FOR FURTHER INFORMATION CONTACT: For a copy of the ICR, contact Susan Auby at EPA by phone at: (202) 566-1672, by E-Mail to: auby.susan@epa.gov, or download from the Internet at: <http://www.epa.gov/icr>, and refer to EPA ICR Number 1131.07. For technical questions about the ICR, contact Gregory Fried, Air, Hazardous Waste and Toxics Branch, at (202) 564-7016.

SUPPLEMENTARY INFORMATION:

Title: NSPS for Glass Manufacturing Plants (40 CFR part 60, subpart CC), OMB Control Number 2060-0054, EPA ICR Number 1131.07, expiration date October 31, 2002. This is a request for extension of a currently approved collection.

Abstract: The NSPS for Glass Manufacturing Plants (40 CFR part 60, subpart CC) were proposed on June 15, 1979 and promulgated on October 7, 1980, and amended October 19, 1984. Approximately 45 sources are currently subject to the standard, and it is estimated that no additional sources will become subject to the standard in the next three years. The standards do not apply to hand glass melting furnaces, glass melting furnaces designed to produce less than 4,550 kilograms of glass per day, or all-electric melters. Experimental furnaces are not subject to the emission standards at 40 CFR 60.292. The standards set particulate matter emission limits. There are separate limits for sources using "modified-process" glass melting furnaces. Modified-process is defined as any technique designed to minimize emissions without add-on controls. Emission limits are specific for the type of glass produced, and are listed at 40 CFR 60.292(a) and 60.293(b).

Owners or operators of the affected facilities described must make initial notifications, conduct and report on a performance test, demonstrate and report on continuous monitor performance, maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility. Semiannual reports of excess emissions are required. These notifications, reports, and records are required, in general, for all sources subject to NSPS. The recordkeeping and reporting requirements specific to glass manufacturing plants are detailed in the CFR. This information is being collected to assure compliance with 40 CFR part 60, subpart CC.

Any owner or operator subject to the provisions of this part shall maintain a

file of these measurements, and retain the file for at least two years following the date of such measurements, maintenance reports, and records. All reports are sent to the delegated State or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA Regional Office.

In the Administrator's judgment, particulate matter emissions from glass manufacturing plants cause or contribute to air pollution that may reasonably be anticipated to endanger public health or welfare. Therefore, NSPS were promulgated for this source category at 40 CFR part 60, subpart CC.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on October 29, 2001. Comments were not received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 7 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Glass manufacturing plants.

Estimated Number of Respondents: 45.

Frequency of Response: Initial, semiannual, and on occasion.

Estimated Total Annual Hour Burden: 590.

Estimated Total Annualized Capital, O&M Cost Burden: \$261,000.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through

the use of automated collection techniques to the addresses listed above. Please refer to EPA ICR Number 1131.07 and OMB Control Number 2060-0054 in any correspondence.

Dated: October 24, 2002.

Doreen Sterling,

Acting Director, Collection Strategies Division.

Agency Information Collection Activities: Submission for OMB Review; Comment Request, Reporting Requirements Under EPA's Voluntary Aluminum Industrial Partnership

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Title: Reporting Requirements under EPA's Voluntary Aluminum Industrial Partnership. OMB Control Number 2060-0411, expiration date 10/31/02. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before December 2, 2002.

ADDRESSES: Send comments, referencing EPA ICR No. 1867.02 and OMB Control No. 2060-0411, to the following addresses: Susan Auby, U.S. Environmental Protection Agency, Collection Strategies Division (Mail Code 2822T), 1200 Pennsylvania Avenue, NW., Washington, DC 20460-0001; and to Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: For a copy of the ICR contact Susan Auby at EPA by phone at (202) 566-1672, by E-Mail at Auby.Susan@epamail.epa.gov or download off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 1867.02. For technical questions about the ICR contact Jerome Blackman

at (202) 564-8995; email at Blackman.jerome@epa.gov.

