Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (301) 443–7978.

Drug Abuse Warning Network (OMB number 0930–0078, revision)—The Drug Abuse Warning Network (DAWN) is an on-going data system that currently collects information on drug abuse-related medical emergencies and deaths as reported from about 466 hospitals and 137 medical examiners/coroners (ME/C) nationwide. DAWN provides national and metropolitan estimated of substances involved with drug-related ED visits; disseminates information about substances involved in deaths investigated by participating ME/Cs; provides a means for monitoring drug abuse patterns, trends, and the emergence of new substances; assesses health hazards associated with drug use; and generates information for national and local drug abuse policy and program planning. DAWN data are used by Federal, State, and local agencies, as well as universities, pharmaceutical companies, and the press.

The current emergency department (ED) sample supports estimates for the coterminous U.S. and 21 major metropolitan areas. Beginning in 2003, the DAWN case definition will be changed to obtain more consistent and reliable data on drug abuse cases and also will capture additional cases where drug use/misuse led to ED visits or deaths for conditions such as adverse drug reactions, underage drinking and malicious poisonings. To achieve better geographic and population coverage, the ED sample will be expanded to support estimates for the full U.S. and 48 metropolitan areas. By the end of 2005, the sample will include approximately 841 hospitals. To achieve complete coverage, approximately 66 non-participating ME/C jurisdictions in the 48 metropolitan areas targeted for the ED expansion will be added in lieu of a sample. Facilities (EDs and ME/Cs) will continue to use the current forms in early 2003 to complete reporting on events occurring through December 2002, but will use the revised forms for all events occurring from 1/1/2003 forward.

The application is reviewed by the HUD Field Office and ranked according to the HA's administrative capability, the need for housing assistance, and other factors specified in the Notice of Funding Availability (NOFA). Units must be inspected, using HUD-prescribed forms to determine if the units meet the housing quality standards (HQS) of the Program. HASs are also required to maintain financial reports in accordance with accepted accounting standards. The required financial statements are similar to those prepared by any responsible business or organization at the end of the fiscal year. The family must complete and submit to the HA a Request for Lease Approval when it finds a unit which is suitable for its needs, a Certificate of Family Participation, and Housing Voucher. Initial HASs will use a standardized form to submit portability information to the receiving HA who will also use the form for monthly portability billing. BILLING CODE 4210–33–M

1 The cancellation of two forms and the transfer of elevated blood level match which is now covered under Part 35 reduced the burden hours by 6,025 hours. The addition of the information collection in the HAP Contracts will void the decrease keeping the burden hour the same.
