E.ON AG (70-10090)

E.ON AG ("E.ON"), located at E.ON-Platz 1, 40479 Dusseldorf, Germany, a registered holding company, has submitted an application under sections 9(c)(3) and 33 of the Act seeking an extension of the deadline set by prior Commission order to divest part of its interest in an affiliated company, Hypo-Vereinsbank AG ("HVB"), a large private bank in Germany with assets of approximately (euro)712 billion.

By applications filed in SEC File Nos. 70-9961 and 70-9985, E.ON sought authorization to acquire Powergen plc ("Powergen"), a registered holding company, and other authorizations under the Public Utility Holding Company Act of 1935 (the "Act") related to E.ON's activities as a registered holding company after the Powergen acquisition. The Commission authorized the proposed acquisition by

order dated June 14, 2002, Holding Co. Act Release No. 27539 ("Acquisition Order"). E.ON completed the acquisition of Powergen and registered as a holding company on July 1, 2002.

One of the conditions imposed in the Acquisition Order related to the ability of E.ON and its subsidiaries to invest in the equity securities of companies held for investment purposes ("Portfolio Securities") as reserves against two types of long-term liabilities: their pension obligations, and, for E.ON Energie only, its nuclear decommissioning obligations. These investments, which currently total approximately (euro)9 billion (\$7.9 billion), include publicly traded common stocks of other companies.

The Acquisition Order authorized E.ON to continue to make these investments under section 9(c)(3) of the Act in the ordinary course of business provided that it complied with certain conditions. The Acquisition Order stipulated that equity investments for the purposes of funding future employee benefit and nuclear decommissioning obligations could be made only if, at the time of investment, the actuarial value of the prospective obligations exceeds the aggregate amount of the investments that will be held by E.ON immediately after the investment has been made. Further, E.ON was restricted from creating an affiliate relationship with any company within the terms of Section 2(a)(11) of the Act by acquiring 5% or more of the voting securities of any issuer. The Acquisition Order restated the commitment made by E.ON that during the year 2002, E.ON would reduce any stakes that it has that exceed 5% of a single company to below 5%.

E.ON's Portfolio Securities include only one stake in the voting securities of a company that exceeds 5%. This is E.ON's 6.72% voting equity interest in HVB. The application states that although E.ON continues to desire to reduce its voting equity interest in HVB to the level where it would not constitute an affiliate interest, recent declines in the market price of HVB shares have made share sales financially prohibitive at this time. Consequently, E.ON seeks an extension of the divestiture deadline until December 31, 2004. E.ON anticipates that the extension of the divestiture deadline would allow time for at least a partial recovery in the market price of its HVB shares.

For the Commission by the Division of Investment Management, pursuant to delegated authority.

Margaret H. McFarland,*Deputy Secretary.*
