The designation of the products as "tire cord quality" or "tire bead quality" indicates the acceptability of the product for use in the production of tire cord, tire bead, or wire for use in other rubber reinforcement applications such as hose wire. These quality designations are presumed to indicate that these products are being used in tire cord, tire bead, and other rubber reinforcement applications, and such merchandise intended for the tire cord, tire bead, or other rubber reinforcement applications is not included in the scope. However, should petitioners or other interested parties provide a reasonable basis to believe or suspect that there exists a pattern of importation of such products for other than those applications, end-use certification for the importation of such products may be required. Under such circumstances, only the importers of record would normally be required to certify the end use of the imported merchandise.

All products meeting the physical description of subject merchandise that are not specifically excluded are included in this scope.

The products under investigation are currently classifiable under subheadings 7213.91.3010, 7213.91.3090, 7213.91.4510, 7213.91.4590, 7213.91.6010, 7213.91.6090, 7213.99.0031, 7213.99.0038, 7213.99.0090, 7227.20.0010, 7227.20.0020, 7227.20.0090, 7227.20.0095, 7227.90.6051, 7227.90.6053, 7227.90.6058, and 7227.90.6059 of the HTSUS. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of this proceeding is dispositive.

Period of Investigation

The period for which we are measuring subsidies, or period of investigation, is calendar year 2000.

Amended Final Determination

In accordance with section 705(d) of the Act, on August 30, 2002, the Department published in the **Federal Register** the *Final Affirmative Countervailing Duty Determination and Final Negative Critical Circumstances Determination: Carbon and Certain Alloy Steel Wire Rod from Brazil*, 67 FR 55805. Subsequently, on September 3, 2002, the Government of Brazil, Gerdau S.A. ("Gerdau"), and Companhia Siderurgica Belgo-Mineira (collectively, "respondents") submitted timely ministerial error allegations pursuant to 19 CFR 351.224(c)(2). On September 9, 2002, the petitioners (Co-Steel Raritan, Inc., GS Industries, Keystone Consolidated Industries, Inc., and North Star Steel Texas, Inc.) submitted a rebuttal to the respondents' allegations.

After analyzing the submissions, we have determined in accordance with section 705(e) of the Act and 19 CFR 351.224 that we made a ministerial error in the margin calculations for Gerdau. Specifically, we inadvertently utilized a U.S. dollar denominator for Gerdau's Program of Social Integration and Social Contributions of Billings calculation instead of a Brazilian Reais denominator as was appropriate.

For a detailed discussion of the ministerial error allegations and the Department's analysis, see September 23, 2002 memorandum from Team to Richard W. Moreland, Deputy Assistant Secretary entitled *Ministerial Error Allegations*, which is on file in the Department's Central Records Unit in Room B-099 of the main Department building.

Therefore, we are amending the final determination for the countervailing duty investigation of carbon and certain alloy steel wire rod from Brazil to reflect the correction of the above-noted ministerial error. The revised total estimated net subsidy rate for each company is as follows:

Producer/exporter	Net subsidy rate
Companhia Siderurgica Belgo-Mineira	6.74
Gerdau S.A	2.76
All Others	5.64

Suspension of Liquidation

In accordance with section 705(c)(1)(C) of the Act, we are directing the Customs Service ("Customs") to continue suspending liquidation on all

imports of subject merchandise from Brazil that are entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice in the **Federal Register**. Customs shall require a cash deposit or the posting of a bond equal to the margin/subsidy rates indicated in the chart above. These suspension of liquidation instructions will remain in effect until further notice.

We will issue a countervailing duty order if the International Trade Commission ("ITC") issues a final affirmative injury determination. If the ITC determines that material injury, or threat of material injury, does not exist, this proceeding will be terminated and all estimated duties deposited or securities posted as a result of the suspension of liquidation will be refunded or canceled.

ITC Notification

In accordance with section 705(d) of the Act, we will notify the ITC of our amended final determination.

Return or Destruction of Proprietary Information

In the event that the ITC issues a final negative injury determination, this notice will serve as the final reminder to parties subject to an Administrative Protective Order ("APO") of their responsibility concerning the destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Failure to comply is a violation of the APO.

This determination is published pursuant to sections 705(d) and 777(i) of the Act.

Dated: September 23, 2002.

Faryar Shirzad,

Assistant Secretary for Import Administration.
