In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), notice is hereby given of the following advisory committee meeting. The meeting is open to the public.

Name: National Advisory Council on Nurse Education and Practice

Date and Time: November 7, 2002, 8:30 a.m.–5 p.m., November 8, 2002, 8:30 a.m.–3 p.m.

Place: The Hotel Washington, Pennsylvania Avenue, NW at 15th St., Washington, DC 20004.

Agenda: Agency, Bureau and Division administrative updates. Overview of the Nurse Reinvestment Act, Pub. L. 107–205; staff legislative workshop reports; and Council workshop sessions with discussion and recommendations for implementation of legislation. Presentations and discussion of bioterrorism workforce issues with focus on nursing. Reports of the Institute of Medicine Health Professions Summit meeting with discussion regarding future interdisciplinary activities and report of the Development of a Funding Methodology for the Allocation of Title VIII Funds: Phase II.

For Further Information Contact: Anyone interested in obtaining a roster of members, minutes of the meeting, or other relevant information should write or contact Ms. Elaine G. Cohen, Executive Secretary, National Advisory Council on Nurse Education and Practice, Parklawn Building, Room 9–35, 5600 Fishers Lane, Rockville, Maryland 20857, telephone (301) 443–1405.

Dated: October 17, 2002.

Jane M. Harrison,
Director, Division of Policy Review and Coordination.
DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Submission for OMB Review; Comment Request, National Kidney Disease Education Program Evaluation Survey

SUMMARY: Under the provisions of section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the National Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request to review and approve the information collection listed below. This proposed information collection was previously published in the Federal Register. August 5, 2002 (67 FR 50678–50679), and allowed 60-days for public comment. No public comments were received. The purpose of this notice is to allow an additional 30 days for public comment. The National Institutes of Health may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

Proposed Collection:

Title: National Kidney Disease Education Program Evaluation Survey

Type of Information Collection Request: Now. Need and Use of Information Collection: NIDDK will conduct a survey to monitor and evaluate the effects of a pilot kidney disease education program. This will be accomplished through baseline and follow-up surveys of the primary target audience members, i.e., African American adults and primary care providers, in four pilot site locations. The search is designed to assess the overall impact of the program, but also to provide information that will be useful in developing and refining this and future programs. Frequency of Response: A baseline and follow-up survey will each require a one-time response. Affected Public: Individuals or households, clinics or doctor’s offices. Type of Respondents: African-American adults and primary care providers (e.g., physicians, physician assistants, nurse practitioners, etc.). The annual reporting burden is as follows: Estimated Number of Respondents: 2,000; Estimated Number of Responses per Respondent: 1 (Respondents will answer a single survey: African American adults will complete a 20 minute computer assisted telephone interview (CATI); Primary care providers will complete a 10 minute faxed survey); Average Burden Hours Per Response: .298 and Estimated Total Annual Burden Hours Requested: 596. The annualized total cost to respondents is estimated at $10,684. All respondents will be contacted via telephone. To reduce respondent burden and overall costs of administering the study, it is expected that random digit dialing will be used to contact African American adults and telephone lists will be used to contact primary care providers. Because different program materials will be developed for each audience the questionnaires will be tailored such that respondents will be asked only target-audience pertinent questions. There are no Capital Costs to report. There are no Operating or Maintenance Costs to report.
