

accordance with regulations, one or more Senior Executive Service performance review boards. The boards shall review and evaluate the initial appraisal of senior executives' performance by supervisors and make recommendations to the appointing authority or rating official relative to the performance of these executives.

(a) The members of the Performance Review Board for the U.S. Army Research Laboratory are:

1. Dr. N. Radhakrishnan, Director, Computational and Information Sciences Directorate, U.S. Army Research Laboratory.
2. Ms. Barbara Leiby, Deputy Chief of Staff for Resource Management, Headquarters, U.S. Army Materiel Command.
3. Dr. Thomas H. Killion, Director, Personnel Technologies Directorate, Office of the Deputy Chief of Staff, G-1, Headquarters Department of the Army.

(b) Alternate members for the U.S. Army Research Laboratory are:

1. Ms. Kathy A. Kurke, Chief Counsel, NASA-Langley Research Center.
2. Mr. Richard E. McClelland, Director, Tank-Automotive Research, Development and Engineering Center.
3. Dr. C.I. Change, Director, Army Research Office and Deputy Director for Basic Science, U.S. Army Research Laboratory.

(c) The members of the Performance Review Board for the U.S. Army Corps of Engineers are:

1. Major General Hans Van Winkle, Deputy Chief of Engineers/Deputy Commanding General.
2. Major General Robert Griffin, Director of Civil Works.
3. Brigadier General Steven Hawkins, Commanding General, U.S. Army Engineer Division, Great Lakes and Ohio River.
4. Brigadier General David Fastabend, Commanding General U.S. Army Engineer Division, Northwestern.
5. Dr. Michael O'Connor, Director of Research and Development, Headquarters.
6. Mr. William Brown, Principal Assistance for Military Program, Headquarters.
7. Ms. Linda Garvin, Director of Real Estate, Headquarters.
8. Mr. Steve Browning, Military and Technical Director, South Pacific Division.
9. Mr. Donald Basham, Civil Works and Management Director, Mississippi Valley Division.

**Luz D. Ortiz,**

## DEPARTMENT OF DEFENSE

### Department of the Army; Corps of Engineers

#### Intent To Prepare a Draft Supplemental Environmental Impact Statement for the Indian River Lagoon-North Feasibility Study Located in Portions of Volusia, Brevard, Indian River, St. Lucie, and Okeechobee Counties, FL

**AGENCY:** Department of the Army, Army Corps of Engineers, DOD.

**ACTION:** Notice of intent.

**SUMMARY:** The U.S. Army Corps of Engineers (Corps), Jacksonville District, intends to prepare a Draft Supplemental Environmental Impact Statement (DSEIS) for the Indian River Lagoon-North Feasibility Study. Encompassing the lagoon's northern watershed, the study area begins in Volusia County near the Ponce de Leon Inlet, extends southward through Brevard and Indian River counties, and ends near the Fort Pierce Inlet in St. Lucie County and northeast Okeechobee County, Florida. The objective of this study is to perform a comprehensive review of restoration alternatives for the lagoon.

**FOR FURTHER INFORMATION CONTACT:** Mr. Paul E. Stodola, U.S. Army Corps of Engineers, Planning Division, Environmental Branch, P.O. Box 4970, Jacksonville, FL, 32232-0019, by email [Paul.E.Stodola@saj02.usace.army.mil](mailto:Paul.E.Stodola@saj02.usace.army.mil) or by telephone at 904-232-3271.

#### **SUPPLEMENTARY INFORMATION:**

*a. Proposed Action.* The proposed Draft Supplemental Environmental Impact Statement (DSEIS) for the Indian River Lagoon-North Feasibility Study would supplement the Central and South Florida Programmatic Environmental Impact Statement completed in July 1999. A DSEIS for the Indian River Lagoon-South Feasibility Study, completed in October 2001, identified and assessed restoration alternatives for the lagoon's southern watershed. Authority and funds for the proposed action are provided by Section 528 of the Water Resources and Development Act of 1996 (Pub. L. 104-303). A reconnaissance report has been completed and resulted in a recommendation to continue the study into the feasibility phase.

