Laboratory)

* The Standards Council of Canada (SCC)
voted to end its Laboratory Accreditation
Program for Substance Abuse (LAPSA)
effective May 12, 1998. Laboratories certified
through that program were accredited to
conduct forensic urine drug testing as
required by U.S. Department of
Transportation (DOT) regulations. As of that
date, the certification of those accredited
Canadian laboratories will continue under
DOT authority. The responsibility for
conducting quarterly performance testing
plus periodic on-site inspections of those
LAPSA-accredited laboratories was
transferred to the U.S. DHHS, with the
DHHS' National Laboratory Certification
Program (NLCP) contractor continuing to
have an active role in the performance testing
and laboratory inspection processes. Other
Canadian laboratories wishing to be
considered for the NLCP may apply directly
to the NLCP contractor just as U.S.
laboratories do.

Upon finding a Canadian laboratory to be
qualified, the DHHS will recommend that
DOT certify the laboratory (Federal Register,
16 July 1996) as meeting the minimum
standards of the "Mandatory Guidelines for
Workplace Drug Testing" (59 FR, 9 June
1994, Pages 29908-29931). After receiving
the DOT certification, the laboratory will be
included in the monthly list of DHHS

certified laboratories and participate in the
NLCP certification maintenance program.

Richard Kopanda,
Executive Officer, SAMHSA.

BILLING CODE 4160-20-P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-4737-N-08]

Notice of Proposed Information Collection for Public Comment: Data Collection Techniques for Identifying the Housing Subsidy Status of Survey Respondents

AGENCY: Office of Policy Development
and Research, HUD.

ACTION: Notice.

SUMMARY: The proposed information
collection requirement described below
will be submitted to the Office of
Management and Budget (OMB) for
review, as required by the Paperwork
Reduction Act. The Department is
soliciting public comments on the
subject proposal.

DATES: *Comment Due Date:* December
31, 2002.

ADDRESSES: Interested persons are
invited to submit comments regarding
this proposal. Comments should refer to
the proposal by name and/or OMB
Control Number and should be sent to:
Reports Liaison Officer, Office of Policy
Development and Research, Department
of Housing and Urban Development,
451 7th Street, Room 8228, SW.,
Washington, DC 20410.

FOR FURTHER INFORMATION CONTACT:
Harold R. Holzman, Program Evaluation
Division, Office of Policy Development
and Research, Department of Housing
and Urban Development, 451 7th Street,
SW., Room 8140, Washington, DC
20410, telephone 202-708-3700,
extension 5709. This is not a toll-free
number. E-mail:
Harold R. Holman@hud.gov. Copies of
the proposed forms and other available
documents may be obtained from
Harold Holzman.

SUPPLEMENTARY INFORMATION: The
Department will submit the proposed
information collection to OMB for
review, as required by the Paperwork
Reduction Act of 1995 (44 U.S.C.
Chapter 35, as amended).

This notice is soliciting comments
from members of the public and affected
agencies concerning the proposed
collection of information to: (1) Evaluate
whether the proposed collection of
information is necessary for the proper

performance of functions to the agency, including if the information will have practical utility; (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) Enhance the quality, utility, and clarity of the information to be collected; (4) Minimize the burden of the collection of information on those who respond, including through the use of appropriate automated collection techniques or other forms of information technology that will reduce respondent burden (e.g., permitting electronic submission of responses).

This notice also provides the following information:

Title of Proposal: Data Collection Techniques for Identifying the Housing Subsidy Status of Survey Respondents.

Description of the Need for Information and Proposed Use: The Department is conducting under contract a study to develop techniques to more accurately identify respondents' housing subsidy status in the American Housing Survey (AHS). The AHS provides information about the Nation's housing needs, with emphasis on the condition of the housing of low income households, as required by the Housing and Urban/Rural Recovery Act of 1983. The AHS data are also the basis of an annual report on housing quality that Congress requires of the President. Further, AHS data allow the Department

to evaluate the housing needs of low-income families.

Accuracy of the results has been an issue in past versions of the AHS. Specifically, a substantial proportion of respondents misidentify their housing subsidy status in the survey. This threatens the accuracy of information that is reported to Congress, and it also can lead the Department to provide inadequate amounts of housing assistance to low-income families.

Some housing subsidy misidentifications in the AHS involve a 'false positive' pattern: individuals who do not receive a housing subsidy based on program records indicate that they do receive a subsidy in the AHS. The present investigation is an attempt to determine whether alternative survey questions would reduce the number of false positives in the AHS.

To identify false positives, it is necessary to first identify individuals who believe themselves in receipt of a housing subsidy, then use program records to determine whether they are actually receiving a subsidy. In the present study, screening interviews matched with program records will be used to identify individuals who fit the false positive pattern. Alternative questions designed to more effectively identify false positives will be tested in a second interview with a sample of such individuals.

Members of the Affected Public: (1) Randomly selected individuals will participate in screening interviews; and (2) a subset of the randomly selected individuals will participate in a second interview.

Estimation of the Total Number of Hours Needed With Those Surveyed to Conduct the Information Collection, Including Number of Respondents, Frequency of Response, and Hours of Response: The researchers will complete screening interviews with 800 individuals. The individuals will be interviewed by telephone, in their homes, or in another place that is convenient for them. The screening interviews will involve questions about housing subsidies, to identify individuals who believe themselves in receipt of a subsidy. Fifteen individuals who believe themselves in receipt of a subsidy but who are not according to program records will participate in a second interview. This second interview will test alternative questions designed to more accurately identify individuals' housing subsidy status.

Estimation of the Total Number of Hours Needed With Those Surveyed to Conduct the Information Collection, Including Number of Respondents, Frequency of Response, and Hours of Response:

Types of respondents	Number of respondents	Number of responses	Minutes per respondent	Total burden hours
Randomly selected individuals	800	1	5	67
Low-income individuals who incorrectly believe that they are receiving a housing subsidy	15	1	60	15
Total	815	82

Status of the Proposed Information Collection: Pending OMB for approval.

Authority: Section 3506 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended.

Dated: October 23, 2002.

Harold L. Bunce,

Deputy Assistant Secretary for Economic Affairs.
