SUPPLEMENTARY INFORMATION:

I. Purpose and Background

The U.S. Department of Labor, Division of Older Worker Programs of the Employment and Training Administration is requesting grant applications for the provision of community service employment and unsubsidized placement of eligible participants (sometimes also referred to as enrollees) in accordance with title V of the Older Americans Act Amendments of 2000, Pub. L. 106-501, 42 U.S.C. § 3056 *et seq.* SCSEP is the only nationwide Federal program that focuses on training and placing older individuals into community service positions and unsubsidized employment.

SCSEP is currently authorized through 2005 and provides for at least 60,000 positions in which approximately 100,000 participants are served each year through part-time employment opportunities in community service activities. The purpose of the program is to foster useful part-time opportunities in community service activities for unemployed low-income persons who are 55 years or older and who have poor employment prospects, and to foster individual economic self-sufficiency by increasing the number of participants who receive the benefits of unsubsidized employment in the public and private sectors. Program participants work at community service agencies usually for 20 hours a week and are paid the higher of the Federal or State minimum wage. (OAA Amendments § 502(b)(1)(J)).

The Department is holding a full and open competition for SCSEP national grant funds in order to provide better services to SCSEP participants, host agencies, employers, and the communities that the national grant program serves. Open competition is not only the preferred vehicle for obtaining new grantees, but in most cases, it is the required vehicle for obtaining new grantees. (Pub. L. 95-224; 43 FR 36860-65; DMLS-2 § 836 at 8-12; OAA Amendments). The Department favors full and open competition because it provides the Department with an opportunity to ensure that the best applicants are awarded grants and the program is administered to its full potential. It also allows new and different entities, including faith-based and community-based organizations, to become a part of the grantee community.
