**SUPPLEMENTARY INFORMATION:**

**Applicable Statute and Regulations**

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended (the Act), are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act. In addition, unless otherwise indicated, all citations to the Department of Commerce's (the Department's) regulations are to 19 CFR part 351 (2002).

**Background**

On May 23, 2002, the Department published a notice of initiation of administrative review of the antidumping duty order on certain steel concrete reinforcing bars from Turkey (67 FR 36148). The period of review is April 1, 2001, through March 31, 2002, and the preliminary results are currently due no later than December 31, 2002. The review covers three producers/exporters of the subject merchandise to the United States.

**Extension of Preliminary Results**

Pursuant to section 751(a)(3)(A) of the Act, the Department shall make a preliminary determination in an administrative review of an antidumping order within 245 days after the last day of the anniversary month of the date of publication of the order. The Act further provides, however, that the Department may extend the 245-day period to 365 days if it determines it is not practicable to complete the review within the foregoing time period. We determine that it is not practicable to complete this administrative review within the time limits mandated by section 751(a)(3)(A) of the Act, because this review involves a number of complicated issues including high inflation in Turkey during the period of review. Moreover, the petitioners requested that the Department conduct verification, pursuant to section

782(i)(3)(A) of the Act. Although we intend to verify the sales and cost data submitted by the three respondents, we will be unable to complete these verifications before the date of the preliminary results as currently scheduled. Therefore, we have extended the deadline for completing the preliminary results until April 30, 2003.

This extension is in accordance with section 751(a)(3)(A) of the Act (19 U.S.C. 1675(a)(3)(A)) and 19 CFR 351.213(h)(2).

Dated: September 24, 2002.