SUPPLEMENTARY INFORMATION:

Title: Reporting Requirements under EPA's Voluntary Aluminum Industrial Partnership, OMB Control Number 2060-0411, EPA ICR Number 1867.02, expiration date 10/31/02. This is a request for extension of a currently approved collection.

Abstract: EPA's Voluntary Aluminum Industrial Partnership (VAIP) was initiated in 1995 and is an important voluntary program contributing to the overall reduction in emissions of greenhouse gases. This program focuses on reducing per fluorocarbon (PFC) emission from the production of primary aluminum. Eight of the nine U.S. producers of primary aluminum participate in this program. PFCs are very potent greenhouse gases with global warming potentials several thousand times that of carbon dioxide and they persist in the atmosphere for thousands of years. EPA has developed this ICR to renew authorization to collect information from companies in the VAIP. Participants voluntarily agree to the following: designating a VAIP liaison; undertaking technically feasible and cost-effective actions to reduce PFC emissions; and reporting to EPA, on an annual basis, the PFC emissions or production parameters used to estimate emissions. The information contained in the annual reports of VAIP members is used by EPA to assess the success of the program in achieving its goals. The information contained in the annual reports may be considered confidential business information and is maintained as such.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on August 12, 2002. No comments were received.

Burden Statement: The annual track reporting and recordkeeping burden for this collection of information is estimated to be roughly 73 hours per respondent. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating,

and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

- **Estimated Number of Respondents:** 8.

- **Frequency of Response:** Annually.

- **Estimated Total Annual Hour**

Burden: 584.

- **Estimated Total Annualized Capital, O&M Cost Burden:** \$0.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the addresses listed above. Please refer to EPA ICR No. 1867.02 and OMB Control No. 2060-0411 in any correspondence.

Dated: October 24, 2002.

Agency Information Collection Activities: Submission for OMB Review; Comment Request; NPDES Storm Water Program Phase II

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: NPDES Storm Water Program Phase II, OMB Control Number 2040-0211, expiration date October 31, 2002. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before December 2, 2002.

ADDRESSES: Send comments, referencing EPA ICR No. 1820.03 and OMB Control

No. 2040-0211, to the following addresses: Susan Auby, U.S. Environmental Protection Agency, Collection Strategies Division (Mail Code 2822T), 1200 Pennsylvania Avenue, NW, Washington, DC 20460-0001; and to Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: For a copy of the ICR contact Susan Auby at EPA by phone at (202) 566-1672, by E-Mail at auby.susan@epa.gov or download off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 1820.03. For technical questions about the ICR contact Jack Faulk at (202) 564-0768 or via E-Mail at faulk.jack@epa.gov.

SUPPLEMENTARY INFORMATION:

Title: NPDES Storm Water Program Phase II, OMB Control Number 2040-0211, EPA ICR Number 1820.03, expiration date October 31, 2002. This is a request for extension of a currently approved collection.

Abstract: This ICR addresses Phase II of the NPDES storm water program. Under the Phase II rule, EPA regulates storm water discharges from construction sites with activities disturbing equal to or greater than one acre and less than five acres of land, and small municipal separate storm sewer systems (MS4s) located in Bureau of the Census-designated "urbanized areas." Additional construction sites and small MS4s may be designated by the NPDES permitting authority. NPDES permits provide the mechanism for establishing appropriate controls on these Phase II sources. The Phase II rule also includes a provision that allows industrial facilities regulated under Phase I of the NPDES storm water program to obtain an exclusion from NPDES permitting requirements if they can certify to a condition of "no exposure" on their site.

Permits were not required for small construction sites and regulated small MS4s during the first three years of the program. The data collection effort during this first three-year period was limited to the submittal and review of no exposure certifications and some preliminary Agency work in developing specific program elements. A significant increase in burden for this ICR is the product of that fact.

After general permits for small MS4s and small construction sites are issued in December of 2002, NPDES permitting authorities, including the Water Permits Division of the EPA Office of Wastewater Management, intend to use the data contained in storm water