The Indian River Lagoon-North estuarine ecosystem consists of three major water bodies: The Indian River, the Banana River, and the Mosquito Lagoon. This estuary is comprised of shallow interconnected linear lagoons interspersed with various types of habitats including seagrass, mangroves, and salt marsh. Tropical climatic

influences converging with these habitat types have resulted in a unique and diverse assemblage of fauna and flora that occur nowhere else. Development and pollution have significantly degraded the water quality and reduced the biological productivity of the lagoon. The objective of this study is to identify and assess alternatives that would restore the lagoon's water quality and ecological conditions.

*b. Alternatives.* Specific proposed restoration alternatives include the following:

1. Goal I: Improve Ecological Values; Reduce excessive freshwater inflows and pollutant loadings to the Indian River Lagoon; Improve water quality in the Lagoon; Improve habitat for Lagoon biota, with emphasis on seagrass; Increase spatial extent and functional quality of submerged aquatic vegetation and watershed wetlands; Increase functional quality of native upland habitat; Maintain or improve diversity and abundance of native plant and animal species, including Federal, state, and local listed species.

2. Goal II: Improve Economic Values and Social Well Being; Maintain or improve water supply; Maintain or improve flood protection; Improve opportunities for tourism, recreation, and environmental education; Improve commercial and recreational fisheries and associated industries.

3. A No-Action Alternative is also being considered.

*c. Scoping Process.* The scoping process as outlined by the Council on Environmental Quality would be utilized to involve Federal, State, and local agencies, affected Indian tribes, and other interested persons and organizations. A scoping letter would be sent to the appropriate parties requesting comments and concerns regarding issues to consider during the study.

Significant issues to be analyzed in the DSEIS would include effects on Federally listed threatened and endangered species, Essential Fish Habitat, health and safety, water quality, aesthetics and recreation, fish and wildlife resources, cultural resources, socioeconomic resources, and other issues identified through scoping and public involvement.

The proposed action would be coordinated with the U.S. Fish and Wildlife Service and the National Marine Fisheries Service (NMFS) pursuant to Section 7 of the Endangered Species Act, with the NMFS concerning Essential Fish Habitat, and with the State Historic Preservation Officer.

The proposed action would also involve evaluation for compliance with

guidelines pursuant to Section 404(b) of the Clean Water Act; application (to the State of Florida) for Water Quality Certification pursuant to Section 401 of the Clean Water Act; certification of state lands, easements, and rights of way; and determination of Coastal Zone Management Act consistency.

The Corps and the non-Federal sponsor, St. Johns River Water Management District, would provide extensive information and assistance on the resources to be impacted and alternatives.

*d. Scoping Meetings.* Public scoping meetings would be held. Exact dates, times, and locations would be published in local papers.

*e. DSEIS Availability.* The DSEIS would be available on or about May 2006.

Dated: November 12, 2002.

**James C. Duck,**

*Chief, Planning Division.*

## DEPARTMENT OF ENERGY

[DE-PS03-03SF22698]

### Solicitation for Proposals: Nuclear Explosion Monitoring Research and Engineering

**AGENCY:** National Nuclear Security Administration (NNSA), Department of Energy (DOE) and Air Force Research Laboratory (AFRL).

**ACTION:** Notice of intent to release solicitation for financial assistance and acquisition proposals.

**SUMMARY:** The DOE/NNSA and AFRL, through the NNSA Oakland Operations Office, intends to seek proposals to advance the state-of-the-art in nuclear explosion monitoring in the field of seismic methods. This will be achieved through basic and applied research that enhances understanding of the underlying phenomena, proposes new methods of tackling monitoring problems, or develops new data for use in nuclear explosion monitoring. It is anticipated this solicitation will be released on or about November 30, 2002.

