BILLING CODE 4910-15-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number 2002-11809]

Notice of Public Hearing; The North County Transit District

The North County Transit District (NCTD), located in Oceanside, California, has sought a permanent waiver of compliance from certain parts of Title 49 of the Code of Federal Regulations, including Part 210 (Railroad Noise Emission Compliance Regulations), Part 217 (Railroad Operating Rules), Part 218 (Railroad Operating Practices), Part 219 (Control of Alcohol and Drug Use), Part 221 (Rear End Marking Devices), Part 223 (Safety Gazing Standards—Locomotives, Passenger Cars and Cabooses), Part 225 (Railroad Accidents/Incidents—Report Classification, and Investigations), Part 229 (Railroad Locomotive Safety Standards), Part 231 (Railroad Safety Appliance Standards), Part 238 (Passenger Equipment Safety Standards), Part 239 (Passenger Train Emergency Preparedness), and Part 240 (Qualification and Certification of Locomotive Engineers).

NCTD seeks approval of shared track usage and waiver of certain FRA regulations involving planned light rail passenger operations on the same track with freight trains between Oceanside and Escondido, California (Oceanside-Escondido Rail Project). FRA has jurisdiction over the 22-mile portion of the Oceanside-Escondido Rail Project that is also used for freight rail carrier service. The freight operator on the Oceanside-Escondido Rail Project is the Burlington Northern and Santa Fe Railway Company (BNSF), which currently conducts operations over this trackage. NCTD proposes to operate light rail vehicles on the same track as BNSF freight trains using temporal separation under which freight operations and passenger operations will not be conducted during the same part of the day. For further information about freight and passenger shared track usage, see "Statement of Agency Policy Concerning Jurisdiction Over the Safety of Railroad Passenger Operations and

Waivers Related to Shared Use of the Tracks of the General Railroad System by Light Rail and Conventional Equipment," 65 FR 42529 (July 10, 2000). See also "Joint Statement of Agency Policy Concerning Shared Use of the Tracks of the General Railroad System by Conventional Railroads and Light Rail Transit Systems," 65 FR 42626 (July 10, 2000).

The Federal Railroad Administration (FRA) issued a public notice of the NCTD waiver petition and sought comments from interested parties (67 FR 14768, March 27, 2002). All documents pertaining to this petition are in the public docket, including NCTD's detailed waiver request, and are available for inspection and copying. The documents are also available on the Internet at the docket facility's Web site at <http://dms.dot.gov>.

After examining the railroad's proposal and the available facts, FRA has determined that a public hearing is necessary before a final decision is made on this proposal. The purpose of this public hearing is to afford the Railroad Safety Board the opportunity to gather additional information from all interested parties and to explore all available options and concerns before making a final decision on the NCTD petition. FRA will deliberate all of its options, which may include denial, approval, conditional approval, or approval in part and denial in part.

The public hearing is set for 10 a.m. (PST), on Thursday, January 23, 2002, North County Transit District Office, 810 Mission Avenue, Oceanside, California, 92054-2825. Interested parties are invited to present oral statements at the hearing. The hearing will be an informal one and will be conducted in accordance with Rule 25 of the FRA Rules of Practice (49 CFR part 211.25) by a representative designated by the FRA.

The hearing will be a nonadversarial proceeding and will include no cross-examination of persons presenting statements. The FRA representative will make an opening statement outlining the scope of the hearing. After all initial statements have been completed, those persons wishing to make brief rebuttal statements will be given the opportunity to do so in the same order in which they made their initial statements. Additional procedures, if necessary for the conduct of the hearing, will be announced at the hearing.

Issued in Washington, DC, on December 2, 2002.

Grady C. Cothen, Jr.,

Deputy Associate Administrator for Safety Standards and Program Development.

BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[Finance Docket No. 34079]

San Jacinto Rail Limited—Construction Exemption—and the Burlington Northern and Santa Fe Railway Company—Operation Exemption—Build-Out to the Bayport Loop Near Houston, Harris County, TX

AGENCIES: *Lead:* Surface Transportation Board. *Cooperating:* U.S. Coast Guard, Federal Aviation Administration, National Aeronautics and Space Administration.

ACTION: Notice of availability of Draft Environmental Impact Statement and notice of public meetings.

