

Desert Cahuilla Indians Tribe, Coachella Valley, Riverside County, CA.

Summary: EPA reviewed the FEIS and found that the document adequately addresses the issues raised in our comment letter on the DEIS.

ERP No. F-FHW-C40155-NY NY-17, Horseheads Project, Reconstruction from RM 17-6205-1069 to RM 14-6201-3040, Funding, Town and Village of Horseheads, Chemung County, NY.

Summary: EPA's comments on the DEIS were adequately addressed.

ERP No. F-FHW-G40168-LA Bayou Barataria Bridge/LA-302 Replacement, LA-45/Jean Lafitte Boulevard to LA-3257/Privateer Boulevard, Funding and U.S. Army COE Section 404 and US Coast Guard Bridge Permits Issuance, Communities of Jean Lafitte and Barataria, Jefferson Parish, LA.

Summary: EPA expressed no further comments on the Final EIS and has no objection to the selection of the preferred alternative. EPA's comments were adequately addressed in the Final EIS.

ERP No. F-FRC-L05223-WA Martin Creek Hydroelectric Project (FERC Project No.10942), Construction, Operation and Maintenance of a 10.2-Megawatt (MW) Hydroelectric Run-of-River Facility, License Approval, Cascade Mountains, Martin and Kelley Creeks, Mt. Baker-Snoqualmie National Forest, King County, WA.

Summary: EPA continues to have environmental objections to the proposed project because it would undermine the environmental and biological protection provisions of the Northwest Forest Plan and would degrade water quality in Martin Creek, designated an "extraordinary" water body by the State of Washington. EPA recommended selection of the No Action alternative based on the negative environmental effects, negative net power benefits, and extremely small amount of power that would be generated by the project.

ERP No. F-NPS-C67000-NJ Maurice National Scenic and Recreational River (NS&RR) Comprehensive Management Plan, Implementation, Atlantic and Cumberland Counties, NJ.

Summary: No formal comment letter was sent to the preparing agency.

ERP No. F-NPS-G61040-TX Fort Davis National Historic Site, General Management Plan, Implementation, Fort Davis, TX.

Summary: EPA has no objection to the selection of the preferred alternative since the final EIS adequately responded to comments offered on the Draft EIS.

ERP No. FS-FRC-L05208-WA Irene Creek Hydroelectric Project, (FERC No.10100-002) and Anderson Creek Hydroelectric Project (FERC No. 10416-003), Construction and Operation, Issuance of Amended License Applications, Skagit and Whatcom Counties, WA.

Summary: EPA continues to have environmental objections to the proposed projects (and alternatives to it) because they would undermine Northwest Forest Plan protections, degrade pristine water quality found in Irene and Anderson Creek, and likely affect listed bull trout. Analyses in the EIS show that it would cost more to operate projects than the value of power produced and that an extremely small amount of power would be generated. For these reasons, EPA recommends that FERC select the No Action Alternative.

Background

The Agency issued a proposed rule titled Standards for the Management of Cement Kiln Dust on August 20, 1999 (64 FR 45631). In the proposed rule, EPA established a 90-day public comment period, which was extended to February 17, 2000. The Agency received a total of 52 comments. On May 11, 2001 the American Portland Cement Alliance (APCA) submitted a rulemaking petition to EPA pursuant to 7004(a) of the RCRA. EPA met with APCA on July 6, 2001 to discuss the petition. APCA provided groundwater monitoring data for 18 CKD disposal facilities from a collection of information on 35 plants that together accounted for approximately 95 percent of the CKD landfilled in the United States in 2000. In a Notice of Data Availability, published July 25, 2002 (67 FR 48648), the Agency established a 60-day period to inspect and make public comment on the data. Subsequently, the Agency received a request from a stakeholder to extend the comment period another 30 days. EPA supports the request for an extension, and the comment period will be extended from September 23, 2002 to December 9, 2002.

Dated: October 31, 2002.
