Adequacy Status of the Utah County, Utah PM₁₀ State Implementation Plan Revision for Transportation Conformity Purposes

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of adequacy.

SUMMARY: In this document, EPA is notifying the public that we have found that the motor vehicle emissions budgets (for 2010 and 2020) in the Utah County, Utah particulate matter of 10

micrograms in size or smaller (PM₁₀) State Implementation Plan (SIP) revision submitted on July 3, 2002, are adequate for conformity purposes. On March 2, 1999, the D.C. Circuit Court ruled that submitted SIPs cannot be used for conformity determinations until EPA has affirmatively found them adequate. As a result of our finding, the Mountainland Association of Governments, the Utah Department of Transportation, and the U.S. Department of Transportation are required to use the 2010 and 2020 motor vehicle emissions budgets from this submitted SIP revision for future conformity determinations.

DATES: This finding is effective October 16, 2002.

FOR FURTHER INFORMATION CONTACT:

Kerri Fiedler, Air & Radiation Program (8P-AR), United States Environmental Protection Agency, Region 8, 999 18th Street, Suite 300, Denver, Colorado 80202-2466, (303) 312-6493.

The letter documenting our finding is available at EPA's conformity website: <http://www.epa.gov/oms/transp/conform/adequacy.htm>.

SUPPLEMENTARY INFORMATION:

Throughout this document wherever "we," "us," or "our" are used we mean EPA.

This action is simply an announcement of a finding that we have already made. We sent a letter to the Utah Department of Environmental Quality on September 5, 2002 stating that the 2010 and 2020 PM₁₀ and NO_x motor vehicle emissions budgets in the submitted Utah County PM₁₀ SIP revision are adequate. This finding has also been announced on our conformity website at <http://www.epa.gov/oms/transp/conform/adequacy.htm>.

Transportation conformity is required by section 176(c) of the Clean Air Act. Our conformity rule requires that transportation plans, programs, and projects conform to SIPs and establishes the criteria and procedures for determining whether or not they do. Conformity to a SIP means that transportation activities will not produce new air quality violations, worsen existing violations, or delay timely attainment of the national ambient air quality standards.

The criteria by which we determine whether a SIP's motor vehicle emission budgets are adequate for conformity purposes are outlined in 40 CFR 93.118(e)(4). Please note that an adequacy review is separate from our completeness review, and it also should not be used to prejudge our ultimate approval of the SIP. Even if we find a

budget adequate, the SIP could later be disapproved, and vice versa.

We've described our process for determining the adequacy of submitted SIP budgets in a memo entitled, "Conformity Guidance on Implementation of March 2, 1999 Conformity Court Decision," dated May 14, 1999. We followed this guidance in making our adequacy determination.

Dated: September 23, 2002.
