

is necessary for the proper performance of the mission of FinCEN, including whether the information will have practical utility; (b) the accuracy of FinCEN's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

In addition, the Paperwork Reduction Act of 1995 requires agencies to estimate the total annual cost burden to respondents or recordkeepers resulting from the collection of information. Thus, FinCEN also specifically requests comments to assist with this estimate. In this connection, FinCEN requests commenters to identify any additional costs associated with the completion of the form. These comments on costs should be divided into two parts: (1) Any additional costs associated with reporting; and (2) any additional costs associated with recordkeeping.
