**SUPPLEMENTARY INFORMATION:** The subject amendment to Permit No. 774-1649 issued on November 14, 2001 (66 FR 58445) is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*) and the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216).

Permit No. 774-1649-00 authorizes the permit holder to take Antarctic fur seals (*Arctocephalus gazella*), Southern elephant seals (*Mirounga leonina*), Crabeater seals (*Lobodon carcinophagus*), Leopard seals (*Hydrurga leptonyx*), Ross seals (*Ommatophoca rossii*), and Weddell seals (*Leptonychotes weddellii*) by harassment associated with life history studies and census surveys for abundance and distribution of pinnipeds. The targeted species for census surveys is the Antarctic fur seal, however, due to overlap of their breeding range with southern elephant and ice seals, a relatively small number of other Antarctic pinnipeds are authorized to be taken incidentally during these surveys.

The permit holder requests authorization to take Southern elephant seal pups by level A harassment associated with capture, tagging and marking. A total of 200 seals will be taken with four accidental mortalities over the next four years.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of this application to the Marine Mammal

Commission and its Committee of Scientific Advisors.

Dated: September 26, 2002.
