

This meeting will be held by a telephone conference call. The public is welcome to attend the open portion of the meeting. A speaker phone will be provided at the specified location.

Contact Person: Jody G. Sachs or Denise H. Royster, Center for Biologics Evaluation and Research (HFM-71), Food and Drug Administration, 1401 Rockville Pike, Rockville, MD 20852, 301 827-0314, or FDA Advisory Committee Information Line, 1-800-741-8138 (301-443-0572 in the Washington, DC area), code 12391. Please call the Information Line for up-to-date information on this meeting.

Agenda: The committee will review and discuss the intramural research programs of the Laboratory of Enteric and Sexually Transmitted Diseases, Office of Vaccines Research and Review.

Procedure: On November 18, 2002, from 1 p.m. to 3 p.m., the meeting is open to the public. Interested persons may present data, information, or views, orally or in writing, on issues pending before the committee. Written submissions may be made to the contact person by November 1, 2002. Oral presentations from the public will be scheduled between approximately 2 p.m. and 3 p.m. Time allotted for each presentation may be limited. Those desiring to make formal oral presentations should notify the contact person before November 1, 2002, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, and an indication of the approximate time requested to make their presentation.

Closed Committee Deliberations: On November 18, 2002, from 3 p.m. to 3:30 p.m., the meeting will be closed to permit discussion where disclosure would constitute a clearly unwarranted invasion of personal privacy (5 U.S.C. 552b(c)(6)).

Persons attending FDA's advisory committee meetings are advised that the

agency is not responsible for providing access to electrical outlets.

FDA welcomes the attendance of the public at its advisory committee meetings and will make every effort to accommodate persons with physical disabilities or special needs. If you require special accommodations due to a disability, please contact Jody G. Sachs or Denise H. Royster at least 7 days in advance of the meeting.

Notice of this meeting is given under the Federal Advisory Committee Act (5 U.S.C. app. 2).

Dated: October 23, 2002.

LaJuana D. Caldwell,

Acting Senior Associate Commissioner for External Relations.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (301) 443-7978.

National Evaluation of the Comprehensive Community Mental Health Services for Children and Their Families Program, Phase Two—(OMB No. 0930-0192, Revision)—SAMHSA's Center for Mental Health Services (CMHS) is conducting Phase II of this national evaluation project. Phase II collects data on child mental health outcomes, family life, and service system development and performance.

Child and family outcomes of interest include the following: child symptomatology and functioning, family functioning and material resources, and caregiver strain. Delivery system variables of interest include the following: system of care development, adherence to system of care principles, coordination and linkages among agencies, and congruence between services planned versus those received.

To address the research questions in the national evaluation, a longitudinal quasi-experimental design is being used that includes data collection in all grantee sites and comparison sites (where services are delivered in a more traditional manner). This multi-level evaluation is comprised of several major components. Data collection methods include interviews with caregivers and youth, site visits, case record reviews, service diaries, and provider surveys.

Data collection for this evaluation will be conducted over a six-year period. The length of time that families will participate in the study ranges from 18 to 36 months depending on when they enter the evaluation. The average annual respondent burden is estimated below; this represents an annual average burden reduction of 6,237 hours from the level currently approved by the Office of Management and Budget.

This revision to the currently approved data collection activities involves: (1) Reducing the number of sites where data collection will occur from 27 to 25, (2) extending the time frame for data collection by an additional 18 months, (3) adding a treatment effectiveness study in two sites including assessment of outcomes, treatment fidelity, and interaction of the treatment with the larger system of care, (4) adding a survey of clinicians/practitioners on their use of evidence-based treatments, and (5) adding a study of how systems of care are sustained after program funding ends.

¹ An average of 25 stakeholders per grantee site. Round One has 11 grantee sites (some grantees have multiple service sites that are assessed) and two comparison sites. Round Two has 14 grantee sites (no multiple sites) and no comparison sites. These stakeholders will include site administrative staff, providers, agency representatives, and family representatives.

² Round One sites participate in system assessment site visits annually. Round Two sites are assessed every 18 months.

³ Number of respondents across 23 grantees and 2 comparison sites. Average based on a 5 percent attrition rate at each data collection point. These data are collected as part of the grantees' routine intake processes. Hence, burden is calculated only for the subset of the Cross-sectional Descriptive Study sample that also participates in the Child and Family Outcome Study.

⁴ Average number of responses per respondent based on 7 data collection points for children recruited in year 2, 6 for children recruited in year 3, and 4 for children recruited in year 5 (of grantee funding).

⁵ Based on Phase I finding that approximately 60 percent of the children in the evaluation were 11 years old or older.

⁶ Based on an average length of time in services of 18 months, respondents will complete satisfaction and service measures at intake, 6-month, 12-month, and 18-month data collection points.

⁷ Includes respondents in 2 grantee and 2 comparison sites.

⁸ Based on 50 families each from 2 grantee and 2 comparison sites.

⁹ Data collection will occur once at baseline and then biweekly for 16 weeks.

¹⁰ Providers of 50 families each from 2 grantee and 2 comparison sites.

¹¹ An estimated 120 providers each from 2 grantee and 2 comparison sites will complete the survey.

¹² Data collection will be conducted in years 5 and 6 (of grantee funding).

¹³ Assumes that one-third of children screened will not meet criteria.

¹⁴ Caregivers will complete at intake, 3-month, 6-month, and 9-month data collection points.

¹⁵ Fifteen minute observation of caregiver-child interaction while engaged in 3 five minute tasks at intake and at 3 months (pre- and post-treatment).

¹⁶ Includes four site level respondents (i.e., current or former project director, key mental health representative, family representative, agency representative) at 51 Phase I and Phase II sites.

¹⁷ Includes two site-level and one state-level respondent for all 51 sites included in the sustainability survey from Phase I and Phase II.

Written comments and recommendations concerning the proposed information collection should be sent within 30 days of this notice to: Allison Herron Eydt, Human Resources and Housing Branch, Office of Management and Budget, New Executive Office Building, Room 10235, Washington, DC 20503.

Dated: October 23, 2002.

Richard Kopanda,

Executive Officer, SAMHSA.