**ADDRESSES:** The formal solicitation document, Joint Solicitation for Proposals: Nuclear Explosion Monitoring Research and Engineering (DE-PS03-03SF22698), will be available through the Industry Interactive Procurement System (IIPS) located at the following URL: [\[center.doe.gov\]\(http://e-center.doe.gov\), \(reference Notice of Intent for Nuclear Explosion Monitoring, published November 5, 2002\). IIPS provides the medium for disseminating solicitations, receiving proposals and evaluating proposals in a paperless environment. Proposals are required to be submitted via IIPS. Individuals who have the authority to enter into a financial assistance agreement or contract on behalf of their institution and intend to submit a proposal via the IIPS system must register with IIPS and receive confirmation that they are registered prior to being able to submit a proposal. An IIPS "User Guide for Contractor" can be obtained by going to the IIPS Homepage at the following URL: <http://e-center.doe.gov> and then clicking on the "Help" button. Questions regarding the operation of IIPS may be e-mailed to the IIPS Help Desk at \[IIPSHelpDesk@e-center.doe.gov\]\(mailto:IIPSHelpDesk@e-center.doe.gov\) or call the help desk at \(800\) 683-0751.](http://e-</a></p>
</div>
<div data-bbox=)

**FOR FURTHER INFORMATION CONTACT:** Gloria Abdullah-Lewis, Contract Specialist, U.S. Department of Energy, National Nuclear Security Administration, 1301 Clay Street (Room 700N), Oakland, CA 94612-5208; email [gloria.abdullah-lewis@oak.doe.gov](mailto:gloria.abdullah-lewis@oak.doe.gov).

**SUPPLEMENTARY INFORMATION:** Research products under this solicitation shall support Air Force requirements in improving the nation's capabilities to monitor nuclear explosion monitoring. Information about the NNSA Nuclear Explosion Monitoring Research & Engineering Program integration of research products into operational form for the Air Force can be found online at <http://www.nemre.nn.doe.gov> under Knowledge Base. The solicitation document will contain all the information related to this action for prospective proposers. The North American Industry Classification System (NAICS) number for this program is 541710.

Issued in Oakland, CA on November 18, 2002.

**Ernest Rios,**

*Division Director, Financial Assistance Center, Oakland Operations Office.*

## DEPARTMENT OF ENERGY

### Environmental Management Site-Specific Advisory Board, Oak Ridge Reservation; Notice of Open Meeting

**AGENCY:** Department of Energy.

**ACTION:** Notice of open meeting.

**SUMMARY:** This notice announces a meeting of the Environmental Management Site-Specific Advisory Board (EM SSAB), Oak Ridge. The Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770) requires that public notice of these meeting be announced in the **Federal Register**.

**DATES:** Wednesday, December 11, 2002 6 p.m.-9:30 p.m.

**ADDRESSES:** DOE Information Center, 475 Oak Ridge Turnpike, Oak Ridge, TN.

**FOR FURTHER INFORMATION CONTACT:** Pat Halsey, Federal Coordinator, Department of Energy Oak Ridge Operations Office, P.O. Box 2001, EM-90, Oak Ridge, TN 37831. Phone (865) 576-4025; Fax (865) 576-5333 or e-mail: [halseypj@oro.doe.gov](mailto:halseypj@oro.doe.gov).

**SUPPLEMENTARY INFORMATION:** *Purpose of the Board:* The purpose of the Board is to make recommendations to DOE and its regulators in the areas of environmental restoration, waste management, and related activities.

*Tentative Agenda:*

- The meeting presentation will focus on the DOE Comprehensive Waste Disposition Plan, which provides the scope, waste generation forecast, plans for disposal, and issues associated with disposition of Environmental Management Program wastes.

*Public Participation:* The meeting is open to the public. Written statements may be filed with the Committee either before or after the meeting. Individuals who wish to make oral statements pertaining to agenda items should contact Pat Halsey at the address or telephone number listed above. Requests must be received five days prior to the meeting and reasonable provision will be made to include the presentation in the agenda. The Deputy Designated Federal Officer is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business. Each individual wishing to make public comment will be provided a maximum of five minutes to present their comments.

*Minutes:* Minutes of this meeting will be available for public review and copying at the Department of Energy's Information Center at 475 Oak Ridge Turnpike, Oak Ridge, TN between 8 a.m. and 5 p.m. Monday through Friday, or by writing to Pat Halsey, Department of Energy Oak Ridge Operations Office, P.O. Box 2001, EM-90, Oak Ridge, TN 37831, or by calling her at (865) 576-4025.
