Background

The Agency issued a proposed rule titled Standards for the Management of Cement Kiln Dust on August 20, 1999 (64 FR 45631). In the proposed rule, EPA established a 90-day public comment period, which was extended to February 17, 2000. The Agency received a total of 52 comments. On May 11, 2001 the American Portland Cement Alliance (APCA) submitted a rulemaking petition to EPA pursuant to 7004(a) of the RCRA. EPA met with APCA on July 6, 2001 to discuss the petition. APCA provided groundwater monitoring data for 18 CKD disposal facilities from a collection of information on 35 plants that together accounted for approximately 95 percent of the CKD landfilled in the United States in 2000. In a Notice of Data Availability, published July 25, 2002 (67 FR 48648), the Agency established a 60-day period to inspect and make public comment on the data. Subsequently, the Agency received a request from a stakeholder to extend the comment period another 30 days. EPA supports the request for an extension, and the comment period will be extended from September 23, 2002 to December 9, 2002.

Dated: October 31, 2002.
