderson Airport, excluding Las Vegas Class B airspace. A review of air traffic operations and procedures at Henderson Airport has indicated the need for establishment of a Class D surface area at this location.

EFFECTIVE DATE: January 23, 2003.

FOR FURTHER INFORMATION CONTACT: Jeri Carson, Airspace Specialist, Airspace Branch, AWP-520.11, Air Traffic Division, Western-Pacific Region, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261, telephone number (310) 725-6611.

SUPPLEMENTARY INFORMATION:

Background

On July 23, 2002, the FAA published a notice (67 FR 48064) proposing to establish Class D surface area airspace at Henderson Airport in Las Vegas, Nevada. Interested parties were invited to participate in this rulemaking effort by submitting comments on the proposal to the FAA. In the ensuing comment period, which closed on

September 6, 2002, the FAA received no comments on the proposed action.

The Rule

This action amends 14 CFR part 71 by establishing Class D airspace at Henderson Airport extending from the surface up to, but not including, 4,000 feet above Mean Seal Level (MSL) within a 4.1-mile radius of Henderson Airport, excluding Las Vegas Class B airspace. The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Class D airspace areas are published in Paragraph 5000 of FAA Order 7400.9K, Airspace Designations and Reporting Points, dated August 30, 2002, and effective September 16, 2002, through September 15, 2003, which is incorporated by reference in 14 CFR 71.1. The Class D airspace designation listed in this document will be published subsequently in that Order.

SUPPLEMENTARY INFORMATION:

I. Background

On October 26, 2001, the President signed into law the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism (USA PATRIOT) Act of 2001 (Public Law 107-56) (the Act). Title III of the Act makes a number of amendments to the anti-money laundering provisions of the Bank Secrecy Act (BSA), which is codified in subchapter II of chapter 53 of title 31, United States Code. These amendments are intended to promote the prevention, detection, and prosecution of international money laundering and the financing of terrorism. Two of these provisions became effective on December 26, 2001.

First, section 313(a) of the Act added a new subsection (j) to 31 U.S.C. 5318 that prohibits a "covered financial institution" from providing "correspondent accounts" in the United States to foreign banks that do not have a physical presence in any country (foreign shell banks). Section 313(a) also requires those financial institutions to take reasonable steps to ensure that correspondent accounts provided to foreign banks are not being used to provide banking services indirectly to foreign shell banks.

Second, section 319(b) of the Act added a new subsection (k) to 31 U.S.C. 5318 that requires any covered financial institution that provides a
