Magnuson-Stevens Act Provisions; Fisheries Off West Coast States and in the Western Pacific; Pacific Coast Groundfish Fishery; Groundfish Fishery Management Measures; Corrections

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Correction to emergency rule latitude/longitude coordinates for the Darkblotched Rockfish Conservation Area (DBCA) in the Pacific Coast groundfish fishery.

SUMMARY: This document contains corrections to DBCA latitude/longitude coordinates implemented by emergency rulemaking in the Pacific Coast groundfish fishery and published on September 13, 2002.

DATES: Effective September 10, 2002, through March 12, 2003.

FOR FURTHER INFORMATION CONTACT: Carrie Nordeen (Northwest Region, NMFS); phone: 206-526-6140; fax: 206-526-6736; e-mail: carrie.nordeen@noaa.gov,.

SUPPLEMENTARY INFORMATION: An emergency rule was recommended by the Pacific Fishery Management Council (Pacific Council) in consultation with Pacific Coast Treaty Tribes and the States of Washington, Oregon, and California at its June 17 - 21, 2002, meeting in Foster City, California. This emergency rule established the DBCA to protect darkblotched rockfish, an overfished species, while allowing limited entry trawl harvest of healthy groundfish stocks outside of the DBCA. The specifications and management measures for the current fishing year (January 1 - December 31, 2002) were initially published in the Federal Register as an emergency rule for January 1 - February 28, 2002 (67 FR 1540, January 11, 2002), and as a proposed rule for all of 2002 (67 FR 1555, January 11, 2002), then finalized effective March 1, 2002 (67 FR 10490, March 7, 2002). The final rule was subsequently amended at 67 FR 15338, April 1, 2002, at 67 FR 18117, April 15, 2002, at 67 FR 30604, May 7, 2002, at 67 FR 40870, June 14, 2002, at 67 FR

44778, July 5, 2002, at 67 FR 48571, July 25, 2002, at 67 FR 50835, August 6, 2002, at 67 FR 55166, August, 28, 2002, and at 67 FR 57973, September 13, 2002.

The new emergency rule in the Pacific Coast groundfish fishery (67 FR 57973, September 13, 2002) published latitude/longitude coordinates for the DBCA in the hundredths of a degree instead of in degrees and minutes. For consistency sake and at the request of the United States Coast Guard, this document republishes latitude/longitude coordinates for the DBCA in degrees and minutes.

The DBCA is closed to limited entry groundfish trawl fishing. Fishing with limited entry groundfish trawl gear is prohibited within the DBCA. It is unlawful to take and retain, possess, or land groundfish taken with limited entry groundfish trawl gear in the DBCA. Limited entry groundfish trawl vessels may transit through the DBCA, with or without groundfish on board, provided all groundfish trawl gear is stowed either: (1) below deck; or (2) if the gear cannot readily be moved, in a secured and covered manner, detached from all towing lines, so that it is rendered unusable for fishing. For the month of September 2002, all prohibitions that apply to the DBCA also apply to all waters inshore of the DBCA. These restrictions do not apply to Pacific whiting vessels using mid-water trawl gear to fish for their sector's primary whiting season allocation, as defined at 660.323(a)(3).

Dated: September 26, 2002.

[Docket No. 011218304-1304-01; I.D. 092402C]

#### Fisheries of the Exclusive Economic Zone Off Alaska; Pollock in Statistical Area 630 of the Gulf of Alaska

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Closure.

**SUMMARY:** NMFS is prohibiting directed fishing for pollock in Statistical Area 630 in the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the D season allowance of the pollock total allowable catch (TAC) for Statistical Area 630.

**DATES:** Effective 1200 hrs, Alaska local time (A.l.t.), October 2, 2002, until 2400 hrs, A.l.t., December 31, 2002.

#### FOR FURTHER INFORMATION CONTACT:

Mary Furuness, 907-586-7228.

**SUPPLEMENTARY INFORMATION:** NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

Within any fishing year, underage or overage of a seasonal allowance may be added to or subtracted from subsequent seasonal allowances in a manner to be determined by the Administrator, Alaska Region, NMFS (Regional Administrator), provided that the sum of the revised seasonal allowances does not exceed 30 percent of the annual TAC apportionment for the Central and Western Regulatory Areas in the GOA (§ 679.20(a)(5)(ii)(C)). For 2002, 30 percent of the annual TAC for the Central and Western Regulatory Areas is 15,187 mt. For 2002, the Regional Administrator has determined that within each area for which a seasonal allowance is established, any overage or underage of harvest from the previous season(s) shall be subtracted from or added to the seasonal allowance of the following season provided that the resulting sum of seasonal allowances in the Central and Western Regulatory Areas does not exceed 15,187 mt in any single season. The D season allowance of the pollock TAC in Statistical Area 630 is 3,803 metric tons (mt) as established by an emergency rule implementing 2002 harvest specifications and associated management measures for the groundfish fisheries off Alaska (67 FR 956, January 8, 2002 and 67 FR 34860, May 16, 2002). The C season allowance in Statistical Area 630 was exceeded by 2,855 mt, therefore the Regional Administrator, in accordance with § 679.20(a)(5)(ii)(C), is reducing the D season pollock TAC in Statistical Area 630 by 2,855 mt to 948 mt.

In accordance with § 679.20(d)(1)(i), the Regional Administrator has determined that the D season allowance of the pollock TAC in Statistical Area 630 will soon be reached. Therefore, the Regional Administrator is establishing a directed fishing allowance of 908 mt, and is setting aside the remaining 40 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed

fishing allowance will soon be reached. Consequently, NMFS is prohibiting directed fishing for pollock in Statistical Area 630.

Maximum retainable bycatch amounts may be found in the regulations at § 679.20(e) and (f).

#### Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA, finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is contrary to the public interest. This requirement is contrary to the public interest as it would delay the closure of the fishery, lead to exceeding the TAC, and therefore reduce the public's ability to use and enjoy the fishery resource. The Assistant Administrator for Fisheries, NOAA, also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment. This action is required by § 679.20 and is exempt from review under Executive Order 12866.
