Approval and Promulgation of Implementation Plans; New Jersey; Motor Vehicle Enhanced Inspection and Maintenance Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve a State Implementation Plan (SIP) revision submitted by New Jersey, including revisions to the State's enhanced motor vehicle inspection and maintenance (I/M) program. This revision updates New Jersey's enhanced I/M performance standard modeling to reflect the State's plan to extend the current new vehicle inspection exemption from one inspection cycle (2 years) to two inspection cycles (4 years). This evaluation is necessary for New Jersey to demonstrate that the proposed changes to the enhanced I/M program will not impact the State's ability to continue to meet its enhanced I/M emission reduction goals for current and future years. EPA is proposing approval of New Jersey's plan to extend the new car emission inspection exemption, and the State's supporting revised performance standard modeling, which demonstrates that the enhanced I/M program continues to meet EPA's low enhanced performance standard.
