

the following options during Auction No. 50:

i. Utilize a modified version of the simultaneous stopping rule. The modified stopping rule would close the auction for all licenses after the first round in which no bidder submits a proactive waiver, withdrawal, or a new bid on any license on which it is not the standing high bidder. Thus, absent any other bidding activity, a bidder placing a new bid on a license for which it is the standing high bidder would not keep the auction open under this modified stopping rule. The Bureau further seeks comment on whether this modified stopping rule should be used at any time or only in stage three of the auction.

ii. Keep the auction open even if no new acceptable bids or proactive waivers are submitted and no previous high bids are withdrawn. In this event, the effect will be the same as if a bidder had submitted a proactive waiver. The activity rule, therefore, will apply as usual, and a bidder with insufficient activity will either lose bidding eligibility or use a remaining activity rule waiver.

iii. Declare that the auction will end after a specified number of additional rounds ("special stopping rule"). If the Bureau invokes this special stopping rule, it will accept bids in the specified final round(s) only for licenses on which the high bid increased in at least one of a specified preceding number of rounds.

42. The Bureau proposes to exercise these options only in certain circumstances, such as, for example, where the auction is proceeding very slowly, there is minimal overall bidding activity, or it appears likely that the auction will not close within a reasonable period of time. Before exercising these options, the Bureau is likely to attempt to increase the pace of the auction by, for example, increasing the number of bidding rounds per day, and/or increasing the amount of the minimum bid increments for the limited number of licenses where there is still a high level of bidding activity. The Bureau seeks comment on these proposals.

Conclusion

43. Comments are due on or before December 9, 2002, and reply comments are due on or before December 16, 2002. Because of the disruption of regular mail and other deliveries in Washington, DC, the Bureau requires that all comments and reply comments be filed electronically. Comments and reply comments must be sent by electronic mail to the following address:

auction50@fcc.gov. The electronic mail containing the comments or reply comments must include a subject or caption referring to Auction No. 30 Comments. The Bureau requests that parties format any attachments to electronic mail as Adobe® Acrobat® (pdf) or Microsoft® Word documents. Copied comments and reply comments will be available for public inspection during regular business hours in the FCC Public Reference Room, Room CY-A257, 445 12th Street, SW, Washington, DC 20554.

44. In addition, the Bureau requests that commenters fax a courtesy copy of their comments and reply comments to the attention of Kathryn Garland at (717) 338-2850.

45. This proceeding has been designated as a "permit-but-disclose" proceeding in accordance with the Commission's *ex parte* rules. Persons making oral *ex parte* presentations are reminded that memoranda summarizing the presentations must contain summaries of the substance of the presentations and not merely a listing of the subjects discussed. More than one or two sentence description of the views and arguments presented is generally required. Other rules pertaining to oral and written *ex parte* presentations in permit-but-disclose proceedings are set forth in § 1.1206(b) of the Commission's rules.

BILLING CODE 6715-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Proposed Collection; Comment Request; An Evaluation of the National Cancer Institute Science Enrichment Program

SUMMARY: In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, for opportunity for public comment on proposed data collection projects, the National Cancer Institute (NCI), the National Institutes of Health (NIH) will publish periodic summaries of proposed projects to be submitted to the Office of Management and Budget (OMB) for review and approval.

Proposed Collection: Title: An Evaluation of the NCI Science Enrichment Program (SEP): Follow-up Survey. *Type of Information Collection Request:* Revision (OMB No. 0925-0510, Expiration 2/28/2003). *Need and Use of Information Collection:* This follow-up survey is part of an evaluation designed to assess the effectiveness of the NCI SEP in meeting its goals of: (1) Encouraging under-represented minority and under-served students

who have just completed ninth grade to select careers in science, mathematics, and/or research, and (2) broadening and enriching students' science, research, and sociocultural backgrounds. The program was a 5- to 6-week residential program taking place on two university campuses—University of Kentucky, Lexington, and San Diego State University—in summers 1998–2002. The 5-year evaluation was designed as

a controlled, longitudinal study, consisting of the five SEP cohorts and two cohorts of control group students who did not attend the program. The evaluation will provide NCI with valuable information regarding specific components that promoted or limited the program's effectiveness, the extent to which the program was implemented as planned, how much the two regional programs varied, and how the program

can be improved or made more effective. NCI will use this information to make decisions regarding continuation and expansion of the program. *Frequency of Response:* One time. *Affected Public:* Individuals or households. *Type of Respondents:* High school and college students. *Cost to Respondents:* \$9,600. The annual reporting burden is as follows:

Type of respondents	Average number of respondents/Yr.	Frequency of response	Average time per response	Average annual hour burden
Estimates of Hour Burden: Burden not Previously Approved (1998–2002)				
SEP Participants	200	1	0.5	100
Control Group Students	200	1	0.5	100
Control Group Students	100	2	1.00	100
Total	500			300
Estimates of Hour Burden: Burden Requested				
SEP Participants	500	2 ¹	0.5	250
Control Group Students	300	2 ¹	0.5	150
Total	800			400

¹ Pre and post.
² Follow up.

There are no Capital Costs, Operating Costs, and/or Maintenance Costs to report.

Requests for Comments: Written comments and/or suggestions from the public and affected agencies on one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, contact Mr. Frank Jackson, Center to Reduce Cancer Health Disparities, National Cancer Institute, National Institutes of Health, 6116 Executive Boulevard, Suite 602, Rockville, MD 20852, or call non-toll-

free number (301) 496–8589, or E-mail your request, including your address to: fj12i@nih.gov.

Comments Due Date: Comments regarding this information collection are best assured of having their full effect if received within 60 days of this publication.

Dated: November 25, 2002.
Reesa Nichols,
NCI Project Clearance Liaison.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Submission for OMB Review; Comment Request; Tobacco Use Supplement to the Current Population Survey: 2003 Tobacco Use Special Cessation Supplement to CPS

Summary: Under the provisions of Section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the National Cancer Institute (NCI), the National Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request for review and approval of the information collection listed below. This proposed information collection was previously published in the **Federal Register** on August 15,

2002, page 53357 and allowed 60 days for public comment. No public comments were received. The purpose of this notice is to allow an additional 30 days for public comments. The National Institutes of Health may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

Proposed Collection: Title: Tobacco Use Supplement to the Current Population Survey: 2003 Tobacco Use Special Cessation Supplement to CPS. *Type of Information Collection Request:* Revision of OMB #0925–0368, Expiration 02/28/2003. *Need and Use of Information Collection:* The 2003 Tobacco Use Special Cessation Supplement to the Current Population Survey conducted by the Census Bureau will collect data from the civilian non-institutionalized population on tobacco use and smoking prevalence, cessation behavior (*i.e.*, quit attempts, successful quitting), use of cessation products and methods, measure level of addiction and plans to quit, workplace smoking policies, health professional advice to stop smoking, and use of different types of cigarettes and potential harm reduction products. This survey will provide invaluable information to government agencies, other scientists and the general public necessary for
