Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 498-1210. Send written comments to CDC, Desk Officer, Human Resources and Housing Branch, New Executive Office Building, Room 10235,

Washington, DC 20503. Written comments should be received within 30 days of this notice.

Proposed Project: Impact of Community Coordinated Response for the Prevention of Intimate Partner Violence: A Random Digital Dial Survey—NEW—National Center for Injury Prevention and Control (NCIPC), Centers for Disease Control and Prevention (CDC).

A random digit dial survey will be conducted with 12,000 male and female adults in the communities of ten experimental sites and ten control sites (600 per site). The survey will determine whether adding resources to a community to develop a coordinated community response to intimate partner violence (IPV), leads to increased knowledge about IPV such as where to go for help and how to assist a victim, child witness and/or perpetrator of IPV. A base survey instrument will be administered along with an addendum from the sites that wish to address other

research needs in their experiment and control communities.

While previous surveys such as the National Violence Against Women Survey (1996) have collected information on intimate partner violence, no previous survey has explored the effects of a coordinated community response, enhanced services, and public awareness campaigns between experimental and control sites.

Interviews will be conducted with persons at residential phone numbers selected using random digit dialing. No more than one respondent per household will be selected, and each sample member will complete just one interview. Non-residential numbers are ineligible for the sample and will not be interviewed. Female interviewers will be used and bi-lingual Spanish interviewers will conduct interviews in Spanish to reduce language barriers to participation. The estimated annualized burden is 3813 hours.

Respondents	Number of respondents	Number of responses/respondent	Avg. burden/response (in hours)
Pretest	50	1	15/60
Contacted but not eligible or refused	15,000	1	2/60
Core questionnaire (7 sites and comparison communities)*	8,400	1	15/60
Core questionnaire plus addendums*	3,600	1	20/60

Dated: November 6, 2002.

Nancy E. Cheal,

Acting Associate Director for Policy, Planning and Evaluation, Centers for Disease Control and Prevention.
