[Docket No. NHTSA 2002-13743; Notice 1]

Continental Tire North America Inc., Receipt of Application for Decision of Inconsequential Noncompliance

Continental Tire North America Inc., (Continental) has determined that a total of 159 P265/70R16 AmeriTrac SUV Radial Passenger Tires and 7,131 P265/70R16 ContiTrac SUV Radial Tires do not meet the labeling requirements mandated by Federal Motor Vehicle Safety Standard (FMVSS) No. 109, "New Pneumatic Tires." The noncompliant tires were produced during the periods March 11-24, 2001, and May 14, 2000-March 24, 2001, respectively.

Pursuant to 49 U.S.C. 30118(d) and 30120(h), Continental has petitioned for a determination that this noncompliance is inconsequential to motor vehicle safety and has filed an appropriate report pursuant to 49 CFR part 573, "Defect and Noncompliance Reports."

This notice of receipt of an application is published under 49 U.S.C. 30118 and 30120 and does not represent any agency decision or other exercise of judgment concerning the merits of the application.

The petitioner argued as follows: FMVSS No. 109 (S4.3.4(b)) requires both the maximum load in kilograms and pounds be molded on the tires sidewall. The rated maximum kilogram load was incorrectly marked 1190 kg rather than 1090 kg. The rated maximum load in pounds was marked correctly. These tires are primarily sold in the domestic replacement market, where the load in pounds would be the predominant consumer unit of measurement.

Continental stated that test results confirm that the subject tires meet other test requirements of FMVSS No. 109 and support the petition of an inconsequential stamping error, which does not effect performance and is not safety related.

Interested persons are invited to submit written data, views, and arguments on the application described above. Comments should refer to the docket number and be submitted to: U.S. Department of Transportation, Docket Management, Room PL-401, 400 Seventh Street, SW., Washington, DC 20590. It is requested that two copies be submitted.

All comments received before the close of business on the closing date indicated below will be considered. The

application and supporting materials, and all comments received after the closing date, will also be filed and will be considered to the extent possible. When the application is granted or denied, the notice will be published in the **Federal Register** pursuant to the authority indicated below. Comment closing date: December 16, 2002.

Authority: (49 U.S.C. 301118, 301120; delegations of authority at 49 CFR 1.50 and 501.8).

Issued on: November 12, 2002.

SUPPLEMENTARY INFORMATION:

I. The Data Collection

The Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35; as amended) and 5 CFR part 1320 require each Federal agency to obtain an OMB approval to continue an information collection activity for which the agency received prior approval. BTS is seeking OMB approval for the following BTS information collection activity whose prior OMB approval is near the expiration date:

Title: Class I Quarterly and Annual Reports of Motor Carriers of Passengers.

OMB Control Number: 2139-0003.

Form Number: BTS Form MP-1.

Type of Review: Extension of a currently approved collection.

Respondents: Class I Motor Carriers of Passengers.

Number of Respondents: 26.

Estimated Time Per Response: 1.5 hours.

Expiration Date: February 28, 2003.

Frequency: Quarterly and annually.

Total Annual Burden: 195 hours.

Abstract: This report provides financial and operating data. The Department of Transportation uses this information to assess the health of the industry and identify industry changes that may affect national transportation

policy. The data also show company financial stability and traffic.

Background: The Quarterly and Annual Reports of Motor Carriers of Passengers (Form MP-1) is a mandated reporting requirement for for-hire Class I motor carriers of passengers. Motor carriers required to comply with the BTS regulations are classified on the basis of their annual gross carrier operating revenues (including interstate and intrastate). Under the financial and operating statistics (F&OS) program the BTS collects balance sheet and income statement data along with information on tonnage, mileage, employees, transportation equipment, and other related data. The data and information collected is made publicly available as prescribed in the BTS regulations (49 CFR 1420). The regulations were formerly administered by Interstate Commerce Commission (ICC), the Interstate Commerce Act, 49 U.S.C. 11145, 49 U.S.C. 11343(d)(1) and the Bus Regulatory Act of 1982 and later transferred to the U.S. Department of Transportation on January 1, 1996, by the ICC Termination Act of 1995 (the Act), 49 U.S.C. 14123.

II. Request for Comments

BTS requests comments on any aspects of these information collections, including (1) the accuracy of the estimated burden; (2) ways to enhance the quality, usefulness, and clarity of the collected information; and (3) ways to minimize the collection burden without reducing the quality of the information collected including additional use of automated collection techniques or other forms of information technology.
