

action it takes, *i.e.*, issues, amends, or revokes, a State registration. The Agency has 90 days to disapprove the registration. In such cases, the State is responsible for notifying the affected registrant.

Burden Statement: According to the Paperwork Reduction Act (PRA), "burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. The Agency may not conduct or sponsor, and a person is not required to respond to a collection of information that is subject to approval under the PRA, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's information collections appear on the collection instruments or instructions, in the **Federal Register** notices for related rulemakings and ICR notices, and, if the collection is contained in a regulation, in a table of OMB approval numbers in 40 CFR part 9.

The following is a summary of the burden estimates taken from the ICR:

Respondents/affected entities: State and territorial governments (the 50 states plus Washington, DC, Puerto Rico, the U.S. Virgin Islands, Guam and the islands of the Pacific Territory, and American Samoa).

Estimated total number of potential respondents: 60.

Frequency of response: As needed.

Estimated total/average number of responses for each respondent: 5–6.

Estimated total annual burden hours: 18,200.

Estimated total annual burden costs: \$1,585,150.

Changes in the ICR Since the Last Approval: The Agency revised its burden estimates for both States and applicants based on information received during the public comment period and in consultation with respondents. The average applicant response burden decreased by 29 hours while the average State response burden increased by 11.5 hours, resulting in a

net decrease in burden for the activities associated with this ICR. EPA estimates that the overall respondent burden has decreased from 24,604 hours to 18,200 hours, a decrease in burden of 6,404 hours. These changes are described in detail in the ICR.

According to the procedures prescribed in 5 CFR 1320.12, EPA has submitted this ICR to OMB for review and approval. Any comments related to the renewal of this ICR should be submitted within 30 days of this notice, as described above.

ICR Title: Foreign Purchaser Acknowledgment Statement of Unregistered Pesticides (OMB NO. 2070-0027; EPA No. 0161.09)

ICR Status: This is a request for extension of an existing approved collection that is currently scheduled to expire on November 30, 2002. EPA is asking OMB to approve this ICR for three years. Under 5 CFR 1320.12(b)(2), the Agency may continue to conduct or sponsor the collection of information while the submission is pending at OMB.

Abstract: This information collection program is designed to enable the Environmental Protection Agency (EPA) to provide notice to foreign purchasers of unregistered pesticides exported from the United States that the pesticide product cannot be sold in the United States. Section 17(a)(2) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) requires an exporter of any pesticide not registered under FIFRA section 3 or sold under FIFRA section 6(a)(1) to obtain a signed statement from the foreign purchaser acknowledging that the purchaser is aware that the pesticide is not registered for use in, and cannot be sold in, the United States. A copy of this statement must be transmitted to an appropriate official of the government in the importing country. The purpose of the purchaser acknowledgment statement requirement is to notify the government of the importing country that a pesticide judged hazardous to human health or the environment, or for which no such hazard assessment has been made, will be imported into that country. This information is submitted in the form of annual or per-shipment statements to the EPA, which maintains original records and transmits copies thereof to appropriate government officials of the countries which are importing the pesticide.

Burden Statement: The annual "respondent" burden for this ICR is estimated to be 24,753 hours. According to the Paperwork Reduction Act (PRA), "burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology

and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. The Agency may not conduct or sponsor, and a person is not required to respond to a collection of information that is subject to approval under the PRA, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's information collections appear on the collection instruments or instructions, in the **Federal Register** notices for related rulemakings and ICR notices, and, if the collection is contained in a regulation, in a table of OMB approval numbers in 40 CFR part 9.

The following is a summary of the burden estimates taken from the ICR:

Respondents/affected entities: Individuals or entities engaged in activities related to the registration of a pesticide product.

Estimated total number of potential respondents: 2,500.

Frequency of response: Annual or per-shipment.

Estimated total/average number of responses for each respondent: 1.

Estimated total annual burden hours: 24,753.

Estimated total annual burden costs: \$1,902,400.

According to the procedures prescribed in 5 CFR 1320.12, EPA has submitted this ICR to OMB for review and approval. Any comments related to the renewal of this ICR should be submitted within 30 days of this notice, as described above.