SUMMARY: On August 30, 2001, San Jacinto Rail Limited (SJRL) and the Burlington Northern and Santa Fe Railway (BNSF) (referred to collectively as the Applicants) filed a petition with the Surface Transportation Board (Board) pursuant to 49 U.S.C. 10502 for authority for construction by SJRL and operation by BNSF of a new rail line near Houston, Harris County, Texas. The project, known as the Bayport Loop Build-Out, would involve construction of approximately 12.8 miles of new rail line to serve the petro-chemical industries in the Bayport Industrial District (Bayport Loop). The Proposed Action includes rail operations to and from the new rail line near Ellington Field over trackage rights on Union Pacific Railroad Company's (UP's) GH&H line and UP's East Belt, Terminal, Lafayette, and Baytown Subdivisions to the storage yard operated by CMC Railroad at Dayton, approximately 30 miles east of Houston. The project would require actions by several Federal agencies, including the Board, the U.S. Coast Guard (USCG), and the National Aeronautics and Space Administration (NASA), and may require actions by the Federal Aviation Administration (FAA).

The Board, through its Section of Environmental Analysis (SEA) and in cooperation with USCG, FAA, and NASA, has published a Draft Environmental Impact Statement (Draft EIS) for the Bayport Loop Build-Out Project. This Draft EIS is an analysis of

the potential environmental impacts of the Applicants' proposal and its reasonable and feasible alternatives, including the No-Action Alternative. The Build Alternatives, which are the Alternatives involving construction, would cause moderate wetland, surface water, and biological impacts. SEA recommends that the Board impose the Applicants' proposed voluntary mitigation measures as a condition of petition approval. The mitigation measures address these moderate impacts as well as a range of additional issues of interest to the community. The Proposed Action and Alternatives would cause negligible effects on all other impact areas. SEA invites public and agency comments on all aspects of the Draft EIS. Comments must be faxed or postmarked by the close of the comment period, which is January 27, 2003. Information on how to submit comments is set forth below.

SEA, working with the three cooperating agencies, will make its final recommendations on the project, including environmentally preferable alternative(s) and environmental mitigation, to the Board in the Final EIS, after considering all public comments on the Draft EIS. The Final EIS will be issued after public comments have been received, reviewed, and fully evaluated. Notice of availability of the Final EIS will be published in the **Federal Register**.

Following issuance of the Final EIS, the Board will make its final decision regarding this project and any environmental conditions it might impose. In reaching its final decision in this proceeding, the Board will take into account the full environmental record, including the Draft EIS, the Final EIS, and all public and agency comments received. The cooperating agencies will issue their decisions based on the same environmental record.

FOR FURTHER INFORMATION CONTACT: Ms. Dana White, SEA Project Manager, toll-free at 1-888-229-7857 (TDD for the hearing impaired 1-800-877-8339). The Web site for the Surface Transportation Board is www.stb.dot.gov.

Mr. Phil Johnson, U.S. Coast Guard, (504) 589-2965.

Ms. Nan Terry, Federal Aviation Administration, (817) 222-5607.

Ms. Perri Fox, National Aeronautics and Space Administration, (281) 483-3157.

SUPPLEMENTARY INFORMATION:

Floodplains Notification: As required by Executive Order 11988 (Floodplain Management), SEA is providing Notice that the Proposed Action would involve new construction in a floodplain. SEA's

preliminary determination is that floodplains along Horsepen Bayou, Armand Bayou, Spring Gully, Big Island Slough, and Taylor Bayou and various unnamed tributaries and flood control channels could not be avoided by the Proposed Action or the other Build Alternatives because of the linear nature of the proposed project. SEA has also determined that the floodplain impacts would be similar for the Proposed Action and the other Build Alternatives.

The Proposed Action would not cause an adverse effect or incompatible development in a floodplain because the facility would be designed, constructed, and maintained to accommodate flood flows and minimize impacts to floodplains. The proposed design would include properly sized, sited, constructed, and maintained bridges and culverts, and new drainage ditches on both sides of the rail bed along most of the alignment. The floodways along Horsepen Bayou, Armand Bayou, Big Island Slough, and Spring Gully and the main channel of Taylor Bayou would be spanned by bridges. In addition, the design and specifications for bridges, culverts, channels, and related structures would satisfy Harris County Flood Control District requirements. All bridge crossings would accommodate flood flows from the 24-hour, one-percent probability storm and would conform to all applicable design standards required by the National Flood Insurance Program. The design of crossings of flood control channels or connections to drainage channels would require approval from the Engineering Division and the Flood Control Division of the Harris County Public Infrastructure Department.

