Title VIII of the Alaska National Interest Lands Conservation Act (16 USC 3101) designates the Departments of the Interior and Agriculture as the key agencies responsible for implementing the subsistence priority on Federal public lands for rural Alaska residents. These responsibilities include the establishment of Regional Advisory Councils with members from each region who are knowledgeable about the region and subsistence uses of the public lands. In order for the Federal Board to make recommendations to the Secretaries for membership on these Regional Councils, it is necessary to recruit and screen applicants. These three associated forms allow the Federal Subsistence Board to recruit applicants and to review their credentials in order to make recommendations to the Secretaries for appointment of members to the Regional Councils. One-third of the seats on the Regional Councils become vacant each year. Additional vacancies may occur due to resignations or deaths of sitting members.

Title: Federal Subsistence Regional Advisory Council Membership Application Form.

Total Annual Burden Hours: The reporting burden is estimated to average 0.5 hours per respondent. With an estimated 120 applicants annually, the estimated Total Annual Burden hours is 60 hours.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Proposed Habitat Conservation Plan for the Northern Spotted Owl, Napa County, CA

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability.

SUMMARY: The Fish and Wildlife Service (Service) has received an application for an incidental take permit from Terra Springs, LLC (the “applicant”) for the northern spotted owl (*Strix occidentalis caurina*) pursuant to section 10(a)(1)(B) of the Endangered Species Act of 1973, as amended (Act). The applicant addresses the potential for “take” of the threatened northern spotted owl associated with timber harvest and conversion of timberlands to vineyards within a 76 acre area in Napa County (the “covered lands”). These activities (the “covered activities”) are those associated with conversion of 22 acres of forest lands to vineyard and with any subsequent removal of commercial conifer trees from the remainder of the covered lands. A conservation program to minimize and mitigate for the covered activities would be implemented as described in the Terra Springs Low Effect Habitat Conservation Plan (Plan), which would be implemented by the applicant, and which includes management in perpetuity of 41 acres of the parcel as nesting/roosting quality habitat for the northern spotted owl.

We request comments on the permit application, the Plan, and on the

preliminary determination that the Plan qualifies as a “Low-effect” Habitat Conservation Plan, eligible for a categorical exclusion under the National Environmental Policy Act. The basis for this determination is discussed in the Environmental Action Statement (EAS), which is also available for public review.

DATES: Written comments should be received on or before November 29, 2002.

ADDRESSES: Comments should be addressed to the Project Leader, Fish and Wildlife Service, Arcata Fish and Wildlife Office, 1655 Heindon Road, Arcata, California 95521. Written comments may be sent by facsimile to (707) 822–8411.

FOR FURTHER INFORMATION CONTACT: Ms. Amedee Brickey, Team Leader, Habitat Conservation Planning Team, at the Arcata Fish and Wildlife Office; telephone: (707) 822–7201.

SUPPLEMENTARY INFORMATION:

Availability of Documents

Individuals wishing copies of the application, Plan, and EAS should contact the Service by telephone at (707) 822–7201 or by letter to the Arcata Fish and Wildlife Office. Copies of these documents also are available for public inspection during regular business hours at the Arcata Fish and Wildlife Office.

Background Information

Section 9 of the Act and Federal regulation prohibit the “take” of animal species listed as endangered or threatened. Take is defined under the Act as harass, harm, pursue, hunt, shoot, wound, kill, trap, capture or collect listed animal species, or attempt to engage in such conduct (16 U.S.C. 1538). However, under limited circumstances, the Service may issue permits to authorize “incidental take” of listed animal species. “Incidental take” is defined by the Act as take that is incidental to, and not the purpose of, carrying out of an otherwise lawful activity. Regulations governing permits for threatened species and endangered species, respectively, are at 50 CFR 17.32 and 50 CFR 17.22.

The applicant is seeking a permit for take of the threatened northern spotted owl (*Strix occidentalis caurina*) during the life of the permit. The duration of the permit is 30 years.

The Terra Springs LLC site, the covered lands, comprises two adjacent parcels, totaling 76 acres, and is located about 4 miles west of the city of Saint Helena, on the western edge of the Napa Valley between 1,800 and 2,000 feet
