SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1955, an agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Therefore, the FAA solicits comments on the following current collections of information in order to evaluate the necessity of the collection, the accuracy of the agency’s estimate of the burden, the quality, utility, and clarity of the information to be collected, and possible ways to minimize the burden of the collection in preparation for submission to renew the clearance of the following information collection.

1. 2120–0010, Repair Station Certification. Information is collected from applicants who wish to gain repair station certification. Applicants submit form 8310–3 to the appropriate FAA district office for review. If the application is satisfactory, an onsite inspection is conducted. When all the requirements have been met, an air agency certificate and repair station operation specifications with appropriate ratings and limitations are issued. The current estimated annual reporting burden is 304,647 hours.

Issued in Washington, DC, on November 6, 2002.

Judith D. Street,
FAA Information Collection Clearance Officer, APF

BILLING CODE 4910–13–M

DEPARTMENT OF TRANSPORTATION
Federal Aviation Administration

Approval of Noise Compatibility Program, San Antonio International Airport, San Antonio, TX

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice.

SUMMARY: The Federal Aviation Administration (FAA) announces its findings on the noise compatibility program submitted by the City of San Antonio, Texas, under the provisions of Title 49, U.S.C., Chapter 475 and CFR part 150. These findings are made in accordance with the noise compatibility program as described in Title 49. The FAA began its review of the program on April 3, 2002, and was required by a provision of the Act to approve or disapprove the program within 180 days (other than the use of new flight procedures for noise control). Failure to approve or disapprove such a program within the 180–day period shall be deemed to be an approval of such program.

the noise compatibility program. Some of the recommendations of the program were approved.

DATES: The effective date of the FAA’s approval of the San Antonio International Airport, San Antonio, Texas, noise compatibility program is September 30, 2002.

FOR FURTHER INFORMATION CONTACT: Nan L. Terry, Department of Transportation, Federal Aviation Administration, 2601 Meacham Boulevard, Fort Worth, Texas, 76137, (817) 222–5607. Documents reflecting this FAA action may be reviewed at this same location.

SUPPLEMENTARY INFORMATION: This notice announces that the FAA has given its overall approval to the noise compatibility program for the San Antonio International Airport, San Antonio, Texas, effective September 30, 2002.

Under Title 49 U.S.C. Section 47504 (hereinafter referred to as “Title 49”), an airport operator who has previously submitted a noise exposure map may submit to the FAA a noise compatibility program which sets forth the measures taken or proposed by the airport operator for the reduction of existing noncompatible land uses within the area covered by the noise exposure maps. Title 49 requires such programs to be developed in consultation with interested and affected parties including local communities, government agencies, airport users, and FAA personnel.

Each airport noise compatibility program developed in accordance with Federal Aviation Regulation (FAR) Part 150 is a local program, not a Federal Program. The FAA does not substitute its judgment for that of the airport proprietor with respect to which measures should be recommended for action. The FAA’s approval or disapproval of FAR Part 150 program recommendations is measured according to the standards expressed in Part 150 and Title 49 and is limited to the following determinations:

a. The noise compatibility program was developed in accordance with the provision and procedures of FAR Part 150;

b. Program measures are reasonably consistent with achieving the goals of reducing existing noncompatible land uses around the airport and preventing the introduction of additional noncompatible land uses;

c. Program measures would not create an undue burden on interstate or foreign commerce, unjustly discriminate against types or classes of aeronautical uses, violate the terms of airport grant agreements, or intrude into areas preempted by the Federal Government; and

d. Program measures relating to the use of flight procedures can be implemented within the period covered by the program without derogating safety, adversely affecting the efficient use and management of the navigable airspace and air traffic control systems, or adversely affecting other powers and responsibilities of the Administrator prescribed by law.

Specific limitations with respect to FAA’s approval of an airport noise compatibility program are delineated in FAR Part 150; section 150.5 Approval is not a determination concerning the acceptability of land uses under Federal, state, or local law. Approval does not by itself constitute an FAA implementing action. A request for Federal action or approval to implement specific noise compatibility measures may be required, and a FAA decision on the request may require an environmental assessment of the proposed action. Approval does not constitute a commitment by the FAA to financially assist in the implementation of the program nor a determination that all measures covered by the program are eligible for grant-in-aid funding from the FAA. Where Federal funding is sought, request for project grants must be submitted to the FAA Airports Division Office in Fort Worth, Texas.