Wetlands Finding and Notification: As required by Executive Order 11990 (Protection of Wetlands), the FAA and NASA are providing Notice that the Proposed Action and the other Build Alternatives would involve new construction in wetlands. The FAA and NASA have reached a preliminary determination that construction in wetlands could not be avoided because of the linear nature of the proposed project. The Proposed Action and the other Build Alternatives include all practicable measures to avoid and minimize harm to wetlands. In addition, the Applicants have proposed a conceptual mitigation plan to compensate for the unavoidable impacts to wetlands, which includes restoration, creation, and preservation of wetlands.

Joint 404/401 Permit Application: The Applicants have submitted a Joint Permit Application under Section 404/401 of the Clean Water Act to the U.S. Army Corps of Engineers (USACE). The

USACE will issue a Public Notice on the Joint Permit Application. For information on the Applicants' Joint Permit Application contact: John Machol, U.S. Army Corps of Engineers, Regulatory Branch, CESWG-PE-R, Jadwin Building, 2000 Fort Point Road, Galveston, TX 77550.

Public Availability: The entire Draft EIS is available on the Board's Web site (<http://www.stb.dot.gov>) in a downloadable format by clicking on the "Decisions & Notices" button and searching by Service date or Docket Number. The Draft EIS will be listed as an Environmental Review under the "TYPE" category. Because of the size of the document, distribution of the entire Draft EIS has been limited to governmental agencies, elected officials, community groups, and parties of record. This Notice of Availability has been distributed to over 1,000 other interested parties, including private citizens.

SEA has also distributed the Draft EIS to the repositories listed below and asked that the entire Draft EIS be made publicly available in their reference section. A Spanish translation of the Executive Summary of the Draft EIS will also be available at the repositories. Copies of the Draft EIS in hardcopy or on CD-ROM and the Executive Summary translation are also available by calling the toll-free number at 1-888-229-7857.

Public Comment: Written comments on the Draft EIS must be postmarked or faxed by January 27, 2003. The public and any interested parties are encouraged to make written comments on all aspects of this Draft EIS. SEA will consider all comments in preparing the Final EIS and the Final EIS will respond to all substantive comments. When submitting comments on the Draft EIS, please be as specific as possible and substantiate your concerns and recommendations. Please mail written comments to: Surface Transportation Board, 1925 K Street, NW., Washington, DC 20423-0001,

To ensure proper handling of your comments, please mark your submission: *Attention:* Dana White, Section of Environmental Analysis, Environmental Filing FD No. 34079.

Due to delays in the delivery of mail currently being experienced by Federal agencies in Washington, DC, SEA encourages that comments be faxed to 1-866-293-4979. Faxed comments will be given the same weight as mailed comments; therefore, persons submitting comments by fax do not have to also send comments by mail.

Further information about the project can be obtained by calling SEA's toll-free number at 1-888-229-7857 (TDD for the hearing impaired 1-800-877-8339).

Public Meetings: In addition to receiving written comments, SEA will host two public meetings on the Draft EIS. At each meeting, SEA will give a brief presentation and interested parties will be invited to make oral comments. SEA will have a transcriber present to record the oral comments in either English or Spanish. Written comments may also be submitted at the meetings. Meetings will be held at the following locations, dates, and times:

Pasadena Convention Center, 7902 Fairmont Parkway, Pasadena, TX, January 14, 2003, 7-9 p.m.
Cesar E. Chavez High School, 8501 Howard Drive, Houston, TX, January 15, 2003, 7-9 p.m.

Both meetings will follow the same format and agenda; it is not necessary to attend both meetings.

Pre-Registration for Public Meetings: Persons wanting to speak at a public meeting are strongly urged to pre-register by calling the toll-free Environmental Hotline for this project at 1-888-229-7857 (TDD for the hearing impaired 1-800-877-8339) and leaving their name, telephone number, the name of any group, business, or agency

affiliation, if applicable, and the date of the meeting at which they wish to speak. The deadline for pre-registration for all meetings is January 7, 2003.

Persons will be called to speak at each meeting in the order in which they pre-registered. Those wishing to speak who did not pre-register will be accommodated at each meeting as time allows. Those wishing to speak at more than one meeting will also be accommodated as time allows and after all others have had an opportunity to participate. As SEA would like as many persons as possible to participate and given that there will be a limited amount of time at each meeting, all speakers are strongly encouraged to prepare summary oral comments, and submit detailed comments in writing. SEA also encourages groups of individuals with similar comments to designate a representative to speak for them. A translator will be available at both meetings for Spanish-speakers wishing to speak.

The Web site for the Surface Transportation Board is www.stb.dot.gov.

Decided: November 20, 2002.

By the Board, Victoria Rutson, Chief, Section of Environmental Analysis.

Vernon A. Williams,
Secretary.
