

different sources of water for snowmaking will likely be explored.

Responsible Official

The responsible official is Jim Golden, Forest Supervisor for the Coconino National Forest, 2323 E Greenlaw Lane, Flagstaff AZ 86004. The responsible official will document the decision and reasons for the decision in a Record of Decision. That decision will be subject to appeal under 36 CFR part 215 or part 251.

Nature of Decision To Be Made

The decision will be to modify the master plan for the Snowbowl Ski permit, if an action alternative is selected. All potential actions are within the existing permit area; there will be no expansion of the area.

Scoping Process

Public questions and comments regarding this proposal are an integral part of this environmental analysis process. Comments will be used to identify issues and develop alternatives to Snowbowl's proposal. To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments should be as specific as possible.

Two public open houses will be held. The first, on October 10, 2002 from 6:30 p.m. to 8:30 p.m. and the second, on October 26, 2002 from 2 p.m. to 5 p.m. Both meetings will be held at the Flagstaff High School Commons in Flagstaff Arizona. The purpose of the meetings will be to provide the public with an opportunity to become more familiar with the proposal and to understand the review and analysis process that will be used in evaluating this proposal. Additional information may also be obtained on the web by accessing: <http://www.fs.fed.us/r3/coconino/nepa>.

Preliminary Issues

Identified preliminary issues include:

Traditional Cultural Property—The San Francisco Mountain is a Traditional Cultural Property (TCP) and was determined eligible for the National Register of Historic Places as part of the White Vulcan Mine Settlement in July 2000. The Mountain is of traditional cultural significance to several Indian tribes, including the Hopi, Navajo, Zuni, Hualapai, Havasupai, Yavapai-Apache, Yavapai-Prescott, Tonto Apache, White Mountain Apache, San Carlos Apache, San Juan Southern Paiute, Fort McDowell Mohave Apache, and Acoma. Previous input has indicated that commercial and recreational activities

on the Mountain sometimes conflict with these values.

Snowmaking—Preliminary input from some members of the public have expressed concern over the hydrological effects of snowmaking on the surrounding land. In addition, some people have expressed health related concerns over the use of reclaimed water for snowmaking.

These issues as well as any other identified by this scoping process will be analyzed in detail during the EIS process. Alternatives may be developed or mitigation measures identified to address issues related to the proposed action.

Early Notice of Importance of Public Participation in Subsequent Environmental Review

A draft environmental impact statement will be prepared for comment. The comment period on the draft environmental impact statement will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions.

Vermont Yankee Nuclear Power Corp. v. NRDC, 435 U.S. 519,553 (1978). Also, environmental objections that could be raised at the draft environmental impact statement stage but that are not raised until after completion of the final environmental impact statement may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participation by the close of the November 15, 2002 comment period so that substantive comments and objections are made available to the Forest Service at the time when it can meaningfully consider them and respond to them in the final environmental impact statement.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft environmental impact statement should be as specific as possible. It is also helpful if comments refer to specific pages or

chapters of the draft statement. Comments may also address the adequacy of the draft environmental impact statement or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

Comments received in response to this solicitation, including names and addresses of those who comment, will be considered part of the public record on this proposed action and will be available for public inspection.
