BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. STN 50-528, 529, 530 and 72-44]

Arizona Public Service Company, Palo Verde Nuclear Generating Station, Units 1, 2 and 3; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (NRC or Commission) is considering issuance of an exemption from Title 10 of the Code of Federal Regulations (10 CFR) Part 72 for the general license utilized by the Arizona Public Service Company (APS or licensee). The exemption is pursuant to 10 CFR 72.7 for the storage of spent fuel in an independent spent fuel storage installation (ISFSI) associated with the operation of the Palo Verde Nuclear Generating Station, Units 1, 2, and 3 (PVNGS), located in Maricopa County, Arizona. Therefore, as required by 10 CFR 51.21, the NRC is issuing this environmental assessment and finding of no significant impact.

Environmental Assessment

Identification of the Proposed Action

The proposed action would exempt Arizona Public Service Company from the requirements of 10 CFR 72.212(a)(2), 72.212(b)(2)(i)(A), 72.212(b)(7), and 10 CFR 72.214 for PVNGS Units 1, 2, and 3. These regulations specifically require compliance with the conditions set forth in the Certificate of Compliance (CoC) for each dry spent fuel storage cask used by an ISFSI general licensee. The dry cask storage system used by APS is the NAC-UMS Universal Storage System, Certificate of Compliance Number 1015. The NAC-UMS CoC provides conditions for requirements of Appendix A, Technical Specifications, and Appendix B, Approved Content and Design Features. The proposed action would allow APS to deviate from (1) the removable surface contamination limits in LCO 3.2.1 of Appendix A, and (2) the vertical seismic limits in paragraph B 3.4.1.3 of Appendix B. The proposed action would implement the limits requested by NAC International in the NAC-UMS CoC amendment request currently under staff review.

The proposed action is in accordance with the licensee's application dated May 1, 2002, as supplemented by letter dated June 19, 2002.

The Need for the Proposed Action

The proposed action is needed because APS plans to begin its initial dry cask spent fuel loading campaign
