

with the discontinuation of the GATE test, Customs has determined not to proceed with establishing the program in the regulations.

Regarding the proposed revisions to the Overflight Program, Customs has carefully considered the comments received and further reviewed the matter. Taking into consideration the enhanced security concerns following the events of September 11, 2001, Customs has concluded that the proposed amendments concerning the Overflight Program must be further revised concerning advance notice of arrival issues. Customs anticipates issuing a new proposal in the near future regarding changes to the Overflight Program. In accordance with the above discussion, Customs is withdrawing the proposal it published August 3, 2001.

Robert C. Bonner,
Commissioner of Customs.

Approved: November 25, 2002.

Timothy E. Skud,
Deputy Assistant Secretary of the Treasury.

BILLING CODE 4820-02-P

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 117

[CGD01-01-095]

RIN 2115-AE47

Drawbridge Operation Regulations; Shrewsbury River, NJ

AGENCY: Coast Guard, DOT.

ACTION: Notice of withdrawal of proposed rule.

SUMMARY: The Coast Guard is withdrawing the notice of proposed rulemaking governing the operation of the Monmouth County highway bridge, at mile 4.0, across the Shrewsbury River at Sea Bright, New Jersey. The bridge repair project for the Monmouth County highway bridge was cancelled. This action withdraws the notice of proposed rulemaking and closes the docket.

ADDRESSES: Documents indicated in this preamble are available for inspection or copying at the First Coast Guard District, Bridge Administration Office, 408 Atlantic Avenue, Boston, Massachusetts, 02110-3350, between 7 a.m. and 3 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Mr. Joseph Arca, Project Officer, First Coast Guard District, (212) 668-7165.

SUPPLEMENTARY INFORMATION: On July 12, 2001, the Coast Guard published a notice of proposed rulemaking (NPRM) in the **Federal Register** (66 FR 36527) entitled Drawbridge Operation Regulations, Shrewsbury River, New Jersey. That NPRM, Coast Guard docket (CGD01-01-095), requested public comment regarding the proposal to temporarily change the drawbridge operation regulations that govern the Monmouth County highway. The purpose of the rulemaking was to facilitate bridge maintenance repairs scheduled to be performed during the winter of 2001-2002. No comments were received in response to the NPRM.

The repair project and proposed temporary operating schedule were subsequently cancelled for 2001-2002, due to unresolved contractual issues between the bridge owner and the contractor.

The bridge owner submitted a new request to the Coast Guard to temporarily change the drawbridge operation regulations for the Monmouth County highway bridge in order to facilitate the bridge maintenance previously scheduled for the winter of 2001-2002.

The Coast Guard published a temporary final rule under a new Coast Guard docket number (CGD01-02-122) on November 6, 2002, (67 FR 67549) entitled Drawbridge Operation Regulations Shrewsbury River, New Jersey, to facilitate the bridge repair work scheduled to be performed during the winter of 2002-2003.

The notice of proposed rulemaking (CGD01-01-095) published on July 12, 2001, is no longer necessary. The notice of proposed rulemaking is withdrawn and the docket is closed.

Dated: November 15, 2002.

V.S. Crea,
Rear Admiral, U.S. Coast Guard, Commander, First Coast Guard District.

RIN 2115-AE84

Regulated Navigation Area; Olympic View EPA Superfund Cleanup Site, Commencement Bay, Tacoma, WA

AGENCY: Coast Guard, DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard proposes to create a permanent regulated navigation area on a portion of Commencement Bay, Tacoma, Washington. This regulated navigation area would be used to preserve the integrity of a clean sediment cap placed over the seabed as part of the remediation process at the Olympic View Environmental Protection Agency (EPA) superfund cleanup site. This regulated navigation area would prohibit activities that would disturb the seabed, such as anchoring, dredging, spudding, laying cable or other disturbance of the bottom. It would not affect transit or navigation of the area.

DATES: Comments must reach the Coast Guard on or before January 31, 2003.

ADDRESSES: You may mail comments to U.S. Coast Guard Marine Safety Office Puget Sound, 1519 Alaskan Way South, Building 1, Seattle, Washington 98134, or deliver them to room 523 at the same address between 8 a.m. and 4 p.m., Monday through Friday, except Federal holidays. The telephone number is (206) 217-6232. Comments and documents as indicated in this preamble will become part of this docket and will be available for inspection or copying at the above address and times.

FOR FURTHER INFORMATION CONTACT: MST2 C.R. Petersen, c/o Captain of the Port Puget Sound, 1519 Alaskan Way South, Seattle, Washington 98134, at (206) 217-6232.

