

Item	Estimated time for response	Estimated annual responses	Estimated annual burden hours
Application for Recordal or Renewal of Insignia Under the Fastener Quality Act.	10 minutes	150	26
Total	150	26

Estimated Total Annual Non-hour Respondent Cost Burden: \$3,474. There are no capital start-up costs or maintenance costs associated with this information collection. However, this collection does have annual (non-hour) costs in the form of filing fees.

Customers may also incur postage costs when submitting the Application for Recordal of Insignia Under the Fastener Quality Act to the USPTO by mail.

Under 37 CFR 2.7, the filing fee for a recordal of fastener insignia, a renewal of an insignia recordal, or the surcharge for a late renewal is \$20. If a manufacturer submits a renewal after the expiration date but within six months of that date, then the manufacturer must pay the \$20 renewal fee as well as a \$20 late renewal surcharge, for a total fee of \$40 for a late renewal. The USPTO estimates that approximately 20 of the 150 responses per year will be late renewals that incur the surcharge. Therefore, the total filing costs for this collection will be \$3,400 per year for applications for recordal of fastener insignia, renewals, and late renewals.

The public may submit the information for this collection to the USPTO by mail through the United States Postal Service. The USPTO estimates that the average first-class postage cost for a mailed submission will be 49 cents, for a total postage cost of \$74 per year.

The total non-hour respondent cost burden for this collection in the form of filing fees and postage costs is \$3,474 per year.
