

rule will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because it only affects a limited number of products from a few Caribbean Basin countries. The Berry Amendment (formerly at 10 U.S.C. 2241, note, but recently codified at 10 U.S.C. 2533a) still prohibits the Department of Defense from buying most of the textile and apparel articles receiving duty-free treatment under this Act.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the changes to the FAR do not impose information collection requirements that require the approval of the Office of Management and Budget under 44 U.S.C. 3501, *et seq.*

Federal Acquisition Regulation; Financing Policies

AGENCIES: Department of Defense (DoD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Final rule.

SUMMARY: The Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) have agreed on a final rule amending the Federal Acquisition Regulation (FAR) to permit the use of performance-based payments type of financing on fixed-price contracts prior to definitization, and to revise the criteria governing when a prime contractor can bill the Government for costs incurred, but not yet paid, for supplies and services purchased directly for the contract and for associated subcontractor financing payment requests.

DATES: Effective Date: December 23, 2002.

SUPPLEMENTARY INFORMATION:

A. Background

DoD, GSA, and NASA published a proposed rule in the **Federal Register** at 65 FR 56454, September 18, 2000. The proposed rule—

- Revised the requirement at FAR 32.1003(b) to permit performance-based payments type of financing on fixed-price contracts prior to definitization;

- Completely removed the “paid cost rule” restriction from the payment clauses at FAR 52.216–26, Payments of Allowable Costs Before Definitization, and FAR 52.232–7, Payments under Time-and-Materials and Labor-Hour Contracts. The “paid cost rule” is the requirement that a large business must actually pay (not just incur) costs for

supplies and services purchased directly for the contract and financing payments to subcontractors before including the payments in its billings to the Government. A final rule under FAR case 1998–400 was published in the **Federal Register** at 65 FR 16274, March 27, 2000. The intent of that final rule was to remove this restriction from all the payment clauses if contractors met certain conditions. Inadvertently, this restriction was not removed in its entirety from FAR 52.216–26(d)(2) and FAR 52.232–7(b)(3). The proposed rule published under this FAR case 2000–007 corrected this oversight and the rule—

- Established, for both cost-reimbursement and fixed-price contracts, a standard time period of 30 days that contractors have to pay their subcontractors after the contractors have billed the Government for incurred subcontractor costs. As indicated in the previous paragraph, the final rule under FAR case 1998–400 amended the FAR to permit a large business to include, in its billings, certain costs that it had incurred but not actually paid, if the following conditions were met: The unpaid amounts were paid (1) in accordance with the terms and conditions of a subcontract or invoice; and (2) ordinarily prior to the submission of the contractor’s next payment request to the Government. The second condition permitted a large business to submit cost vouchers on a cost-reimbursement contract every 14 days, but the large business could bill no more frequently than every 30 days when billing progress payments on a fixed-price contract. Therefore, contractors may need to maintain several systems and procedures to accommodate the timing differences for payments to subcontractors, depending on whether the costs are billed on a cost-reimbursement or fixed-price type prime contract. To eliminate the timing differences, the proposed FAR rule revised the second condition to establish a single standard time period of 30 days; and

- Made several editorial changes.

Four respondents submitted public comments to the proposed rule. The Councils considered all comments when developing the final rule which differs from the proposed rule with regard to when a contractor can bill the Government for supplies and services purchased directly for the contract and associated financing payment requests received from their subcontractors that have not yet been paid for by the prime contractors. As amended by this final rule, the contractor can bill the Government when contractor payment

for the amount determined due the supplier or subcontractor is scheduled to be made within 30 days of the submission of the contractor's current payment request to the Government. The Councils believe that a 30-day float period for the prime contractor represents a reasonable time period and do not believe it would be in the best interests of the Government or subcontractors to effectively encourage float periods in excess of 30 days.

This is not a significant regulatory action and, therefore, was not subject to review under Section 6(b) of Executive Order 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

B. Regulatory Flexibility Act

The Department of Defense, the General Services Administration, and the National Aeronautics and Space Administration certify that this final rule will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.* Most contracts awarded to small entities have a dollar value less than the simplified acquisition threshold and, therefore, do not have the progress payment or performance-based payment type of financing. In addition, the "paid cost rule" restriction does not apply to small entities.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the changes to the FAR do not impose information collection requirements that require the approval of the Office of Management and Budget under 44 U.S.C. 3501, *et seq.*

Item I—General Records Schedule (FAR Case 2002-016)

This final rule amends the FAR to reflect the previous language of FAR 4.705-2 exactly as it was written prior to revision of this subsection by FAC 97-18, Item IV, General Records Schedule (FAR case 1999-615) published in the **Federal Register** on

June 6, 2000 (65 FR 36012). It was brought to the attention of the Councils that the prior change to FAR 4.705-2 made in FAC 97-18 inadvertently resulted in longer record retention periods for contractors and subcontractors. This final rule—

- Revises the subsection title of FAR 4.705-2 to read “Pay administration

records” instead of “Construction contract pay administration records,” thus, making all record retention requirements in the entire subsection applicable to all contracts rather than limiting it to construction contracts;

- Revises FAR 4.705-2(a) to change from a record retention period of 3 years after completion of contract unless