SUPPLEMENTARY INFORMATION:

Request for Comments

The Coast Guard encourages interested persons to participate in this rulemaking by submitting written data, views, or arguments. Persons submitting comments should include their names, addresses, identify this rulemaking (CGD13-02-016) and the specific section of this proposal to which each comment applies, and give the reason for each comment. Please submit two copies of all comments and attachments in an unbound format, no larger than 8½ by 11 inches, suitable for copying and electronic filing. Persons wanting acknowledgement of receipt of comments should enclose stamped, self-addressed postcards or envelopes.

The Coast Guard will consider all comments received during the comment period. It may change this proposal in view of the comments.

The Coast Guard plans no public hearing. Persons may request a public hearing by writing to the Marine Safety Council at the address under

ADDRESSES. The request should include the reasons why a hearing would be beneficial. If it is determined that the

opportunity for oral presentations will aid this rulemaking, the Coast Guard will hold a public hearing at a time and place to be announced by a later notice in the **Federal Register**.

Background and Purpose

The Olympic View Superfund Site is located between the eastern boundary of the Thea Foss Waterway and the western boundary of the Middle Waterway of Commencement Bay, Washington. The site includes property owned and or leased by the now closed Puget Sound Plywood Company, contaminated sediments in Commencement Bay, and other upland sources of contamination. The site is approximately 12.4 acres in size and includes 10.6 acres of intertidal and shallow subtidal marine aquatic land. An area of 2.2 acres of marine sediments is contaminated within the site.

Part of the remediation process for this site consists of covering the contaminated sediments with a layer of clean medium to coarse grained sand approximately one-meter (3-feet) thick. This cap is used to isolate contaminants and limit their vertical migration and release into the water column. The cap will also limit the potential for marine organisms to reach the contaminated sediment.

Discussion of Proposed Rules

This is to be a permanent regulation restricting activities such as anchoring, salvage or dredging, which would disturb the sediment cap covering the contaminated seabed. The regulation would not affect normal transit or navigation of the area. The Olympic View Restoration Area is located offshore of the peninsula between the Thea Foss and Middle Waterways in Commencement Bay, Tacoma, Washington. The sediment cap includes approximately 480 feet of shoreline extending approximately 420 feet into the bay. This area is relatively unprotected and is rarely utilized as an anchorage.

Regulatory Evaluation

This proposed rule is not a significant regulatory action under section 3(f) of Executive Order 12866 and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not significant under the regulatory policies and procedures of the Department of Transportation (DOT) (44 FR 11040, February 26, 1979). We expect the economic impact of this proposed rule to be so minimal that a full Regulatory Evaluation under

paragraph 10(e) of the regulatory policies and procedures of DOT is unnecessary. This expectation is based on the fact that the regulated area established by the rule would encompass a small area that should not impact commercial or recreational traffic. The Olympic View Resource Area does not appear to have any viable industrial or commercial use. Moreover, and any land or water use on the site that would be at odds with the regulated navigation area (RNA) would likely be restricted through the site's designation by the City of Tacoma as a Natural Resource Damage Assessment (NRDA) settlement site, pursuant to a Consent Decree between the City of Tacoma and the Natural Resource Trustees. Furthermore, on May 24, 2000, the State Commissioner of Public Lands established the project area as part of an environmental reserve under RCW 79.68.060. This designation removes the site from potential development or commercial leasing. For the above reasons, the Coast Guard does not anticipate any significant economic impact.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we considered whether this rule would have a significant economic impact on a substantial number of small entities. “Small entities” include small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. This rule would affect the following entities, some of which may be small entities: the owners or operators of vessels intending to anchor, dredge, spud, lay cable or disturb the seabed in any fashion when this rule is in effect. The zone would not have a significant economic impact due to its small area. Because the impacts of this proposal are expected to be so minimal, the Coast Guard certifies under 605(b) of the Regulatory Flexibility Act (5 U.S.C. 601–612) that this final rule would not have a significant economic impact on a substantial number of small entities.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Public Law 104–121), we want to assist small entities in understanding this proposed rule so that they can better evaluate its effects on them and participate in the rulemaking. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed in the (**FOR FURTHER INFORMATION CONTACT**) section.

Collection of Information

This proposed rule would call for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

Federalism

We have analyzed this proposed rule under Executive Order 13132 and have determined that this rule does not have implications for federalism under that Order.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) governs the issuance of Federal regulations that require unfunded mandates. An unfunded mandate is a regulation that requires a State, local, or tribal government or the private sector to incur direct costs without the Federal Government's having first provided the funds to pay those costs. This proposed rule would not impose an unfunded mandate.

Taking of Private Property

This proposed rule would not effect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not concern an environmental risk to health or risk to

safety that may disproportionately affect children.

Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action" under that Order because it is not a "significant regulatory action" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. It has not been designated by the Administrator of the Office of Information and Regulatory Affairs as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Environment

We considered the environmental impact of this proposed rule and concluded that, under figure 2-1, paragraph (34)(g) of Commandant Instruction M16475.ID, this proposed rule is categorically excluded from further environmental documentation. A Categorical Exclusion Determination is available in the docket for inspection and copying where indicated under ADDRESSES.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

Proposed Regulation

For the reasons set out in the preamble, the Coast Guard proposes to amend 33 CFR part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1231; 50 U.S.C. 191; 33 CFR 1.05-1(g), 6.04-1, 6.04-6 and 160.5; 49 CFR 1.46.

2. Add § 165.1311 to read as follows:

§ 165.1311 Olympic View Resource Area, Tacoma, WA.

(a) *Regulated area.* The following area is a regulated navigation area: that portion of Commencement Bay bounded by a line beginning at: 47°15'40.19753" N, 122°26'09.27617" W; thence to 47°15'42.21070" N, 122°26'10.65290" W; thence to 47°15'41.84696" N, 122°26'11.80062" W; thence to 47°15'45.57725" N, 122°26'14.35173" W; thence to 47°15'53.06020" N, 122°26'06.61366" W; thence to 47°15'46.74493" N, 122°26'09.27617" W; thence returning along the shoreline to the point of origin. [Datum NAD 1983].

(b) *Regulations.* All vessels and persons are prohibited from anchoring, dredging, laying cable, dragging, seining, bottom fishing, conducting salvage operations, or any other activity which could potentially disturb the seabed in the designated regulated navigation area. Vessels may otherwise transit or navigate within this area without reservation.

(c) *Waiver.* The Captain of the Port, Puget Sound, upon advice from the U.S. EPA Project Manager and the Washington State Department of Natural Resources, may, upon written request, authorize a waiver from this section if it is determined that the proposed operation supports USEPA remedial objectives, or can be performed in a manner that ensures the integrity of the sediment cap. A written request must describe the intended operation, state the need, and describe the proposed precautionary measures. Requests should be submitted in triplicate, to facilitate review by U.S. EPA, Coast Guard, and Washington State Agencies. USEPA managed remedial design, remedial action, habitat mitigation, or monitoring activities associated with the Olympic View Superfund Site are excluded from the waiver requirement. USEPA is required, however, to alert the Coast Guard in advance concerning any of the above-mentioned activities that may, or will, take place in the Regulated Area.

Dated: November 5, 2002.

E.M. Brown,

Rear Admiral, U.S. Coast Guard, 13th District Commander.

BILLING CODE 4910-13-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[OH154-1; FRL-7415-3]

Approval and Promulgation of Implementation Plans; Ohio Particulate Matter

AGENCY: United States Environmental Protection Agency (USEPA).

ACTION: Proposed rule.

SUMMARY: USEPA is proposing action on a variety of revisions to particulate matter regulations submitted by Ohio on July 18, 2000. USEPA is proposing to approve revisions to the form of opacity limits for utility and steel mill storage piles and roadways. USEPA is also proposing to approve formalization of existing requirements for continuous emission monitoring for certain types of facilities, criteria for the state to issue equivalent visible emission limits, and revised limits for stationary internal combustion engines. USEPA is proposing to disapprove authority for revising emission limits for Ford Motor's Cleveland Casting Plant via Title V permit modifications.

DATES: Written comments on this proposed rule must arrive on or before January 2, 2003.

ADDRESSES: Send comments to: J. Elmer Bortzer, Chief, Regulation Development Section, Air Programs Branch (AR-18J), United States Environmental Protection Agency, 77 West Jackson Boulevard, Chicago, Illinois 60604.

Copies of the State's submittal are available for inspection at the following address: (We recommend that you telephone John Summerhays at (312) 886-6067, before visiting the Region 5 Office.)

U.S. Environmental Protection Agency, Region 5, Air and Radiation Division (AR-18J), 77 West Jackson Boulevard, Chicago, Illinois 60604.

FOR FURTHER INFORMATION CONTACT: John Summerhays, Regulation Development Section, Air Programs Branch (AR-18J), U.S. Environmental Protection Agency, Region 5, Chicago, Illinois 60604, (312) 886-6067.

SUPPLEMENTARY INFORMATION: This document is organized as follows:

- I. Background
- II. Revisions to Opacity Limits for Utilities
- III. Revisions to Opacity Limits for Steel Companies
- IV. Criteria for State-Issued Visible Emissions Limits
- V. Revisions to Limits via Title V Permit
- VI. Other Submittal Elements
- VII. Summary of USEPA Action
- VIII. Administrative Requirements
