

2. An Exelon corporate executive will train and coach every executive-level employee (defined to include plant managers and all vice-president level personnel) throughout the licensed organizations, including every nuclear station and headquarters, on the employee protection provisions of 10 CFR 50.7. The sessions will be conducted by an Exelon executive knowledgeable about the issues involved in the August 25, 2000, violation and will be held in small groups to assure focus and interactive involvement of every executive. The sessions will include a case study of the selection decision that caused this enforcement action and a discussion of the lessons learned.

3. Each executive trained pursuant to Paragraph 2 above will be provided a communications package for use in training the managers in that executive's chain-of-command regarding these issues and the Licensees' expectations for handling employee interactions.

4. The Licensees will enhance training on the prevention of employment discrimination beyond that in its existing management training programs. Lesson plans and other materials used in management training programs on the prevention of employment discrimination will be reviewed and revised as appropriate to address maintaining a safety conscious work environment and the employee protection provisions of 10 CFR 50.7. The on-going training will be conducted at a frequency consistent with the Licensees' existing policies, practices and procedures.

5. The Licensees will review the internal candidate selection process to ensure that the process incorporates the principles of employee protection under 10 CFR 50.7.

6. A communication will be distributed to all employees of the Licensees' organizations that strongly reaffirms management's commitment to fostering a safety-conscious work environment in all organizations at all sites and in its headquarters organization. The Licensees will also reaffirm to all employees the Licensees' commitments to a strong and viable Employee Concerns Program and will reiterate the various means that all employees may employ to raise issues that may be of concern to them.

7. Exelon will review all work environment surveys conducted since September 2000 at the Byron Station (where the former employee previously worked) to assure that management responses to any findings were implemented to assure that no residual effect exists in the safety-conscious

work environment at the station as a result of the selection decision. Exelon will provide to the Regional Administrator, NRC Region III, Lisle, Illinois, a written description of the results of this review and any actions taken or planned to be taken to assure that a safety conscious work environment exists at the Byron Station.

8. The Licensees will accomplish these actions within six months of the date of this Order and will furnish a written report of the results achieved to the Director, Office of Enforcement, within 30 days following completion.

The Director, Office of Enforcement may relax or rescind, in writing, any of the above conditions upon a showing by the Licensees of good cause.

Any person adversely affected by this Confirmatory Order, other than the Licensees, may request a hearing within 20 days of its issuance. Where good cause is shown, consideration will be given to extending the time to request a hearing. A request for extension of time in which to submit a request for a hearing must be made in writing to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and include a statement of good cause for the extension. Any request for a hearing shall be submitted to the Secretary, Office of the Secretary of the Commission, U.S. Nuclear Regulatory Commission, ATTN: Chief, Rulemaking and Adjudications Staff, Washington, DC 20555. Copies of the hearing request shall also be sent to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, DC 20555; to the Assistant General Counsel for Materials Litigation and Enforcement at the same address; to the Regional Administrator, NRC Region III, 801 Warrenville Road, Lisle, IL 60532-4351; to the Regional Administrator, NRC Region I, 475 Allendale Road, King of Prussia, PA 19406-1415; and to the Licensees. Because of continuing disruptions in delivery of mail to United States Government offices, it is requested that requests for hearing be transmitted to the Secretary of the Commission either by means of facsimile transmission to 301-415-1101 or by e-mail to hearingdocket@nrc.gov and also to the Office of the General Counsel either by means of facsimile transmission to 301-415-3725 or by e-mail to OGCMailCenter@nrc.gov. If such a person requests a hearing, that person shall set forth with particularity the manner in which his interest is adversely affected by this Order and

shall address the criteria set forth in 10 CFR § 2.714(d).¹

If a hearing is requested by a person whose interest is adversely affected, the Commission will issue an Order designating the time and place of any hearing. If a hearing is held, the issue to be considered at such hearing shall be whether this Order should be sustained. In the absence of any request for hearing, or written approval of an extension of time in which to request a hearing, the provisions specified in Section V above shall be final twenty (20) days from the date of this Order without further order or proceedings. If an extension of time for requesting a hearing has been approved, the provisions specified in Section V shall be final when the extension expires if a hearing request has not been received. A request for hearing shall not stay the immediate effectiveness of this order.

Dated at Rockville, Maryland this 3rd Day of October 2002.

For the U.S. Nuclear Regulatory Commission.

Frank J. Congel,

Director, Office of Enforcement.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 030-33887; License No. 49-26808-02; EA-01-302]

In the Matter of High Mountain Inspection Service, Inc., Mills, WY; Order Imposing Civil Monetary Penalty

I

High Mountain Inspection Service, Inc., (Licensee) is the holder of Materials License No. 49-26808-02 issued by the Nuclear Regulatory Commission (NRC or Commission) on

¹ The most recent version of Title 10 of the Code of Federal Regulations, published January 1, 2002, inadvertently omitted the last sentence of 10 CFR 2.714(d) and subparagraphs (d)(1) and (2), regarding petitions to intervene and contentions. Those provisions are extant and still applicable to petitions to intervene. Those provisions are as follows: "In all other circumstances, such ruling body or officer shall, in ruling on—(1) A petition for leave to intervene or a request for hearing, consider the following factors, among other things: (i) The nature of the petitioner's right under the Act to be made a party to the proceeding. (ii) The nature and extent of the petitioner's property, financial, or other interest in the proceeding. (iii) The possible effect of any order that may be entered in the proceeding on the petitioner's interest. (2) The admissibility of a contention, refuse to admit a contention if: (i) The contention and supporting material fail to satisfy the requirements of paragraph (b)(2) of this section; or (ii) The contention, if proven, would be of no consequence in the proceeding because it would not entitle petitioner to relief.

