

Washington, DC. The meeting is tentatively scheduled to begin at 10 a.m. on November 7, and at 9 a.m. on November 8.

Topics for discussion include: Medicare in the context of the federal budget; emergency department use and beneficiary access to care; beneficiary access to post-hospital care—results of a focus group with hospital discharge planners; how Medicare makes coverage decisions; payment for ambulatory surgery and other services provided in multiple settings; examining growth in the volume of physician services; M+C payment areas—exploring alternatives; choice of SNF services in Medicare+Choice; PPS for inpatient psychiatric facilities; expanded transfer policy for hospital inpatient services; and workplans for assessing the adequacy of payments for outpatient dialysis, skilled nursing facilities, and home health services.

Agenda will be mailed on November 30, 2002. The full agenda will be available on the Commission's website (www.MedPAC.gov).

ADDRESSES: MedPAC's address is: 601 New Jersey Avenue, NW., Suite 9000, Washington, DC 20001. The telephone number is (202) 220-3700.

FOR FURTHER INFORMATION CONTACT: Diane Ellison, Office Manager, (202) 220-3700.

Mark E. Miller,

Executive Director.

OFFICE OF NATIONAL DRUG CONTROL POLICY

Meeting of the Advisory Commission on Drug Free Communities

AGENCY: Office of National Drug Control Policy.

ACTION: Notice of meeting.

SUMMARY: In accordance with the Drug-Free Communities Act, a meeting of the Advisory Commission on Drug Free Communities will be held on November 13, 2002, at the Office of National Drug Control Policy in the 5th Floor Conference Room, 750 17th Street NW., 7th Floor, Washington, DC. The meeting will commence at 9 a.m. on Wednesday, November 13, 2002, and adjourn at 5 p.m. The agenda will include: the solicitation for Mentoring Grants; the National Antidrug Coalition Institute; the Marijuana and Community Drug Prevention Initiatives of the National Youth Anti-Drug Media Campaign Coalition Building Initiative; and

remarks by ONDCP Director, John P. Walters. There will be an opportunity for public comment from 4 p.m. until 4:30 p.m. on Wednesday, November 13, 2002. Members of the public who wish to attend the meeting and/or make public comment should contact Sigrid Melus at (202) 395-6700 to arrange building access.

FOR FURTHER INFORMATION CONTACT: Linda V. Priebe, (202) 395-6622.

Dated: October 23, 2002.

Linda V. Priebe,

Assistant General Counsel.

NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

SUMMARY: The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35).

Information pertaining to the requirement to be submitted:

1. *The title of the information collection:* NRC Form 7, Application for License to Export Nuclear Equipment and Material.

2. *Current OMB approval number:* 3150-0027.

3. *How often the collection is required:* On occasion; for each separate request for a specific export license and for exports of incidental radioactive material using existing general licenses.

4. *Who is required or asked to report:* Any person in the U.S. who wishes to export: (a) Nuclear equipment and material subject to the requirements of a specific license, (b) radioactive waste subject to the requirements of a specific license, and (c) incidental radioactive material that is a contaminant of shipments of more than 100 kilograms of non-waste material using existing NRC general licenses.

5. *The number of annual respondents:* 70.

6. *The number of hours needed annually to complete the requirement or request:* 191 hours (190.8).

7. *Abstract:* Any person in the U.S. wishing to export nuclear material and

equipment requiring a specific authorization or radioactive waste requiring a specific authorization ordinarily should file an application for a license on NRC Form 7, except that certain submittals should be filed by letter. The application will be reviewed by the NRC and by the Executive Branch, and if applicable statutory, regulatory, and policy considerations are satisfied, the NRC will issue a license authorizing the export.

A completed NRC Form 7 must also be filed by any person in the U.S. wishing to use existing NRC general licenses for the export of incidental radioactive material before the export takes place (if the total amount of the shipment containing the incidental radioactive material exceeds 100 kilograms). The form is reviewed by the NRC to ensure that the Agency is informed before the fact of these kinds of shipments and to allow NRC to inform other interested parties, as appropriate, including import control authorities in interested foreign countries.

Submit, by December 30, 2002, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F23, Rockville, MD 20852. OMB clearance requests are available at the NRC worldwide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions about the information collection requirements may be directed to the NRC Clearance Officer, Brenda Jo. Shelton, U.S. Nuclear Regulatory Commission, T-6 E6, Washington, DC 20555-0001, by telephone at 301-415-7233, or by Internet electronic mail at INFOCOLLECTS@NRC.GOV.

Dated at Rockville, Maryland, this 22nd day of October, 2002.

For the Nuclear Regulatory Commission.

Brenda Jo. Shelton,

NRC Clearance Officer, Office of the Chief Information Officer.

BILLING CODE 7590-01-M

NUCLEAR REGULATORY COMMISSION

Biweekly Notice; Applications and Amendments to Facility Operating Licenses Involving No Significant Hazards Considerations

I. Background

Pursuant to Public Law 97-415, the U.S. Nuclear Regulatory Commission (the Commission or NRC staff) is publishing this regular biweekly notice. Public Law 97-415 revised section 189 of the Atomic Energy Act of 1954, as amended (the Act), to require the Commission to publish notice of any amendments issued, or proposed to be issued, under a new provision of section 189 of the Act. This provision grants the Commission the authority to issue and make immediately effective any amendment to an operating license upon a determination by the Commission that such amendment involves no significant hazards consideration, notwithstanding the pending before the Commission of a request for a hearing from any person.

This biweekly notice includes all notices of amendments issued, or

proposed to be issued from, October 4, 2002, through October 17, 2002. The last biweekly notice was published on October 15, 2002 (67 FR 63687).

Notice of Consideration of Issuance of Amendments to Facility Operating Licenses, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The Commission has made a proposed determination that the following amendment requests involve no significant hazards consideration. Under the Commission's regulations in 10 CFR 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. The basis for this proposed determination for each amendment request is shown below.

The Commission is seeking public comments on this proposed determination. Any comments received within 30 days after the date of publication of this notice will be considered in making any final determination.

Normally, the Commission will not issue the amendment until the expiration of the 30-day notice period. However, should circumstances change during the notice period such that failure to act in a timely way would result, for example, in derating or shutdown of the facility, the Commission may issue the license amendment before the expiration of the 30-day notice period, provided that its final determination is that the amendment involves no significant hazards consideration. The final determination will consider all public and State comments received before action is taken. Should the Commission take this action, it will publish in the Federal Register a notice of issuance and provide for opportunity for a hearing after issuance. The Commission expects that the need to take this action will occur very infrequently.

Written comments may be submitted by mail to the Chief, Rules and Directives Branch, Division of Administrative Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and should cite the publication date and page number of this **Federal Register** notice. Written comments may also be delivered to Room 6D22, Two White Flint North, 11545 Rockville
