SUPPLEMENTARY INFORMATION:

I. Abstract

Section 4(d) of the Endangered Species Act of 1973 (ESA; 16 U.S.C. 1531 *et. seq.*) requires the National Marine Fisheries Service (NMFS) to adopt such regulations as it "deems necessary and advisable to provide for the conservation of" threatened species. Those regulations may include any or all of the prohibitions provided in section 9(a)(1) of the ESA, which specifically prohibits "take" of any endangered species ("take" includes actions that harass, harm, pursue, kill, or capture). The first salmonid species listed by NMFS as threatened were protected by virtually blanket application of the section 9 take prohibitions. There are now 20 separate Evolutionarily Significant Units (ESUs) of west coast salmonids listed as threatened, covering a large percentage of the land base in California, Oregon, Washington and Idaho. NMFS is obligated to enact necessary and advisable protective regulations.

NMFS makes section 9 prohibitions generally applicable to many of those threatened ESUs, but also seeks to respond to requests from states and others to both provide more guidance on how to protect threatened salmonids and avoid take, and to limit the application of take prohibitions wherever warranted. The regulations describe programs or circumstances that contribute to the conservation of, or are being conducted in a way that adequately limits impacts on, listed salmonids. The regulations do not apply the take prohibitions to those programs and circumstances. Some of these limits on the take prohibitions entail voluntary submission of a plan to NMFS and/or annual or occasional reports by entities wishing to take advantage of these limits, or continue within them.

Submission for OMB Review; Comment Request

The Department of Commerce has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Applications and Reports for Registration as a Tanner or Agent.

Form Number(s): None.

OMB Approval Number: 0648-0179.

Type of Request: Regular submission.

Burden Hours: 102.

Number of Respondents: 51.

Average Hours Per Response: 2.

Needs and Uses: The Marine Mammal Protection Act (MMPA) mandates the protection and conservation of marine mammals and makes the taking, killing or serious injury of marine mammals, except under permit or exemption, a violation of the Act. An exemption is provided for Alaskan natives to take marine mammals if the taking is for subsistence or for creating and selling authentic native articles of handicraft and clothing. Possession of marine mammals and marine mammal parts by other than Alaskan natives is therefore prohibited. As native handicrafts are allowed by the MMPA to enter interstate commerce, an exemption is also needed to allow non-natives to handle the skins or other marine mammal product, whether to tan the pinniped hide or to act as an agent for the native to sell his handicraft products. Persons register for an exemption, and registered parties must file annual reports. The information is needed by NOAA to manage the program and provide for effective law enforcement.

Affected Public: Business or other for-profit organizations.

Frequency: On occasion; annually.

Respondent's Obligation: Mandatory.

OMB Desk Officer: David Rostker, (202) 395-3897.