October 3, 1995. The license authorizes the Licensee to conduct radiography activities in accordance with the conditions specified therein.

II

An inspection of the Licensee's activities was completed on January 24, 2002. The results of that inspection indicated that the Licensee had not conducted its activities in full compliance with NRC requirements. A written Notice of Violation and Proposed Imposition of Civil Penalty (Notice) was served upon the Licensee by letter dated May 7, 2002. The Notice states the nature of the violations, the provisions of the NRC's requirements that the Licensee had violated, and the amount of the civil penalty proposed for the violations.

The Licensee responded to the Notice in a letter dated June 18, 2002. In its response, the Licensee admitted to the violations associated with the civil penalty but asserted mitigating extenuating circumstances. Further, the Licensee stated that the NRC did not fully and properly consider the facts presented in the February 27, 2002, predecisional enforcement conference and in the licensee's letter dated April 4, 2002. The licensee requested remission or at least significant mitigation of the civil penalty.

III

After consideration of the Licensee's response and the statements of fact, explanation, and argument for mitigation contained therein, the NRC staff has determined, as set forth in the Appendices to this Order, that the violations occurred as stated and that the penalty proposed for the violations designated in the Notice should be imposed.

IV

In view of the foregoing and pursuant to Section 234 of the Atomic Energy Act of 1954, as amended (Act), 42 U.S.C. 2282, and 10 CFR 2.205, *it is hereby ordered that:*

The Licensee pay a civil penalty in the amount of \$6,000 within 30 days of the date of this Order, in accordance with NUREG/BR-0254. In addition, at the time of making the payment, the licensee shall submit a statement indicating when and by what method payment was made, to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852-2738.

V

In accordance with 10 CFR 2.202, the licensee, and any other person adversely affected by this Order, may request a hearing on this Order within thirty (30) days of the date of this Order. Where good cause is shown, consideration will be given to extending the time to request a hearing. A request for extension of time must be made in writing to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and include a statement of good cause for the extension. A request for a hearing should be clearly marked as "Request for an Enforcement Hearing". Any request for a hearing shall be submitted to the Secretary, Office of the Secretary of the Commission, U.S. Nuclear Regulatory Commission, ATTN: Rulemakings and Adjudications Staff, Washington, DC 20555. Copies also shall be sent to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, DC 20555; to the Assistant General Counsel for Materials Litigation and Enforcement at the same address; to the Regional Administrator, NRC Region IV, 611 Ryan Plaza Drive, Suite 400, Arlington, Texas 76011; and to the licensee if the hearing request is by a person other than the licensee. Because of continuing disruptions in delivery of mail to United States Government offices, it is requested that requests for hearing be transmitted to the Secretary of the Commission either by means of facsimile transmission to 301-415-1101 or by e-mail to hearingdocket@nrc.gov and also to the Office of the General Counsel either by means of facsimile transmission to 301-415-3725 or by e-mail to OGCMailCenter@nrc.gov.

If a person other than the licensee requests a hearing, that person shall set forth with particularity the manner in which his interest is adversely affected by this Order and shall address the criteria set forth in 10 CFR 2.714(d).¹

¹ The most recent version of Title 10 of the Code of Federal Regulations, published January 1, 2002, inadvertently omitted the last sentence of 10 CFR 2.714(d) and subparagraphs (d)(1) and (2), regarding petitions to intervene and contentions. Those provisions are extant and still applicable to petitions to intervene. Those provisions are as follows: "In all other circumstances, such ruling body or officer shall, in ruling on—(1) A petition for leave to intervene or a request for hearing, consider the following factors, among other things: (i) The nature of the petitioner's right under the Act to be made a party to the proceeding. (ii) The nature and extent of the petitioner's property, financial, or other interest in the proceeding. (iii) The possible effect of any order that may be entered in the proceeding on the petitioner's interest. (2) The admissibility of a contention, refuse to admit a contention if: (i) The contention and supporting material fail to satisfy the requirements of

If a hearing is requested, the Commission will issue an Order designating the time and place of the hearing. If the Licensee fails to request a hearing within 30 days of the date of this Order (or if written approval of an extension of time in which to request a hearing has not been granted), the provisions of this Order shall be effective without further proceedings. If payment has not been made by that time, the matter may be referred to the Attorney General for collection.

In the event the Licensee requests a hearing as provided above, the issue to be considered at such hearing shall be whether on the basis of the violations admitted by the Licensee, this Order should be sustained.

Dated this 30th day of September, 2002.

For The Nuclear Regulatory Commission.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-244]

Rochester Gas and Electric Corporation R.E. Ginna Nuclear Power Plant; Notice of Intent To Prepare an Environmental Impact Statement and Conduct Scoping Process

Rochester Gas and Electric Corporation (RG&E) has submitted an application for renewal of Facility Operating License DPR-18 for an additional 20 years of operation at the R.E. Ginna Nuclear Power Plant (Ginna). Ginna is located in Wayne County, New York, approximately 20 miles east of Rochester, New York. The application for renewal was submitted by letter dated July 30, 2002, pursuant to 10 CFR part 54. A notice of receipt of application, including the environmental report (ER), was published in the **Federal Register** on August 26, 2002 (67 FR 54825). A notice of acceptance for docketing of the application for renewal of the facility operating license was published in the **Federal Register** on September 30, 2002 (67 FR 61354). The purpose of this notice is to inform the public that the U.S. Nuclear Regulatory Commission (NRC) will be preparing an environmental impact statement (EIS) in support of the review of the license renewal application and to provide the

paragraph (b)(2) of this section; or (ii) The contention, if proven, would be of no consequence in the proceeding because it would not entitle petitioner to relief.