The City of San Antonio submitted to the FAA on January 16, 2002, the noise exposure maps, descriptions, and other documentation produced during the noise compatibility planning study conducted from 1998 to 2002. The San Antonio International Airport’s noise exposure maps were determined by FAA to be in compliance with applicable requirements on January 16, 2002. Notice of this determination was published in the Federal Register on January 25, 2002.

The San Antonio International Airport study contains a proposed noise compatibility program comprised of actions designed for phased implementation by airport management and adjacent jurisdictions from the date of study completion beyond the year 2005. It was requested that the FAA evaluate and approve this material as a noise compatibility program as described in Title 49. The FAA began its review of the program on April 3, 2002, and was required by a provision of the Act to approve or disapprove the program within 180 days (other than the use of new flight procedures for noise control). Failure to approve or disapprove such a program within the 180–day period shall be deemed to be an approval of such program.

Federal Aviation Administration

[Summary Notice No. PE–2002–63]

Petitions for Exemption; Summary of Petitions Received

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of petitions for exemption received.

SUMMARY: Pursuant to FAA’s rulemaking provisions governing the application, processing, and disposition of petitions for exemption, part 11 of Title 14, Code of Federal Regulations (14 CFR), this notice contains a summary of certain petitions seeking relief from specified requirements of 14 CFR. The purpose of this notice is to improve the public’s awareness of, and participation in, this aspect of FAA’s regulatory activities. Neither publication of this notice nor the inclusion or omission of information in the summary is intended to affect the legal status of any petition or its final disposition.

DATES: Comments on petitions received must identify the petition docket number involved and must be received on or before December 10, 2002.

ADDRESSES: Send comments on any petition to the Docket Management System, U.S. Department of Transportation, Room Plaza 401, 400 Seventh Street, SW., Washington, DC 20590–0001. You must identify the docket number FAA–2002–XXXX at the beginning of your comments, include a self-addressed, stamped postcard. You may also submit comments through the Internet to http://dms.dot.gov. You may review the public docket containing the petition, any comments received, and any final disposition in person in the Dockets Office between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The Dockets Office (telephone 1–800–647–5527) is on the plaza level of the NASSIF Building at the Department of Transportation at the above address. Also, you may review public dockets on the Internet at http://dms.dot.gov.

SUPPLEMENTARY INFORMATION: Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463, 5 U.S.C., Appendix 2), notice is hereby given for a Special Committee 193/EUROCAE Working Group 44 meeting. The agenda will include:

– December 9:
  • Opening Plenary Session (Welcome and Introductory Remarks, Review/Approval of Meeting Agenda, Review Summary of Previous Meeting)
  • Presentations/Discussions
  • Subgroup 4 (Database Exchange Format)
  • Resolution of Action Items
  • Feature catalogue review:
    —Aerodrome database
    —Terrain database
    —Obstacle database
  • December 10:
    • Subgroup 4 (Continue previous day activities)
  • December 11:
    • Subgroup 4 (Continue previous day activities)
  • Metadata Review
  • December 12:
    • Subgroup 4 (Continue previous day activities)
  • Quality specific requirements
  • December 13:
    • Subgroup 4 (Continue previous day activities)

OUTRIGHT approval was granted for 7 of the specific program elements. Many of the air traffic and airport development measures are recommended for disapproval due to their potential impact on capacity or efficiency, potential increase in noise over noncompatible land uses, airspace conflicts or inconsistency with FAA policy regarding the application of FAA permits Mitsubishi Model YS–11 airplanes to operate without permission. Petitions Received

Petitioner: Fokker Services B.V.

Section of 14 CFR Affected: SFAR 88

Description of Relief Sought: To permit Fokker Services Model F27 Mk05011 airplanes to operate without meeting the requirements of SFAR–88.

Docket No.: FAA–2002–13488

Petitioner: Mitsubishi Heavy Industries, Ltd.

Section of 14 CFR Affected: SFAR 88

Description of Relief Sought: To permit Mitsubishi Model YS–11 airplanes to operate without meeting the requirements of SFAR–88.
