

and Records Disposition Manual. Individuals may request a copy of the disposition instructions from the NARA Privacy Act Officer.

SYSTEM MANAGER(S) AND ADDRESS:

The system manager for the transportation benefit program files in the Washington, DC, area is the PTSP Manager in NAF. Local PTSP managers are designated for the Presidential libraries and regional records services facilities. The address for this location is listed in Appendix B following the NARA Notices.

NOTIFICATION PROCEDURE:

Individuals interested in inquiring about their records should notify the NARA Privacy Act Officer at the address listed in Appendix B following the NARA notices.

RECORD ACCESS PROCEDURES:

Individuals who wish to gain access to their records should submit their request in writing to the NARA Privacy Act Officer at the address listed in Appendix B.

CONTESTING RECORD PROCEDURES:

NARA rules for contesting the contents and appealing initial determinations are found in 36 CFR part 1202.

RECORD SOURCE CATEGORIES:

Information in the public transportation benefit program files is obtained from individuals who have furnished information to the NARA PTSP.

NATIONAL FOUNDATION FOR THE ARTS AND THE HUMANITIES

**National Endowment for the Arts;
National Council on the Arts 147th Meeting**

Pursuant to section 10 (a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), as amended, notice is hereby given that a meeting of the National Council on the Arts will be held on November 7, 2002 from 2 p.m.-4:15 p.m. in Room 527 in Room M-09 at the Nancy Hanks Center, 1100 Pennsylvania Avenue, NW., Washington, DC 20506.

This meeting will be open to the public on a space available basis. Following opening remarks and announcements, the new Council member will be sworn in. This will be followed by Congressional, White House, budget and planning updates. A guest presentation will be made by Jac

Venza of PBS Great Performances. Other agenda items will include: Application Review for Creativity, Organizational Capacity Literature Fellowships, and Leadership Initiatives; review of Guidelines for Grants for Arts Projects; and general discussion.

If, in the course of the open session discussion, it becomes necessary for the Council to discuss non-public commercial or financial information of intrinsic value, the Council will go into closed session pursuant to subsection (c)(4) of the Government in the Sunshine Act, 5 U.S.C. 552b.

Additionally, discussion concerning purely personal information about individuals, submitted with grant applications, such as personal biographical and salary data or medical information, may be conducted by the Council in closed session in accordance with subsection (c)(6) of 5 U.S.C. 552b.

Any interested persons may attend, as observers, Council discussions and reviews that are open to the public. If you need special accommodations due to a disability, please contact the Office of AccessAbility, National Endowment for the Arts, 1100 Pennsylvania Avenue, NW., Washington, DC 20506, (202) 682-5532, TTY-TDD (202) 682-5429, at least seven (7) days prior to the meeting.

Further information with reference to this meeting can be obtained from the Office of Communications, National Endowment for the Arts, Washington, DC 20506, at (202) 682-5570.

Dated: October 9, 2002.

Kathy Plowitz-Worden,

Panel Coordinator, Office of Guidelines and Panel Operations.

BILLING CODE 7537-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-263]

**Nuclear Management Company, LLC;
Notice of Consideration of Issuance of
Amendment to Facility Operating
License, Proposed No Significant
Hazards Consideration Determination,
and Opportunity for a Hearing**

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. DPR-22 issued to the Nuclear Management Company, LLC (the licensee), for operation of the Monticello Nuclear Generating Plant located in Wright County, Minnesota.

The proposed amendment would revise the drywell leakage and sump

monitoring section of the Technical Specifications (TSs) to clarify existing requirements, revise the existing limiting condition for operations and surveillance requirements, and add additional TS requirements.

Before issuance of the proposed license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

The Commission has made a proposed determination that the amendment request involves no significant hazards consideration. Under the Commission's regulations in Title 10 of the Code of Federal Regulations (10 CFR), section 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

1. The proposed amendment will not involve a significant increase in the probability or consequences of an accident previously evaluated.

The proposed Technical Specification changes do not introduce new equipment or new equipment operating modes, nor do the proposed changes alter existing system relationships. The changes simply redefine the parameters for evaluation of leakage in the drywell. Changes in the time required to perform shutdown actions proposed are acceptable because they are reasonable based on operating experience, to reach the required plant conditions from full power conditions in an orderly manner and without challenging plant safety systems. The evaluation criteria for drywell leakage have been refocused into the areas that are most susceptible to IGSCC [intergranular stress corrosion cracking]. Consequently, the probability of an accident previously evaluated is not significantly increased. The equipment referenced in the proposed changes is still required to be operable. As a result, the consequences of any accident previously evaluated are not significantly affected.

Therefore, the proposed amendment will not involve a significant increase in the probability or consequences of an accident previously evaluated.

2. The proposed amendment will not create the possibility of a new or
