### SUPPLEMENTARY INFORMATION:

**Title:** NSPS for Metal Coil Surface Coating (subpart TT), OMB Control Number 2060-0107, EPA ICR Number 0660.08, expiration date January 31, 2003. This is a request for extension of a currently approved collection.

**Abstract:** The New Source Performance Standard (NSPS) for Surface Coating of Metal Coils were proposed on January 5, 1981, and promulgated on November 1, 1982. These standards apply to each metal coil surface coating operation in which organic coatings are applied that commenced construction, modification or reconstruction after January 5, 1981. Approximately 161 sources are currently subject to the standard, and it is estimated that 4 sources per year will become subject to the standard. Volatile Organic Compounds (VOCs) are the pollutants regulated under this subpart, and this information is being collected to assure compliance with 40 CFR part 60, subpart TT.

Owners or operators of the affected facilities described must make initial reports when a source becomes subject, conduct and report on a performance test, demonstrate and report on continuous monitor performance, and maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility. Semiannual reports of excess emissions are required. These notifications, reports, and records are essential in determining compliance; and are required, in general, of all sources subject to NSPS.

Any owner or operator subject to the provisions of this part shall maintain a file of these measurements, and retain the file for at least 2 years following the date of such measurements, maintenance reports, and records. All reports are sent to the delegated State or Local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA Regional Office.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed

in 40 CFR part 9 and 48 CFR chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on June 20, 2002. No comments were received.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to average 36 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

**Respondents/Affected Entities:** Owners/Operators of Metal Coil Surface Coating Plants.

**Estimated Number of Respondents:** 165.

**Frequency of Response:** semiannual for all, every other year for excess emission report.

**Estimated Total Annual Hour Burden:** 14,531.

**Estimated Total Annualized Capital, O&M Cost Burden:** \$318,000.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the addresses listed above. Please refer to EPA ICR Number 0660.08 and OMB Control Number 2060-0107 in any correspondence.

These consolidated cases concern a November 15, 2001 **Federal Register** notice entitled *Recent Posting of Agency Regulatory Interpretations Pertaining to Applicability and Monitoring for Standards of Performance for New Stationary Sources and National Emission Standards for Hazardous Air Pollutants to the Applicability Index (ADI) Database System*, (66 FR 57453) and a January 10, 2002 **Federal Register** notice entitled *Recent Posting to the Applicability Determination Index (ADI) Database System of Agency Applicability Determinations, Alternative Monitoring Decisions, and Regulatory Interpretations Pertaining to Standards of Performance for New Stationary Sources and National Emission Standards for Hazardous Air Pollutants*, (67 FR 1295).

**DATES:** Written comments on the proposed settlement agreement must be received by December 13, 2002.

**ADDRESSES:** Written comments should be sent to Diane E. McConkey, Air and Radiation Law Office (2344A), Office of General Counsel, U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20004. **SUPPLEMENTARY INFORMATION:** From time to time EPA publishes in the **Federal Register** notices of recent postings to the Applicability Determination Index Database System (ADI Posting Notices), similar to the two notices at issue in these petitions for review. The following entities filed petitions for review of one or both of the ADI Posting Notices described above: *Utility Air Regulatory Group (UARG)*, January 11, 2002 (November 15, 2001 notice) and *March 11, 2002 (January 10, 2002 notice); Clean Air Implementation Project (CAIP)*, January 14, 2002 (November 15, 2001 notice); *American Chemistry Council (ACC)*, January 14, 2002 (November 15, 2001 notice); *National Environmental Development Association's Clean Air Regulatory Project (NEDA/CARP)*, January 14, 2002 (November 15, 2001 and January 10, 2002 notices).

UARG, CAIP, ACC, NEDA/CARP, and EPA have now reached initial agreement on a settlement of the consolidated cases which could lead to the voluntary dismissal of the petitions for review. The settlement requires the EPA Administrator to include specific language in the first ADI Posting Notice signed after the settlement agreement is final and effective.

For a period of thirty (30) days following the date of publication of this notice, EPA will receive written comments relating to the proposed settlement agreement.

EPA or the Department of Justice may withdraw or withhold consent to the proposed settlement agreement if the comments disclose facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Act. Unless EPA or the Department of Justice determines, based on any comment which may be submitted, that consent to the settlement agreement should be withdrawn, the terms of the agreement will be affirmed.
